Alan and Adam,

Did you all have an opportunity to review the statements of work we sent over?

I know you had raised concerns about what happens if some of the projects don't end up qualifying. We mentioned we'd stop work if that were to be the case and only bill for any time we spent determining the project did not qualify; which, we would do at the very beginning of the engagement.

If it would give the School District more comfort, we'd be happy to include some language to that effect in the statement of work. Please just let us know, and again, happy to have another call or answer any lingering questions you may have!

Sincerely,

We are continuing to explore our costs associated with these projects, however given the RSM price point for the review, it looks unlikely that we would receive enough benefit from the project. We will reach out to you if we gather information that would be contrary to our initial findings.

Alan and Adam,

Did you all have an opportunity to review the statements of work we sent over?

I know you had raised concerns about what happens if some of the projects don't end up qualifying. We mentioned we'd stop work if that were to be the case and only bill for any time we spent determining the project did not qualify; which, we would do at the very beginning of the engagement.

If it would give the School District more comfort, we'd be happy to include some language to that effect in the statement of work. Please just let us know, and again, happy to have another call or answer any lingering questions you may have!

Sincerely,

Brian J. Polley

All –

Thank you again for everyone's time on the phone today. If you have any other questions or need anything else clarified please let us know, we know we threw a lot at you today.

Otherwise, once you've had time to review, please let us know if you'd like to move forward with the SOW and we can get moving on the work ASAP.

Thanks again,
Kevin
