Good morning,

I am hoping you can help me locate some items on the fixed asset listing, I'm not quite sure what they are. I'm trying to find what invoice these were paid on, sorry I can't be more informative. If you know what these are, please let me know.

On the Cisco Catalyst: I have another set of these on the books for \$183,255 in purchase total. (Specifically they are listed as a Cisco Catalyst 930048 12mGig).

Hi Alan,

That is our most common network switch. It typically costs 5-8k per switch and we have a couple hundred. I've attached a few POs that I have access to but nothing lines up exactly.

- Quote 095228vs is the closet I could get to 135,000
- PO 2300132 for 183,255.00 - I found this on the attached purchase order listing details doc. I'm guessing we bought it from ACT during the move?

You may already have it but I also found this when looking for the cisco information, and it appears to have most of these items on there [REDACTED]

Thanks Josh. I am guessing what happened is at one point Janet booked the asset based on the estimated purchase price from ATC, and instead of updating the worksheet to the actual purchase price, it was duplicated. I'm going to go ahead and remove the unknown bank of switches from my FA report.
