132 PY Compliance Finding Remediation

For the FY22 compliance finding regarding the failure to retain a record of a student's withdrawal from the District, can you provide tangible support to show the changes made to the system to ensure this doesn't occur again? This is what we have documented, but need to see something to prove it was actually done:

"PDW Adam Kurth, CFO this finding was shared with ICCSD's data services team, which oversees processing of student registrations, in addition to managing and providing student data. The data services team reviewed their own processes, and provided both documentation and training to address critical tasks when exiting a student, detailed instructions for exiting a student with an unknown destination, information regarding response to records requests, and specific direction regarding how long specific documentation should be retained."
