Hi Alan,

Thank you for uploading that request!

In request #84 I uploaded the Fund 61 FA Additions listing that we have from FY22 but I believe that is the only asset listing we have for that fund from FY22 to my knowledge.

I can continue take a look and see if I can find anything in the meantime.

Best,

Anthony Karg

Subject: EXT: Re: Updated Capital Asset Suralink Requests

Anthony,

I've uploaded the CIP roll forward into Suralink. Do you have a FY 22 fund 61 FA listing you could send me? The fact that the depreciation in that schedule you sent doesn't tie to the ledger is bugging me, and only includes the depreciation for the current year's assets.

I'll get to squaring away the other request here while I wait to hear back from you.

No, I'll see what I can do. I'm not sure why he has a workpaper rolling forward depreciation that doesn't actually tie out to depreciation expense or total depreciation for the year, and how he was actually determining depreciation expense without anything documenting end of service life.

Can you let me know what you are attempting to validate from request 85? Is it just the facilities allocation?

On that note, for item 82, are you just working to tie out the FA additions for fund 61, and not the depreciation expense? I've uploaded the details without the deprecation info in there on that assumption. A few assets are missing locations although for purposes of testing I don't think it would matter? If so let me know, I'm trying to get in contact with our nutritionist to find the location of these items should you need them. I'm assuming that is the case since the ACC. Depr and Depr Exp were not tied out in the previous workpaper.

Hi Alan,

Apologies for the late response. I hadn't gotten a chance to look at what you provided until just now.

Request #84 looks great. In addition to what was provided, we will need the depreciation amounts included within the listing for each asset addition. We essentially need the same information provided to us that was included within the PY listing that I uploaded as reference. I just uploaded request #86 to Suralink, we take the depreciation on each asset addition and tie it out to this summary schedule.

For request #85, we perform an analytic which compares capital outlay expenditures to asset additions. The support we are requesting is a listing of all capital outlay expenditures within FY23. Within that listing, can you please identify which expenditures are repair & maintenance expenses? We have documented from the prior year that Leslie provided us a report called "Facility Recon for report FY22"

Please let me know if there any questions.

Thank you!

Item 86 should be available in the non-CIP Fixed Asset 2023 file, on the FA -2023 (2) tab. [REDACTED], so I scheduled it out, and it's all totaled on one work paper. I put a note in Suralink for that.

The old work was on the FA - 2023 tab.

It sounds like what you are looking for should be on Sheet10 of the CIP rollforward. This would be summary detail by GL for everything object 450.
