
FY 2026 School Budget System is Available

John.Parker@dom.iowa.gov Parker, John

Thursday, January 30, 2025 at 4:58:03 PM Central Standard Time

Good afternoon,

The online budget system is now open for FY 2026 budgets.

To access the budgets, you will need to use your State of Iowa A&A ID - Typically firstname.lastname@iowaID

If you log into the system and do not see any budgets after selecting "Budgets" send an email to me with your A&A ID and I will connect your account to the budgets you request.

One ID can be connected to many budgets.

Updated Process for FY 2026 (Example Timeline and Dates are attached):

1. The Proposed Tax Notice (First Hearing) must be completed by March 5th at 4:00pm.
2. This will serve as the notice for your first public hearing to establish your maximum dollars in property taxes that can be levied.
3. In order to populate the maximum proposed property taxes on the Proposed Tax Notice the Aid and Levy Input, Long Term Debt Schedule, and Proposed Tax Notice (First Hearing) tabs must be completed.
4. Once the Aid and Levy Input and Long Term Debt Schedule tabs are complete you will state the reasons (300 character limit) as to why the proposed property tax dollars exceed the current year property tax dollars. If there is not an increase in the proposed property taxes a simple statement stating no increase is acceptable.

After completing the reasons for the increase, you will use the **"Propose Tax Notice"** Button to fill out the meeting information.

The first public hearing on the proposed property taxes cannot take place until March 20 at the earliest.

The [DOM School Budget Reference Area](#) online has the following resources to help assist districts understand what is included in the budget and Aid and Levy lines:

1. Budget Instructions (also available in the budget system)
2. Supplementary Weighting Detail for Line 3.9 of the Aid and Levy
 1. This is where you can see the detail of what makes up line 3.9 of the Aid and Levy including Concurrent Enrollment and Operational Sharing by position
3. State Foundation Aid Detail for FY 2025 – This has the detail of what goes into Line 10 – State Foundation Aid of the Re-estimated tab. It does include your share of the \$14.0 Education Support Personnel Payment
4. Two-Tier Assessment Payment – Breakdown of the FY 2025 Two-Tier Assessment Payment (sometimes called Tier One). This is prepopulated in your Re-Estimated Tab and used as the estimate for FY 2026 Budget Year

New Enhancements for FY 2026

1. Preliminary Audit Adjustments have been preloaded into the System. This is for Fall 2023. Fall 2024 will be adjusted on the FY 2027 Aid and Levy.
 1. Feel free to overwrite the amounts if you do not agree
 2. Audits will be verified by DE and the final amounts will be sent in May with the Preliminary Aid and Levy

2. Preliminary FY 2026 Dropout and Dropout Prevention Dollars were loaded into the system yesterday.
3. District Income Tax Paid in 2023 was loaded earlier this week and you may have to adjust your Income Surtax Rates, so the program does not collect more than allowed.
4. A new option using the "Documents" button to submit your budget to the County Auditor is available (second attachment) details the features.

Important Reminders

1. There may be some movement in the next week or so in your rate. There are a few counties that are making corrections to value and it does impact everyone's rates for the Instructional Support Program
2. This is your one and only budget file, you cannot create versions
3. Multiple people can be in the same budget at the same time.
4. The last one to SAVE the file will overwrite anything the other person has done.
 1. For example, if you put in a number, Save and then the other person does not have a number and Saves the information will be lost.
5. Amendments will also be done in the system and the instructions detail the process.
6. DOM does not need any paper copies of anything from the budget system.
7. A new feature has been added for **filing your budget with the County Auditor by Wednesday, April 30th**.
 1. This is in the instructions and highlighted in the second attachment.

Budget Adjustment (Guarantee) resolutions can be scanned and emailed to me by April 30. The example resolution language is in the "Aid and Levy Input" tab.

-

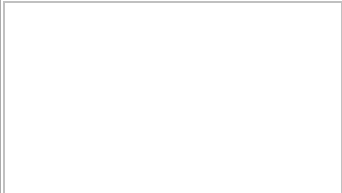

TSS Estimate for FY 2026

1. Teacher Salary Supplement can be found on Line 4.22 or Line 5.5 of the Aid and Levy
2. Like always the amount is estimated and not finalized until June
3. The current estimate on Line 4.22 is based on Fall 2023 BEDS data, Fall 2024 is not available yet.
4. Depending on the timing new estimates will either be added to the system or sent separately in a document
5. I do not have a timeframe for when it will be released.

The budget for FY 2026 can be found using this link:
