Hi Kim,

Here's memo content (below) and attachments for the hardware break-fix item recommending continuation of our break-fix insurance with Remi/Gallagher:

In February 2025, the District issued a public Request for Bids for a three-year agreement providing break/fix insurance coverage for district-owned equipment. Two qualified proposals were received: one from Specialty Underwriters at \$1,818,103 annually, and one from Remi (in partnership with Gallagher), at \$1,950,000 annually.

While Remi's proposal represents the higher bid, we recommend renewing with Remi based on the total value it provides to the district. The proposal includes broad equipment coverage, a higher hourly labor reimbursement rate, structured HVAC implementation at four pilot sites (with expansion options) including detail regarding covered costs, an extended claims window, integration with our existing risk management infrastructure, and a proven track record of effective service provided to the district.

This premium will be paid from the management fund and will not have a general fund impact.
