Hi Bobby,

Thank you for sending.

I have copied Alan Moran - he is our new director of Financial Reporting and our other SBO - I will maintain my SBO license but Alan will be our District's main SBO contact - we'll get that updated on our District's settings but I wanted to give you that information as well.

I'll let Alan work with the business office on this question and follow back up with you.

Thanks!

Hi Lyndsee,

As we complete our required federal reporting, we are required to explain statewide variances for certain values. Please review the variance between FY23 and FY24 for Business support service expenditures attached and provide a response at your earliest convenience. Were all the FY24 expenditures accurate? If so, please provide a brief explanation for the variance between the two fiscal years. If it is not accurate, please let us know so it can be coded properly. It appears the largest discrepancy is from object 233. There was an expenditure of -24,303 in FY23 and 313,853.00 in FY24.

Thank you,

Bobby Wilson

Good afternoon Bobby,

Sorry to keep passing the buck, but I'm also going to loop Adam in here, the 233 appears to be the GASB 68 calculation for pensions, which I know can swing fairly significantly (both in dollar value and whether it is rev. or Exp for a period) given the size of our district and the dollar value of our pension account. Adam, did you book this for FY 24 and have a summary of this handy? If not, I'll look and see if I can find what Janet had calculated and allocated on this.
