I wanted to see if we could get your models built for you. We just need a few pieces of information. Then you would have access to reports that you could instantly use with the Board. I've attached a couple of the sample reports that you would have access to.

Here's what is needed:

FY24 CAR (.txt file same one that you sent to the State)

Reference listing (account segment definitions – for SUI, instructions attached)

FY24 ending Fund balances

FY25 Line Item Budget- if you don't have one, after we load your CAR, I can pull a draft LIB for you to review.

For Budget management-

1. July24- Feb25 monthly transactions and we will load it when we build your model,

Please let me know if you have any questions

As the school year comes to an end, now is a great time to get a jump on the FY26 line item budget. We will also have a year end- State of the District webinar in June, where you can compile analytics about your District that you can use in upcoming meetings and presentations.

We need to finish the data collection, so we can build your models. Detail on what is needed can be found in the email below.

Please let me know if you have any questions.
