Thank you Alan—much appreciated!

Depending on the nature or volume of changes from our end and what makes the most sense at the time, we can then pass this single version back-and-forth and ensure all future changes are running through the same files.

Thanks again,

Good Afternoon Alan and Adam,

I hope you both are well and I hope you both had a good Memorial Day weekend. As you know, over the past several weeks Justine and team have been working through open items. We definitely appreciate your assistance in helping them make progress!

Over the next couple weeks, we'll be working through reviews of the audit file and then the team will be addressing any comments that come from our reviews as well as any remaining open items. Given where we are at in the audit process, we can plan on sending over a weekly update to you going forwards so that you have detailed information from us and everyone is on the same page.

One item I did want to briefly circle back on is the changes made to the report over the past couple of weeks. Justine had shared with me that you (Alan) had made revisions to leases on the report, and then I know you also shared you made an update to cost allocation for the internal service fund as well. If you remember, back in April we had our report department go back through the report files and get the word/excel files reconnected as well as fix formatting throughout both files. I have attached the two files that our report department worked through. Alan, just to avoid any conflicts between versions or missed changes, would you mind making your changes on these versions? That way we can capture both the numbers that have changed and the setup work our report team did to get the report ready.

Please let us know if you have any questions!

Thank you,

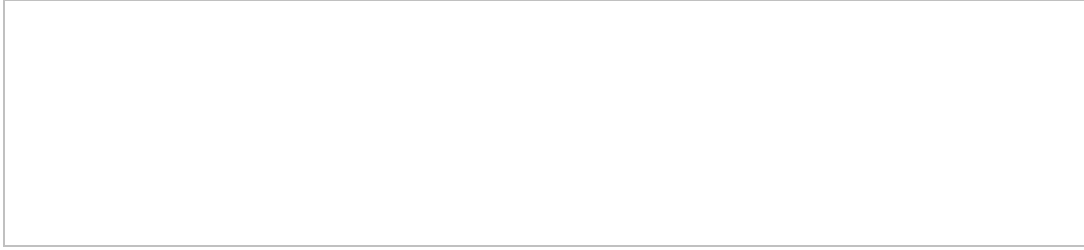

Aaron Calderon

Hi Alan,

As Aaron mentioned, we are currently working through audit reviews and addressing comments over the next few weeks. During this process, it was noted that we did not obtain sufficient coverage for the Business-Type Activity Fund and the Aggregate Non-Major Fund expenditure testing, due to changes in audit guidance that have changed over the past few years.

I have attached the relevant selections above and also uploaded them to Suralink for your reference.

Additionally, we have made two more investment income selections for the Debt Service Fund.

Please let me know if you have any questions or concerns.

Thank you for your help!

The Dental Ins Claims were a journal entry. I don't have access to that documentation.

Good afternoon Justine,

I've uploaded the Invoices except the Delta Dental. I'll also need to meet with Adam on that interest income item to confirm what account that was with, he should be back tomorrow.

It looks like you have a few questionnaire items that were uploaded. I'll be heading into a meeting soon that might last to the end of the day, but will take a look at those first thing in the morning if I don't get to them by then.

Hi Alan,

As Aaron mentioned, we are currently working through audit reviews and addressing comments over the next few weeks. During this process, it was noted that we did not obtain sufficient coverage for the Business-Type Activity Fund and the Aggregate Non-Major Fund expenditure testing, due to changes in audit guidance that have changed over the past few years.

I have attached the relevant selections above and also uploaded them to Suralink for your reference.

Additionally, we have made two more investment income selections for the Debt Service Fund.

Please let me know if you have any questions or concerns.

Thank you for your help!

Good Afternoon Alan and Adam,

I hope you both are well and I hope you both had a good Memorial Day weekend. As you know, over the past several weeks Justine and team have been working through open items. We definitely appreciate your assistance in helping them make progress!

Over the next couple weeks, we'll be working through reviews of the audit file and then the team will be addressing any comments that come from our reviews as well as any remaining open items. Given where we are at in the audit

process, we can plan on sending over a weekly update to you going forwards so that you have detailed information from us and everyone is on the same page.

One item I did want to briefly circle back on is the changes made to the report over the past couple of weeks. Justine had shared with me that you (Alan) had made revisions to leases on the report, and then I know you also shared you made an update to cost allocation for the internal service fund as well. If you remember, back in April we had our report department go back through the report files and get the word/excel files reconnected as well as fix formatting throughout both files. I have attached the two files that our report department worked through. Alan, just to avoid any conflicts between versions or missed changes, would you mind making your changes on these versions? That way we can capture both the numbers that have changed and the setup work our report team did to get the report ready.

Please let us know if you have any questions!

Thank you,

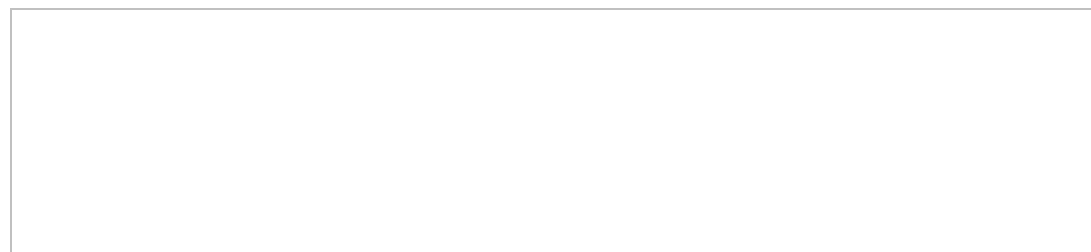

Aaron Calderon

Hi Adam,

Thank you for providing those so timely!

I have just completed adding our understanding questions to Suralink. Some of the more recent auditing standards that have been issued place a strong emphasis on ensuring that we have a clear understanding of the processes and controls related to various transaction cycles.

With that in mind, I have included several tailoring questions within each request. Not every question may be applicable or require a complete response. They are primarily intended to help illustrate what we are aiming to understand—the processes and controls in place around those transaction cycles. The responses should be applicable for the FY23 audit as well.

I also have availability tomorrow if it would be easier for you to set up a call to discuss any of these cycles further.

Thank you,
