Hi Josh – thank you for the update! I left you a quick voicemail earlier on this; just wanted to make you aware that even if ICCSD issues a PO directly to Sterling for this transaction; you will still have the option to finance through DDI if you change your mind. I believe Shayln/Sterling mentioned about a 6 to 9-week lead time on the devices, so you technically have this amount of time to determine how to proceed (cash vs financing). We also reviewed the credit profile further today and with an Aa3 Moody's rating we will easily formalize a credit approval upon receiving your 2023's financials (once those become available in a few weeks).

Thanks again, Josh/Team – would it make sense to hop on the Team's meeting scheduled for next Monday just to keep the financing dialogue open? We appreciate all the communication and look forward to touching base as it makes sense.

Shalyn and Bob,

Thank you for the notes and options. We have some alternating times out of the office, a meeting with the audit team, and some internal discussions that need to take place both about the financials and our capacity to receive devices on the new timeline. I plan to get back to you no later than Monday!

Thanks,

To clarify the shipping time- once we place the order with our distributor, it will take them a week to process. Once it ships it's 2-3 days. So it's actually a week and a half roughly from the time we place the order.

Also, we are requesting, this morning, for an extension on that hold past Monday the 5th. We should know today.

Thank you!!

Good Morning Team,

Please see responses to your questions:

1) Are all 16,000 computers student Chromebooks? **Yes, our distributor has approximately 16,000 chromebooks in stock currently**

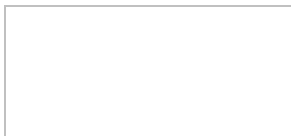

2) Do you have any estimates on the time from shipping to showing up at our door?

Approximately 2-3 days for delivery, could be 4 but we will keep you updated!

3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks? **Approximately 16,000 chromebooks are on hold and set aside for ICCSD until Monday, after that, they would open up to other clients, and then it could potentially be 8+ weeks to get more Chromebooks back in stock**

Let us know if you have any additional questions.

Thank you!

Hi Bob,

That's great news. Could

you answer a few follow-up questions so we can make a more educated decision?

- 1) Are all 16,000 computers student Chromebooks?
- 2) Do you have any estimates on the time from shipping to showing up at our door?
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks?

We have focused on some other short-term projects over warehouse clean up and making space for computers, with an understanding that we had some more time. I think we are probably capable of getting the space ready in time, and would likely prefer that option but Amanda is out the next two days, and I'd want to make sure she is involved in that decision as it's her team doing the work.

Thanks,

Josh Reynolds

Hi Bob,

I'll be following up with DDI shortly. We are going to proceed with purchasing. If you could hold off on requesting the devices be shipped closer to the 11th or 12th, that would align better with when we are able to start our summer staff, and we'd appreciate it. Could you also confirm the following timelines for devices?

16,000 student Chromebooks requested on the 12th. Arrival ~10 days later.
The rest of the equipment from Q-00675349 ~6 weeks.
Equipment on Q-00675499 ~2 weeks

Thank you,

Hi Bob,

I'll be following up with DDI shortly. We are going to proceed with purchasing. If you could hold off on requesting the devices be shipped closer to the 11th or 12th, that would align better with when we are able to start our summer staff, and we'd appreciate it. Could you also confirm the following timelines for devices?

16,000 student Chromebooks requested on the 12th. Arrival ~10 days later.
The rest of the equipment from Q-00675349 ~6 weeks.
Equipment on Q-00675499 ~2 weeks

Thank you,

Josh Reynolds

To clarify the shipping time- once we place the order with our distributor, it will take them a week to process. Once it ships it's 2-3 days. So it's actually a week and a half roughly from the time we place the order.
Also, we are requesting, this morning, for an extension on that hold past Monday the 5th. We should know today.
Thank you!!

Subject: Re: Iowa City/DDI Leasing Agreement - Touch Point

Good Morning Team,

Please see responses to your questions:

- 1) Are all 16,000 computers student Chromebooks? **Yes, our distributor has approximately 16,000 chromebooks in stock currently**
- 2) Do you have any estimates on the time from shipping to showing up at our door?
Approximately 2-3 days for delivery, could be 4 but we will keep you updated!
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks? **Approximately 16,000 chromebooks are on hold and set aside for ICCSD until Monday, after that, they would open up to other clients, and then it could potentially be 8+ weeks to get more Chromebooks back in stock**

Let us know if you have any additional questions.

Thank you!

Thanks Josh! It would seem, from that email, that if you could get 23 results in, they could make it happen. I assume that would be beneficial for ICCSD, so we'll keep our fingers crossed.
With that said, we have a short runway to make that happen. I've included Shay in the email. She's going to answer those three questions in her reply to all, as I am on I80 to Kearney NE!
I am available to talk anytime!
Thank you!!

This message came from outside of Sterling. Do not click links or open attachments unless you are expecting the content and know it is safe. Hi Bob, That's

great news. Could you answer a few follow-up questions so we can make a more educated decision?

- 1) Are all 16,000 computers student Chromebooks?
- 2) Do you have any estimates on the time from shipping to showing up at our door?

3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks?

We have focused on some other short-term projects over warehouse clean up and making space for computers, with an understanding that we had some more time. I think we are probably capable of getting the space ready in time, and would likely prefer that option but Amanda is out the next two days, and I'd want to make sure she is involved in that decision as it's her team doing the work.

Thanks,

Josh Reynolds

Josh
—

thank you for the update! I left you a quick voicemail earlier on this; just wanted to make you aware that even if ICCSD issues a PO directly to Sterling for this transaction; you will still have the option to finance through DDI if you change your mind. I believe Shayln/Sterling mentioned about a 6 to 9-week lead time on the devices, so you technically have this amount of time to determine how to proceed (cash vs financing). We also reviewed the credit profile further today and with an Aa3 Moody's rating we will easily formalize a credit approval upon receiving your 2023's financials (once those become available in a few weeks).

Thanks again, Josh/Team – would it make sense to hop on the Team's meeting scheduled for next Monday just to keep the financing dialogue open? We appreciate all the communication and look forward to touching base as it makes sense.

Good Morning!

I just wanted to update you on the smaller order Q-00675499 (for image units). Lenovo confirmed Part # 30H1S8GV00 (Lenovo Workstation Ts P3 Tiny) should be shipping out by the end of this week.

For Part # 21LNS5A700 (Lenovo ThinkPad L13 2in1 Gen 5) the expedited request was approved, and the Lenovo team is hoping to have an ESD on that one soon, so I will share that as soon as I receive that!

Thank you!

To clarify the shipping time- once we place the order with our distributor, it will take them a week to process. Once it ships it's 2-3 days. So it's actually a week and a half roughly from the time we place the order. Also, we are requesting, this morning, for an extension on that hold past Monday the 5th. We should know today. Thank you!!

Subject: Re: Iowa City/DDI Leasing Agreement - Touch Point

Good Morning Team,

Please see responses to your questions:

- 1) Are all 16,000 computers student Chromebooks? **Yes, our distributor has approximately 16,000 chromebooks in stock currently**
- 2) Do you have any estimates on the time from shipping to showing up at our door? **Approximately 2-3 days for delivery, could be 4 but we will keep you updated!**
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks? **Approximately 16,000 chromebooks are on hold and set aside for ICCSD until Monday, after that, they would open up to other clients, and then it could potentially be 8+ weeks to get more Chromebooks back in stock**

Let us know if you have any additional questions.

Thank you!

Thanks Josh! It would seem, from that email, that if you could get 23 results in, they could make it happen. I assume that would be beneficial for ICCSD, so we'll keep our fingers crossed.
With that said, we have a short runway to make that happen. I've included Shay in the email. She's going to answer those three questions in her reply to all, as I am on I80 to Kearney NE!
I am available to talk anytime!
Thank you!!

That's
great news. Could you answer a few follow-up questions so we can make a more educated decision?

- 1) Are all 16,000 computers student Chromebooks?
- 2) Do you have any estimates on the time from shipping to showing up at our door?
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks?

We have focused on some other short-term projects over warehouse clean up and making space for computers, with an understanding that we had some more time. I think we are probably capable of getting the space ready in time, and would likely prefer that option but Amanda is out the next two days, and I'd want to make sure she is involve in that decision as its her team doing the work.

Thanks,

—
thank you for the update! I left you a quick voicemail earlier on this; just wanted to make you aware that even if ICCSD issues a PO directly to Sterling for this transaction; you will still have the option to finance through DDI if you change your mind. I believe Shayln/Sterling mentioned about a 6 to 9-week lead time on the devices, so you technically have this amount of time to determine how to proceed (cash vs financing). We also reviewed the credit profile further today and with an Aa3 Moody's rating we will easily formalize a credit approval upon receiving your 2023's financials (once those become available in a few weeks).

Thanks again, Josh/Team – would it make sense to hop on the Team's meeting scheduled for next Monday just to keep the financing dialogue open? We appreciate all the communication and look forward to touching base as it makes sense.

Josh and Team-

Here are updated numbers on the available units on the Student Bid:

Actual number of units to ship next week- 16,852.

The remaining will be mid-May and we will monitor daily.

Currently we are waiting on the ESD for the Teacher Bid. Should have today. Once we have that, let's get on a call so we can explain how the initial shipment and delivery will work so that we can hit your proposed window for delivery . I want to make sure we are all on the same page!!!

I'll be in touch soon!

Thank you!

Hi Bob,
I'll be following up with DDI shortly. We are going to proceed with purchasing. If you could hold off on requesting the devices be shipped closer to the 11th or 12th, that would align better with when we are able to start our summer staff, and we'd appreciate it. Could you also confirm the following timelines for devices?

16,000 student Chromebooks requested on the 12th. Arrival ~10 days later.

The rest of the equipment from Q-00675349 ~6 weeks.

Equipment on Q-00675499 ~2 weeks

Thank you,

To clarify the shipping time- once we place the order with our distributor, it will take them a week to process. Once it ships it's 2-3 days. So it's actually a week and a half roughly from the time we place the order. Also, we are requesting, this morning, for an extension on that hold past Monday the 5th. We should know today. Thank you!!

Good Morning Team,

Please see responses to your questions:

- 1) Are all 16,000 computers student Chromebooks? **Yes, our distributor has approximately 16,000 chromebooks in stock currently**
- 2) Do you have any estimates on the time from shipping to showing up at our door? **Approximately 2-3 days for delivery, could be 4 but we will keep you updated!**
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks? **Approximately 16,000 chromebooks are on hold and set aside for ICCSD until Monday, after that, they would open up to other clients, and then it could potentially be 8+ weeks to get more Chromebooks back in stock**

Let us know if you have any additional questions.

Thank you!

Thanks Josh! It would seem, from that email, that if you could get 23 results in, they could make it happen. I assume that would be beneficial for ICCSD, so we'll keep our fingers crossed.
With that said, we have a short runway to make that happen. I've included Shay in the email. She's going to answer those three questions in her reply to all, as I am on I80 to Kearney NE!
I am available to talk anytime!
Thank you!!

Good questions! I'll get answers asap....may be in the morning.

Is the email from DDI peaking any interest on relooking that process?

Hi
Bob,

This message came from outside of Sterling. Do not click links or open attachments unless you are expecting the content and know it is safe.

That's great news. Could you answer a few follow-up questions so we can make a more educated decision?

- 1) Are all 16,000 computers student Chromebooks?
- 2) Do you have any estimates on the time from shipping to showing up at our door?
- 3) If we say let's hold off on shipping now, is this a missed opportunity situation? Are we waiting the full 6 weeks if we said hold off, or could we delay it 1 or 2 weeks?

We have focused on some other short-term projects over warehouse clean up and making space for computers, with an understanding that we had some more time. I think we are probably capable of getting the space ready in time, and would likely prefer that option but Amanda is out the next two days, and I'd want to make sure she is involved in that decision as it's her team doing the work.

Thanks,

Josh Reynolds

Hey Josh! A couple of things here:

We can get 16k of the units shipped early next week. Can you take those or should I hold them to see if the lease works out?

Josh – thank you for the update! I left you a quick voicemail earlier on this; just wanted to make you aware that even if ICCSD issues a PO directly to Sterling for this transaction; you will still have the option to finance through DDI if you change your mind. I believe Shayln/Sterling mentioned about a 6 to 9-week lead time on the devices, so you technically have this amount of time to determine how to proceed (cash vs financing). We also reviewed the credit profile further today and with an Aa3 Moody's rating we will easily formalize a credit approval upon receiving your 2023's financials (once those become available in a few weeks).

Thanks again, Josh/Team – would it make sense to hop on the Team's meeting scheduled for next Monday just to keep the financing dialogue open? We appreciate all the communication and look forward to touching base as it makes sense.

CAUTION: This email is from outside DDI. Be careful with links or attachments

Hello everyone,

Due to the uncertainty on timing, we believe moving forward without financing is in our best interest. Thanks for your assistance with this, and please let me know if there are any further questions.

Thanks,
