Can either of you help with the following question from the auditor?

92 Census Questions Below:

Our goal is to perform a reconciliation of total covered payroll for the year under audit to the earnings reported to the pension plans and recalculate total employer contribution based on covered payroll.

That being said, can you provide us with the detailed YTD payroll reports that would allow us to recalculate the employer contribution that gets reported to IPERS?

Alan Laurits Moran, CPA

Do you think this is what they want? I can export it in excel if that's better. There isn't a way to pull a date range so I would have to export by month unless I add that with report writer.
