All,

This invoice is good to pay. However, I don't know if there was an accident report filled out for this for insurance? This was from a car hitting a railing in the front of City High on 2/7. I wasn't here that day to know if anything was being handled by the building staff there for damage cost from the parent?

I'm not entirely objected to it but I would need to know the terms of the repayment. The parent would need to sign a formal written agreement including interest penalties I won't make you worry about the interest penalties unless I need to levy them to receive payment from the parent. Either way I don't want repayment to extend more than 12 months. Adam do you have to know if the attorneys have any sort of prom note we could use? It wouldn't be a bad thing to keep on file just in case something like this ever comes up again.
