Dear School Business Official:

You are receiving this email because your district received a second payment toward the High Cost Claim submitted for the 2023-24 school year. The Department was able to make this supplemental reimbursement due to the availability of grant funds to Iowa. The funding source is IDEA, Section 619.

The district will code this revenue to Source/Project 4522 in FY25 since neither the district nor the state knew this would be reimbursed before the CAR was filed. Since the claimed expenditures were in FY24, we will add a DE Adjustment to the FY25 CAR to allow this additional revenue to flow through without matching expenditures. Do not code any matching expenditures to this in FY25.

This additional payment will also be reflected in your FY25 SES, so your FY24 SES will not be affected.

Please be mindful that since the fiscal years in which the expenditures occurred and revenue received differ, this may result in the FY25 special education deficit differing from what might be typically expected.

If you have any questions in regards to your SES, please let me know. If you have any account coding questions, please contact Jina, Bobby, or myself.

Thank you,

--

Good morning,

There was a typo in the email that was sent to you on February 5 (see typo highlighted below). The second payment toward the High Cost Claim submitted for the 2023-24 school year that the district received in FY25 should be coded to Source/Project 4525 instead of what was stated in the email. Please let me know if you have any questions.

Thank you,

Good morning,

The second payment toward the High Cost Claim submitted for the 2023-24 school year that the district received were funded by the IDEA Preschool Grant and should be coded to Source/Project 4522 (have this close to Account 759, Project 0000). I have updated the DE adjustment to allow this additional revenue to flow through without matching expenditures for Project 4522. I apologize for any inconvenience this may have caused. Have a great day!
