OUR MISSION

To develop **world-class learners** and **citizens of character** in a **safe and inclusive learning** community.

OUR VISION

Unfolding the potential of every student by empowering the educator/student relationship through:

- Promoting the roles and responsibilities we all have in the 21st century learning process;
 - Removing barriers;
 - Creating an environment where character and citizenship count;
 - Leveraging content knowledge to become critical thinkers and problem solvers; and
 - Providing multiple pathways to unlocking student potential.
-

OUR VALUES

The Board of Education believes:

- we will celebrate the value each individual brings to our diverse learning community;
- we will make decisions that are student-centered, data-driven and always anchored in sound process;
- we will operate transparently, ethically and equitably with unwavering certainty;
- we will steward our resources wisely, efficiently and purposefully;
- we will improve continuously, seeking to always do better when we know better;
- we will develop and empower leadership across all levels of the district; and
- we will cultivate strong relationships and shared goals as we seek success for all.

Ms. Kathrin A Parks, President
Members of the Board of Education, and
Residents of the Dubuque Community School District

We are pleased to submit the Annual Comprehensive Financial Report of the Dubuque Community School District (District) for the fiscal year ended June 30, 2025. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International. The responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Business Office management staff. We believe the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District, as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

BAC CPA, LLC, have issued an unmodified ("clean") opinion on the District's basic financial statements for the year ended June 30, 2025. The Independent Auditor's Report is located at the front of the financial section of this report.

The Annual Comprehensive Financial Report is divided into four sections: introductory, financial, statistical, and single audit compliance. The introductory section includes this transmittal letter, the District's organizational chart, a list of principal District officials, consultants and advisors, and a Certificate of Excellence in Financial Reporting from the Association of School Business Officials International. The financial section includes the Independent Auditor's Report, the Management's Discussion and Analysis, the basic financial statements, notes to the financial statements and required supplementary information. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The District was required to have a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States and Local Governments and Nonprofit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements for each major program and on internal control over compliance, and a schedule of findings and questioned costs are included in the single audit compliance section of this report.

Reporting Entity and its Services

The Dubuque Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-school through twelve.

The District was organized in 1856. The District is supported financially by legislatively appropriated state aid, property taxes, local option sales and services tax, state and federal grants for special projects and local revenue received in the form of tuition and other miscellaneous income items. The District is governed by a seven-member board of education. School board members are elected to four-year terms and elections are held only in odd-numbered years. All board members are elected at large.

The District provides a full range of educational services for residents of the Dubuque Community School District appropriate to students in early childhood and grades kindergarten through twelve. These services include basic, regular and enriched academic education, special education for identified children with qualifying special needs, vocational education and many individualized programs such as specialized instruction for students at-risk and students whose primary language is not English. The official enrollment of the District as of October 2024 (the official count date) was 9,862 students. This District is the ninth largest of Iowa's 329 public school systems. According to the Iowa Department of Education, projected enrollments decline slightly over the next few years. The District operates two regular high schools, three middle schools, and twelve elementary schools.

The financial statements include all funds, agencies, boards, and commissions. The District has also considered all actual and potential component units for which it is financially accountable and all other organizations where the nature of significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. The criteria considered in determining financial accountability of any entity to the District include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization; and/or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Dubuque Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Accounting System

In developing and evaluating the accounting system of the District, much consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls of the District adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Relevant Financial Policies

The Dubuque Community School District operates under the laws as defined in Code of Iowa and policies as determined by the local Board of Education. A comprehensive accounting system is promulgated by the Iowa Department of Education including account numbers for revenues and expenditures by function and object. The District additionally tracks revenues by source of funds and expenditures by location, curricular program and funding source. Annual budgets are provided to the Department of Management and annual financial reports are provided to the Iowa Department of Education in their prescribed formats. Periodic financial reports are submitted to the Iowa Department of Education or other granting agencies for many federal and state grants.

The District takes its fiduciary responsibility to our students, parents and taxpayers very seriously. It has adopted policies defining the budget process, purchasing, insurance and cash management. It has also adopted a strategic plan which includes a ten-year facilities plan, a District technology plan and has three financial benchmarks that are used to measure the financial strength of the District's General Fund. These three benchmarks are Cash Balance, Solvency Ratio, and Unspent Balance (which is another term for Spending Authority). The District had the following goals for these three benchmarks:

1. Cash Balance – Three months' worth of cash expenditures
2. Solvency Ratio – Range of 7% to 17%
3. Unspent Balance – One month's worth of expenditures

For FY 2024-25, listed below are the District's benchmarks and actual amounts:

	<u>Benchmark</u>	<u>Actual</u>
Cash Balance	\$35,826,052	\$36,296,037
Solvency Ratio	7.0% - 17.0%	15.3%
Unspent Balance	\$11,942,017	\$17,566,608

The District met the Cash Balance, Solvency Ratio and Unspent Balance benchmarks. There were increases in Cash Balance and Solvency Ratio and Unspent Balance for the year ended June 30, 2025. The District is expecting a slight increases in Cash Balance, Solvency Ratio and Unspent Balance in the FY 2025-26. The District will continue to monitor the financial benchmarks throughout the year to see what level of budget reduction plans are needed for FY 2026-27.

Budgeting

The District's Board of Education annually adopts and certifies a budget following a public hearing and approves the related appropriations for the general, special revenue, debt service, capital projects and enterprise funds in accordance with provisions outlined in the statutes of the State of Iowa. The budgets and financial statements for the governmental fund types are prepared on a modified accrual basis and the budget and financial statements for the proprietary funds are prepared on the accrual basis. A schedule comparing the original and amended budget to actual revenues and expenditures/expenses is included as required supplementary information.

For management control, the line-item budgets are reviewed for variances. However, since a budget is a plan, overage or underage on a line-item basis is allowed if sufficient funds are available on a major program basis. Iowa law requires the formal and legal budgetary control for the certified budget to be based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs, and other expenditures.

Major Initiatives and Achievements

In September of 2002, local voters approved a one-cent local option sales and services tax for school infrastructure. With that sales tax funding, the District developed a plan for the future. Beginning in February 2003, a group of citizens made up a public planning task force, and worked with the School Board, to develop a plan which designed and chose locations for a new middle school, replacement downtown elementary school and a new west-end elementary school. Plans for construction were approved and bids taken for each project. Construction was completed in August 2005 on the new 206,000 square foot Eleanor Roosevelt Middle School. The new 66,000 square foot Prescott Elementary School has been completed and opened in August of 2006. The new 66,000 square foot George Washington Carver Elementary School was completed and opened in August of 2007. Also, extensive remodeling and additional classrooms were done at Stephen Hempstead High School during this period. The District issued revenue bonds in October 2004, January 2005, January 2006, and January 2007 to finance the new construction, with sales tax revenues paying off the bonds. These bonds have been subsequently paid-off.

The State of Iowa subsequently enacted legislation that extended the statewide sales tax to 2029. Because of this extension, the District has developed a long-term facilities plan and a long-term technology plan to strategically use these additional funds to complement the District Strategic Plan. In the spring of 2019, the State of Iowa enacted legislation again and renewed the statewide sales tax to January 1, 2051. The District will continue to use the long-term facilities plan and long-term technology plan to strategically use these additional funds.

The following projects were all funded with a combination of sales tax funds and sales tax revenue bonds;

<u>Completion date</u>	<u>School site</u>	<u>Approximate cost</u>
• FY 2013/14	Senior High – stadium renovation	\$ 10,100,000
• FY 2014/15	Kennedy Elementary – remodel/addition	\$ 6,000,000
• FY 2015/16	Hempstead High – remodel/addition	\$ 33,000,000
• FY 2019/20	Senior High – remodel/addition	\$ 29,500,000
• FY 2019/20	Hempstead High – District swimming pool	\$ 9,600,000
• FY 2019/20	Alta Vista Campus – addition	\$ 6,600,000
• FY 2020/21	Alta Vista Campus – vocational addition	\$ 1,700,000
• FY 2024/25	Senior High - remodel	\$ 33,800,000
• FY 2024/25	Seedling Preschool Center - remodel	\$ 2,800,000

The following bonds were issued to fund the above list of projects;

<u>Date of Issuance</u>	<u>Amount issued</u>	<u>Current bond status</u>
• April 2012	\$10,000,000	Refinanced by 2019 bonds
• April 2013	\$10,000,000	Refinanced by 2019 bonds
• March 2014	\$13,033,000	Refinanced by 2020 bonds
• January 2015	\$15,960,000	Refinanced by 2020 bonds
• December 2016	\$10,000,000	Refinanced by 2022 bonds
• December 2017	\$10,000,000	Making payments
• October 2018	\$ 9,455,000	Making payments
• December 2019	\$ 9,058,000	Making payments
• July 2020	\$24,085,000	Making payments
• July 2021	\$30,185,000	Making payments
• January 2022	\$ 9,165,000	Making payments
• September 2024	\$14,995,000	Making payments

July 2021, the District issued \$30,185,000 in sales tax revenue bonds to finance Phase II of the Senior High School project, which was completed in FY 2024-25. In September 2024, the District sold \$14,995,000 in sales tax revenue bonds to fund the construction of a new gymnasium at Eisenhower and the Irving mechanical replacement project. The Eisenhower project includes a completely new gym facility, additional classrooms, and a more secure entrance. The Irving project focuses on replacing mechanical systems with updated HVAC equipment, which will provide air conditioning throughout the entire building upon completion.

Economic Condition and Outlook

The City of Dubuque's location in the tri-state area of Iowa, Illinois, and Wisconsin provides the area with a regional economic importance. The city has been endorsed as an All-American City in 2007, 2012, 2013, 2017, and 2019. The regional tax base is steady; the property tax base of the Dubuque Community School District itself is below the state average. The per pupil property tax valuation ranks 221 out of 329 school districts in the state. The strong regional retail market continues to provide wealth to the community. The strong regional market is illustrated by various convention and tourism activities.

The State of Iowa's school funding formula projects a controlled budget based on October's enrollment for the current budget year multiplied by a legislatively approved cost per pupil for the subsequent budget year. The per pupil allowable cost for FY 2024-25 was \$7,826. The State Supplemental Aid rate for FY 2025-26 is at 2.0% plus \$5 which equates to a per pupil amount of \$7,988.

In light of these circumstances, the District must continue to operate in the most efficient manner possible during FY 2025-26 to help ensure adequate funding for staff, services, and supplies.

Independent Audit

The accounting firm of BAC CPA, LLC, was selected to perform the annual audit in accordance with Chapter 11 of the Code of Iowa. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Compliance Supplement. The auditor's report on the basic financial statements, combining and individual fund statements, and other schedules is included in the financial section of this report. The auditors have issued an unmodified "clean" opinion on the Dubuque Community School District's financial statements for the year ended June 30, 2025. The Independent Auditor's Report is located in the financial section of this report.

Certificate of Achievement for Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence to the District for their Annual Comprehensive Financial Report. This Certificate is a prestigious national award, recognizing conformance with the highest standards for preparation of government financial reports. In order to be awarded this certificate, the District must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such reports must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

This certificate is valid for a period of one year only. The Dubuque Community School District has received these awards for the sixteen previous fiscal years' Annual Comprehensive Financial Report. We believe our current report conforms to these requirements and we are submitting it to ASBO International to determine its eligibility for a certificate from this organization. The District had not applied for the Certificate in any years prior to 2009.

Other Matters

Also included in this report is a statistical section, including additional financial data, that will give the reader a better understanding of the school system. This section has been updated in conformity with the reporting requirements of GASB 44. This section provides information categorized as follows:

1. Financial trend schedules.
2. Revenue capacity schedules.
3. Debt capacity schedules.
4. Demographic and economic information schedules.
5. Operating information schedules.
6. Continuing disclosure information.

We wish to take this opportunity to thank the Business Department staff, in particular, Rick Till, Emma McKeon and Sarah Pfab, that assisted in obtaining and organizing data, the independent auditing firm of BAC CPA, LLC, the Dubuque County Auditor and Treasurer Offices and the city and county officials who provided much needed information. Without all of the above groups' efforts, the report could not have been completed.

In summary, the objective of the Annual Comprehensive Financial Report is to provide the general public and other users of the District's financial information a better understanding of the operating activities and financial condition of the District.

Very truly yours,

Lisa Demmer

Independent Auditor's Report

To the Board of Education of
Dubuque Community School District:

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Dubuque Community School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Dubuque Community School District as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America..

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Dubuque Community School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Dubuque Community School District's ability to continue as a going concern for twelve months

beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Dubuque Community School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Dubuque Community School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of District's Proportionate Share of the Net Pension Liability (Asset), the Schedule of the District

Contributions and the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes on pages 27 through 40 and 91 through 102 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Dubuque Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2024 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information listed in the table of contents, including the Schedule of Expenditures of Federal Awards required by Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2026, on our consideration of the Dubuque Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Dubuque Community School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the of Dubuque Community School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

Dubuque Community School District (the "District") provides this Management's Discussion and Analysis of its financial statements. The narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2025. We encourage readers to consider this information in conjunction with the District's financial statements, which immediately follow this section.

2025 FINANCIAL HIGHLIGHTS

- Funding levels for Iowa K-12 school districts depend principally on two factors: first, changes in enrollment and second, changes in *per pupil district cost*. Of these two factors, changes in *per pupil district cost* normally have the larger impact on District funding. *Per pupil district cost* is an amount annually set by state government. This amount has historically been determined by applying a percentage increase to the prior year's amount. The percentage increase was 2.00% plus \$5 for FY2024-25, 3.00% for FY 2023-24, 2.50% for FY 2022-23, and 2.4% for FY 2021-22. This percentage amount has a substantial impact on district-funding levels and has been very low in recent years.
- The District's enrollment is declining. From October 2023 to 2024, there was a decrease of 133 students. The Iowa Department of Education projects slightly declining enrollment over the next several years.
- General fund revenues increased by \$5.3 million (3.7%) in FY 2024-25. Major components of this change include a \$3.3 million increase in state aid, a \$3.1 million increase from real estate taxes and a \$1.1 million decrease in miscellaneous income.
- General fund expenditures increased by \$1.6 million (1.1%) in this fiscal year. Salaries and benefits comprise 85.3% of general fund expenditures for FY 2024-25 as compared to 85.0% of general fund expenditures for FY 2023-24.
- General fund net change in fund balance decreased by \$0.5 million, cash/investments increased by \$1.3 million, and estimated unspent balance increased by \$2.5 million.
- The District monitors the three primary school district general fund financial indicators of cash/investments, solvency ratio, and unspent balance. These indicators are measured at year-end and compared to prior-years' results, state standards, and other districts' results. For FY 2024-25 results please refer to Page 9, Introductory Section, Relevant Financial Policies.
- The District's total net position increased by \$11.7 million (7.8%) this fiscal year. Most of this increase was because of an increase of \$33.5 million in capital assets, net of accumulated depreciation, amortization, and an increase of \$8.8 million in Revenue Bonds.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of the District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services and business-type activities were financed in the short term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide financial statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which the District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes.

Other Supplementary Information provides detailed information about the nonmajor governmental funds. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors such as changes in the District's property-tax base and the condition of school buildings and other facilities need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business-type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES, continued

The District has three kinds of funds:

1) *Governmental funds*: Most of the District's basic services are included in governmental funds which generally focus on (1) how cash, and other financial assets that can readily be converted to cash, flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more, or fewer, financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the general fund, special revenue funds, debt service fund, and capital projects funds.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's enterprise fund, one type of proprietary fund, is the same as its business-type activities but provides more detail and additional information, such as cash flows. The District currently has one enterprise fund, the school nutrition fund.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. The District currently has one type of fiduciary fund, the custodial funds.

- Custodial funds – These are funds through which the District administers and accounts for certain revenue collected for employee related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

The District's total net position increased 7.8%, or \$11,747,744, from the prior year. The largest portion of the District's net position is invested in capital assets (e.g., land, infrastructure, intangibles, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets. See the "2025 FINANCIAL HIGHLIGHTS" section for the reasons for the increase.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

GOVERNMENT-WIDE FINANCIAL ANALYSIS, continued

In FY 2024-25, general revenues property taxes and other taxes and unrestricted state grants accounted for 77.0% of governmental activities revenue while program charges for service and operating grants, contributions, and restricted interest accounted for 98.1% of business-type activities revenue. The District's total revenues were approximately \$179.2 million, of which approximately \$172.6 million was for governmental activities and approximately \$6.6 million was for business-type activities.

As shown in Figure A-2, the District as a whole experienced a 0.3% increase in revenues and a 0.05% decrease in expenses. Operating grants and contributions increased approximately \$0.7 million, unrestricted state grants increased approximately \$1.8 million, property tax decreased approximately \$2.6 million, and others increased \$0.7 million.

Governmental Activities

Revenues for governmental activities were \$172,675,325 and expenses were \$161,444,990 for the year ended June 30, 2025.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs, and other expenses for the year ended June 30, 2025 compared to those expenses for the year ended June 30, 2024.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

Governmental Activities, continued

For the year ended June 30, 2025:

- The cost financed by users of the District's programs was \$3,939,645.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$29,559,653.
- The net cost of governmental activities was financed with \$69,628,145 of property and other taxes and \$63,312,872 of unrestricted state grants.

Business-Type Activities

District maintains only one activity within the business-type activities classification, and this is its school nutrition fund. School nutrition fund revenues decreased by \$185,185 over the prior year which represents a 2.7% decrease. The school nutrition fund revenues decreased during FY 2024-25 because of a decrease in participation.

INDIVIDUAL FUND ANALYSIS

As previously noted, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District is reflected in its governmental funds. As the District completed the year, its governmental funds reported combined fund balance of \$92,632,850 which is above last year's ending fund balance of \$78,190,606. The primary reason for the increase in combined fund balance at the end of the FY 2024-25 is because of an increase in the Capital Projects Fund.

Governmental Fund Highlights

- The District's general fund cash/investment balance and unspent balance increased in FY 2024-25. The District's general fund balance decreased in FY 2024-25. At June 30, 2025, the estimated unspent balance was \$17,566,608.
- Salaries and benefits comprise about 85.3% of the general fund expenditures. These expenditures increased \$1,806,895.99 due primarily to wage increases.

Dubuque Community School District

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

Governmental Fund Highlights, continued

- Within the statewide sales, services, and use tax fund, revenues are generated by two main sources. They are the issuance of sales tax revenue bonds and sales taxes generated by statewide retail purchases. The statewide sales tax is now called Secure an Advanced Vision for Education (SAVE), formerly the Local Option Sales Tax (LOST). With regards to SAVE, the legislature recently passed legislation which extended the sunset date through January 1, 2051. For FY 2024-25, the District received \$13,221,626 in sales tax revenue. The statewide sales, services and use tax fund balance increased by \$13,272,485. This increase is because of the September 2024 issuance of \$14,995,000 of sales tax revenue bonds for the Eisenhower gym addition and Irving mechanical replacement projects.
- The physical plant and equipment levy (PPEL) fund balance decreased by \$1,294,984 in FY 2024-25. The main reason for this decrease was because the District purchased equipment as part of a security grant and have not been reimbursed yet. The District carefully monitors this fund to ensure balances are carried over from year-to-year in order to meet possible unexpected emergency costs and also to take advantage of property acquisition opportunities.
- The debt service fund balance increased by \$352,251 in FY 2024-25.

Proprietary Fund Highlights

As stated previously, the school nutrition fund is the only proprietary fund maintained by the District. The nutrition fund change in net position increased in FY 2024-25. The increase of \$276,818 was due to a decline in salaries and benefits because of the difficulty in maintaining full staffing levels.

BUDGETARY HIGHLIGHTS

The District's total revenue of \$179,296,364 is \$4,750,512 higher than the budget amount of \$174,545,852 which is a variance of 11.8%. Local funds received were higher than anticipated due to increased interest earned on investments.

The District maintains two types of budgets. The first is the *certified budget* which must meet certain state publication and monitoring requirements and is filed in April for the following year. The second is a management budget (sometimes called *line-item* budget) which is used by District administration to control and monitor expenditures. The *certified budget* needs to be tabulated in the following four functional areas: instruction, total support services, non-instructional programs, and total other expenditures. The District amended its original budget in FY 2024-25 for an increase in expenditures from \$179,678,743 to \$184,478,743 to reflect an increase in expenses.

A schedule showing the original and amended budget amounts compared to the District's actual financial activity is provided in this report as required supplementary information.

Dubuque Community School District

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

BUDGETARY HIGHLIGHTS, continued

Total expenditures were less than budgeted. It is the District's practice to budget expenditures slightly higher than what is reasonably estimated to be spent. As a result, the District's certified budget should always exceed actual expenditures for the year.

Despite the District's budgetary practice, expenditures in the instructional function area exceeded the amount budgeted. The District exercised the ability to use categorical funding for Teacher Salary Supplement use.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2025, the District had invested \$190.3 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, infrastructure equipment, and transportation equipment. The year-end balance is a 0.8% increase over the prior year. More detailed information about the District's capital assets is presented in its Note 4 to the Financial Statements. Depreciation expense for the year was \$9,220,601.

The original cost of the District's capital assets was approximately \$304.9 million. Governmental funds account for approximately \$303.1 million, with the remainder of approximately \$1.8 million accounted for in the Enterprise, School Nutrition Fund.

The District is collecting over \$13 million annually in sales tax revenue so it is anticipated capital assets will continue to increase over the course of sales tax collection.

Dubuque Community School District

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

The District currently has a bus replacement plan whereby it normally purchases six to ten school buses each year. The Board's intent is to retain only school buses that are ten years old or newer.

The District has started work on the Eisenhower gym addition with an estimated cost of \$8.0 million and the Irving mechanical replacement project with an estimated cost of \$7.0 million

Long-term Debt

At June 30, 2025, the District had \$80,946,000 in revenue bond debt outstanding. This represents an increase of approximately 12.6% from the prior year. The majority of the outstanding debt is secured by a first lien against sales tax collections. See Note 5 to the Financial Statements for additional information.

The Constitution of the State of Iowa limits the amount of general obligation debt districts can issue to 5% of the assessed value of all taxable property within the District. The District's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$471,958,426.

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2025

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its future financial health:

- The level of *unspent balance* increased in FY2024-25 and is projected to slightly increase in FY2025-26. The main reason for the increase is the District choose to use some of their categorical funding to support teacher salaries. This flexibility was granted by the State of Iowa, and the district choose to use those funds to help offset the salary and benefits. The District also choose to close Hoover Elementary at the end of the 2024-25 school year. This savings is projected to help the FY2025-26 unspent balance. The District will need to monitor expenditures and how they affect future years' unspent balance. The long-term budget planning for the District has become more difficult in recent years. In the past, the State legislature was legally required to set the State Supplemental Aid rate approximately sixteen months in advance of the start of the fiscal year. They had a difficult time meeting that requirement in recent years so in the spring of 2017, the State legislature changed the law to be four months before the start of the fiscal year. This reduced period makes it extremely difficult for district to make long-term budget plans. The State legislature in 2017 also significantly changed the rules involving collective bargaining as a way to help districts budget more effectively. The results of this change have given the District some flexibility but are not sufficient to offset the repeated years of low State Supplemental Aid. Additions to *unspent balance* are controlled by the State of Iowa. The District continues to apply to the State School Budget Review Committee for *modified supplemental amount* (a direct addition to *unspent balance*) whenever possible. District administration will continue to work with the State of Iowa Department of Education to ascertain when requests for *modified supplement amount* are appropriate.
- District employees are covered by the Iowa Public Employees Retirement System (IPERS). This system has experienced recent-year increases in its unfunded actuarial liability resulting in a change to both employer and employee contribution rates. Wage levels will likely rise due to inflation and negotiated settlements. The IPERS' rate for the upcoming fiscal year is scheduled to remain unchanged.
- The District created a 10-Year Facility Plan in FY 2012-13. The plan shows the upcoming 10 years of projects that are scheduled to be completed at each District location along with the source of funding used to pay for the project. The plan is updated, reviewed, and approved annually by the Board of Education. The plan allows for flexibility if circumstances change, and an unexpected project needs to be accelerated or added. The Board continues to work on gaining efficiencies by reviewing facility needs. This work is in conjunction with efficiencies needed due to declining enrollments.
- Iowa school district funding faces many challenges in future years. Approximately \$99.1 million of District revenues (primarily state aid) come from sources that are funded by state income, sales, and use taxes. The State has funds for education, but they are funding nonpublic schools at the same student rate as public school students which will require a greater draw on State funds. This obligation will significantly affect the funds available for public schools.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE, continued

- The District purchased a portion of a building in the community to create up to ten preschool classrooms. The purpose is to allow parents to have access to before school and after school daycare which will be located in a section of the building next door. The District opened the building for the FY2024-25 school year.

Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances - Governmental Funds
to the Statement of Activities
Year ended June 30, 2025

Net change in fund balances - total governmental funds (page 47)

Amounts reported for governmental activities in the Statement of **\$ 14,442,244**
Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. These costs are not reported in the Statement of Activities, but they are allocated over the estimated useful lives of the capital assets as depreciation expense in the Statement of Activities. Capital outlay expenditures exceeded depreciation expense in the current year, as follows:

Expenditures for capital assets	\$ 10,736,944	
Depreciation expense	<u>(9,140,870)</u>	1,596,074

Proceeds from the sale property and equipment are reported in the governmental funds, however, in the Statement of Activities, it is netted against the book value of the assets being deleted and only the gain portion is recognized.

Book value of assets retired		(34,554)
------------------------------	--	----------

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduced long-term liabilities in the Statement of net Position. Current year issuances exceeded repayments, as follows:

Issued	\$ (14,995,000)	
Repaid	<u>6,150,639</u>	(8,844,361)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

(227,248)

The current year District IPERS contributions are reported as expenditures in the governmental funds but are reported as deferred outflows of resources in the Statement of Net Position.

8,379,659

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Compensated absences	\$ 76,324	
IT subscription liability	(678,830)	
Pension expense	(3,382,131)	
OPEB expense	<u>143,749</u>	(3,840,888)

Note 1: Summary of Significant Accounting Policies

Dubuque Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Dubuque, Iowa, portions of Dubuque County and Jackson County, Iowa. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Dubuque Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Dubuque Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the City of Dubuque and Dubuque Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for service.

Note 1: Summary of Significant Accounting Policies: (continued)

B. Basis of Presentation: (continued)

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

Note 1: Summary of Significant Accounting Policies: (continued)

B. Basis of Presentation: (continued)

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The Management Fund (part of Special Revenue Fund) accounts for resources accumulated and payments made for property insurance, fidelity bonds, worker compensation, liability premiums, unemployment insurance claims and early retirement incentives.

The other governmental funds of the District are considered nonmajor and are as follows:

The other Special Revenue Funds (Non-Fiduciary Scholarship and Student Activity Funds) account for and reports the proceeds to specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

The District reports the following major proprietary fund:

The District's proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net position and changes in net position.

The District's fiduciary funds include the following:

The Custodial Fund is used to account for assets held by the District as an agent for individuals, private organizations, and other governments.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Dubuque Community School District

Notes to Financial Statements

June 30, 2025

Note 1: Summary of Significant Accounting Policies: (continued)

C. Measurement Focus and Basis of Accounting: (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty (60) days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds, which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Note 1: Summary of Significant Accounting Policies: (continued)

C. Measurement Focus and Basis of Accounting: (continued)

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Cash Equivalents, and Pooled Investments– The cash balances of most District funds are pooled and invested. Investments are stated at fair value.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in the governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2023, assessed property valuations; is for the tax accrual period July 1, 2024, through June 30, 2025, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2024.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. The costs of governmental fund and proprietary fund inventories are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture, equipment, and intangibles are reported in the applicable governmental or business-type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost (except for right-to-use subscription assets, the measurement of which is discussed under “Subscription-Based Information Technology Arrangements (SBITA)” below). Donated capital assets are recorded at their acquisition value as of the date received. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. District machinery and equipment with a cost of more than \$5,000 will be capitalized. The Nutrition Fund equipment is capitalized with a cost of more than \$500. Subscription-Based Information Technology with a cost of more than \$200,000 will be capitalized.

Property, furniture, equipment, and intangibles are depreciated using the straight-line method of depreciation over the following estimated useful lives:

Buildings	50 years
Improvements to buildings and sites	20 years
Furniture and equipment	5-12 years
Intangibles	3-5 years
Right-to-use subscription assets	3 years

Subscription-Based Information Technology Arrangements (SBITA) – The District has entered into a contract that conveys control of the right to use information technology software. The District has recognized an IT subscription liability and an intangible right-to-use IT subscription asset in the government-wide financial statements. The District recognized IT subscription liabilities with an initial, individual value of \$678,830, or more.

At the commencement of the IT subscription term, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the IT subscription liability is reduced by the principal portion of payments made. The right-to-use an IT subscription asset is initially measured as the sum of the initial IT subscription liability, adjusted for payments made at or before the commencement date, plus capitalization implementation costs less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Subsequently, the right-to-use IT subscription asset is amortized on a straight-line basis over its useful life.

Dubuque Community School District

Notes to Financial Statements

June 30, 2025

Note 1: Summary of Significant Accounting Policies: (continued)

Key estimates and judgments related to IT subscription arrangements include how the District determines the discount rate it uses to discount the expected payments to present value, term and payments.

The District uses the interest rate charged by the IT subscription vendor as the discount rate. When the interest rate charged by the vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate.

The IT subscription term includes the noncancellable period of the subscription. Payments included in the measurement of the liability are composed of fixed payments.

The District monitors changes in circumstances that would require a remeasurement of its IT subscription and will remeasure the right-to-use IT subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Right-to-use IT subscription assets are reported with other capital assets and IT subscription liabilities are reported with long-term debt on the statement of net position.

Deferred Outflows of Resources – Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension and OPEB expense, the unamortized portion of the net difference between projected and actual earnings on pension plan investments and contributions from the District after the measurement date but before the end of the District's reporting period.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Advances from Grantors – Grant proceeds which have been received by the District but will be spent in a succeeding fiscal year.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when each of the following have occurred: the leave is attributable to services already rendered, the leave accumulates and carried forward from one reporting period to the next and the leave is more likely that not to be used for time off or otherwise paid in cash or settled through noncash means. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2025.

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

Long-Term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid primarily by the General Fund and the Enterprise, School Nutrition fund.

Total OPEB Liability – For purposes of measuring the total OPEB liability, deferred outflows of resources related to OPEB and OPEB expense, information has been determined based on the District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund and the Enterprise, School Nutrition Fund.

Deferred Inflows of Resources – Deferred inflows of resources represent an acquisition of net position applicable to a future year(s) which will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty (60) days after year end and succeeding year property tax receivable that will not be recognized until the year for which it is levied.

Dubuque Community School District

Notes to Financial Statements

June 30, 2025

Note 1: Summary of Significant Accounting Policies: (continued)

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity: (continued)

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Fund Balance – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors, or state or federal laws, or imposed by law through constitutional provisions or enabling legislation.

Unassigned – All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to pay the expenditure from restricted fund balance and then from the unassigned fund balance.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

F. Subsequent Events

Management has evaluated for subsequent events through January 12, 2026, the date the financial statements were available to be issued. Based on that evaluation, there were no material subsequent events disclosed.

Note 2: Cash and Pooled Investments

The District's deposits in banks at June 30, 2025, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds. The first \$250,000 in credit unions is covered by federal depository insurance and amounts over \$250,000 have a standby letter of credit that is pledged at the Federal Home Loan Bank (FHLB).

As of June 30, 2025, the book balance of the District's petty cash totaled \$12,640 and the cash deposit balances totaled \$70,299,748.

The District chooses to disclose its investments by specifically identifying each. The fair value of investments is based on quoted market prices and are not rated. As of June 30, 2025, the District had investments as follows:

<u>Investment</u>	<u>Type</u>	<u>Issue Date</u>	<u>Term</u>	<u>Maturity Date</u>	<u>Fair Value</u>
CAPRA Bank	Certificate of Deposit	05/21/25	6 months	11/21/25	\$20,000,000

Green State Credit Union	Certificate of Deposit	01/22/25	12 months	01/22/26	<u>2,305,922</u>
					<u>\$41,715,215</u>

Interest Rate Risk: The District's investment policy limits the investments of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in instruments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the District.

Credit Risk: The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high-rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district. The District has no investment policies that would further limit its investment choices.

Note 2: Cash and Pooled Investments: (continued)

Concentration of Credit Risk: The District's general investment policy is to apply the prudent-person rule: In making investments, the District will exercise the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

Custodial Credit Risk: For deposits and investments, this is the risk that, in the event of bank failure, the District's deposits may not be returned to it. Chapter 12C of the Code of Iowa requires all District deposits in banks to be entirely covered by federal depository insurance or by the State Sinking Fund. As of June 30, 2025, the District had no deposits or investments subject to custodial credit risk.

The following is a reconciliation of cash and investments as shown on the financial statements:

Note 6: Pension Plan and Retirement Benefits

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at PO Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Note 6: Pension Plan and Retirement Benefits: (continued)

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

In FY 2024-25, pursuant to the required rate, Regular members contributed 6.29% of covered payroll and the District contributed 9.44% of covered payroll, for a total rate of 15.73%.

The District's contributions to IPERS for the year ended June 30, 2025, totaled \$8,563,355.

Net Pension Liability, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2025, the District reported a liability of \$35,2281,991 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to IPERS relative to the contributions of all IPERS participating employers. At June 30, 2024, the District's proportion was 0.955425%, which was a decrease of 0.038764% over its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$3,776,522. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions – The total pension liability in the June 30, 2024, actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement.

Rate of inflation (effective June 30, 2017)	2.60% per annum.
Rates of salary increase (effective June 30, 2017)	3.25 to 16.25% average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 2017)	7.00% compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 2017)	3.25% per annum, based on 2.60% inflation and 0.65% real wage inflation.

The actuarial assumptions used in the June 30, 2024 valuation were based on the results of quadrennial experience study covering the period of July 1, 2017 through June 2021.

Mortality rates used in the 2024 valuation were based on PubG-2010 mortality tables with future mortality improvements modeled using Scale MP-2021.

Note 6: Pension Plan and Retirement Benefits: (continued)

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	21.0%	3.52%
International equity	13.0	5.18
Global smart beta equity	5.0	4.12
Core plus fixed income	25.5	3.04
Public credit	3.0	4.53
Cash	1.0	1.69
Private equity	17.0	8.89
Private real assets	9.0	4.25
Private credit	5.5	6.62
Total	100.0%	

Discount Rate – The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

IPERS' Fiduciary Net Position – Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to IPERS – At June 30, 2025, the District reported payables to IPERS of \$0 for legally required District contributions and \$0 for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

Voluntary Termination Benefits Plan - The District offers voluntary termination benefit plans to its certified, administrative, and classified employees. Eligible employees must be at least age fifty-five, must have completed either fifteen or twenty years of service, depending on the employee's classification, and the last five years must be consecutive or employed for thirty years, of which the last one year shall be consecutive full-time. Employees must complete an application which is required to be approved by the Board of Education.

The voluntary termination benefit incentive for each eligible employee is up to 50% of the employee's base salary calculated by using different methods depending on the type of employee.

The cost of voluntary termination benefits expected to be liquidated currently, are recorded as a liability of the special revenue – management levy fund. At June 30, 2025, the District has obligations to (26) participants with a total accrued liability of \$404,379. These voluntary termination benefits will be paid July 1, 2025.

Voluntary termination benefits paid during the year ended June 30, 2025, totaled \$391,921.

Note 7: Other Post-employment Benefits (OPEB)

Plan Description – The District administers a single-employer benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. Group insurance benefits are established under Iowa Code Chapter 509A.13. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

OPEB Benefits – Individuals who are employed by the District and are eligible to participate in the group health plan are eligible to continue healthcare benefits upon retirement. Retirees under age 65 pay the same premium for the medical and prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Total OPEB Liability – The District’s total OPEB liability of \$10,526,245 was measured as of June 30, 2025, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions – The total OPEB liability in the June 30, 2025, actuarial valuation was determined using the following actuarial assumptions and the entry age normal actuarial cost method, applied to all periods included in the measurement.

Rate of inflation (effective June 30, 2025)	2.60% per annum.
Rates of salary increase (effective June 30, 2025)	3.25%-16.25% average depending upon years of service, including inflation.
Discount rate (effective June 30, 2025)	3.93% compounded annually, including inflation.
Healthcare cost trend rate (effective June 30, 2025)	6.00% initial rate. Medical inflation was based on the “Getzen” model published by the Society of Actuaries for purposes of evaluating long-term medical trend The following tables show the trend rates used in this valuation.

Note 8: Risk Management

Dubuque Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have not been any significant changes in insurance coverage from coverage in the prior year.

Note 9: Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$4,616,416 for the year ended June 30, 2025, and is recorded in the general fund by making a memorandum adjusting entry to the financial statements.

Note 10: Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Tax Abatements of Other Entity

Other entities within the District provide tax abatements for urban renewal and economic development projects pursuant to Chapters 15 and 403 of the Code of Iowa. Additionally, the City of Dubuque offered an urban revitalization tax abatement program pursuant to Chapter 404 of the Code of Iowa. With prior approval by the governing body, this program provides for an exemption of taxes based on a percentage of the actual value added by improvements.

Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2025, under agreements entered into by the following entity:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Dubuque	Urban renewal and economic development projects	\$2,094,639
City of Asbury	Urban renewal and economic development projects	717,710

Note 12: Categorical Funding

In accordance with Iowa Administrative Code Section 98.1, categorical funding is financial support from the state and federal governments targeted for particular categories of students, special programs, or special purposes. This support is in addition to school district or area education agency general purpose revenue, for purposes beyond the basic educational program and most often has restrictions on its use. Any portion of categorical funding provided by the state that is not expended by the end of the fiscal year must be carried forward as a restricted fund balance.

The following is a schedule of the categorical funding restricted in the General Fund at June 30, 2025.

Program	Amount
Four-year-old preschool state aid	\$1,044,034
Successful progression for early readers	233,644
Total	<u>\$1,277,678</u>

Note 13: New Governmental Accounting Standards Board (GASB) Statements

The District implemented the following statements:

- The GASB issued Statement No. 101, Compensated Absences in June 2022. This Statement updates the recognition and measurement guidance for compensated absences by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for periods beginning after December 15, 2023. The requirements of this statement are effective immediately.
- The GASB issued Statement No. 102, Certain Risk Disclosures in December 2023. This Statement established financial reporting requirements for risks related to vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for periods beginning after June 15, 2024. The statement had no effect on the District in the current year.

Note 13: New Governmental Accounting Standards Board (GASB) Statements (continued)

The Governmental Accounting Standards Board (GASB) has issued statements not yet implemented by the District. The statements which might impact the District, are as follows:

- The GASB issued Statement No. 103, Financial Reporting Model Improvements in April 2024. This Statement will improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision-making and assessing a government's accountability as well as addresses certain application issues. The requirements of this Statement are effective for periods beginning after June 15, 2025.
- The GASB issued Statement No. 104, Disclosure of Certain Capital Assets in September 2024. This Statement will provide users of financial statements with essential information about certain types of capital assets in order to make informed decisions and added accountability. The requirements of this Statement are effective for periods beginning after June 15, 2025.

Note 14: Change in Area Education Agency Funding

The Governor signed House File 2612 on March 27, 2024, which changes the percentages of educational and media services funding generated through local property taxes by Districts which flow through to each Area Education Agency (AEA) beginning July 1, 2024. For fiscal year 2026, 100% of the educational and media services funds generated by Districts will be received directly by the District and none will flow through to the AEAs. Also, for fiscal year 2026, Districts will flow through 90% (instead of 100%) of special education support services funds to AEAs, who will code the funds as a combination of state aid and property taxes.

Note 15: Prior Period Adjustment and Change in Accounting Principle

For the fiscal year ended June 30, 2025, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. This Statement establishes a unified recognition and measurement model for compensated absences, including a "more likely than not" threshold for liability recognition, which differs from the previous guidance.

The District previously accrued a liability only for accumulated vacation leave that was payable upon termination. Upon the adoption of GASB 101, the government determined that a portion of its accumulated sick leave balance also meets the "more likely than not" criterion to be used as time off or otherwise settled.

Note 15: Prior Period Adjustment and Change in Accounting Principle (continued)

In accordance with the transition provisions of GASB Statement No. 101, the financial statements for the earliest period presented have been restated to reflect the retroactive application of the new accounting principle. The cumulative effect of this change on periods prior to July 1, 2024, is reported as a restatement of the beginning net position.

The effect of the restatement on the beginning net position in the government-wide Statement of Net Position for the fiscal year ended June 30, 2025, is as follows:

	Governmental Activities
Net position June 30, 2024, as previously reported	\$149,259,403

Notes to Required Supplementary Information - Budgetary Reporting
Year ended June 30, 2025

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Custodial Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs, and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$4,800,000.

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2022 valuation implemented the following refinements after a quadrennial experience study:

- Changed mortality assumptions to the PubG-2010 mortality tables with mortality improvements modeled using Scale MP-2021.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted termination rates.

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

Nonmajor Governmental Funds
June 30, 2025

The other governmental funds of the district are considered nonmajor and are as follows:

The special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service. A brief description of each of the District's nonmajor governmental funds follows:

Non-Fiduciary Scholarship Funds	Accounts for funds to provide scholarships to students who meet specific criteria as determined by the donor. The scholarship fund does not meet the criteria for a trust or custodial fund, but the district does have administrative involvement.
Student Activity	Accounts for funds raised by student groups. Under state law the Board retains responsibility for the Student Activity Fund's ultimate disposition.

Capital Projects Accounts

June 30, 2025

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

Statewide Sales, Services, and Use Tax	Statewide sales and services tax moneys received for school infrastructure purposes shall be utilized solely for school infrastructure needs or school district property tax relief. These activities include the construction, reconstruction, repair, demolition work, purchasing, or remodeling of schoolhouses, stadiums, gyms, field houses, and bus garages and the procurement of schoolhouse construction sites and making of site improvements and those activities for which revenues under Iowa Code Section 298.3 or Section 300.2 may be spent. Additionally, "school infrastructure" includes the payment or retirement of outstanding bonds previously issued for school infrastructure purposes, and the payment or retirement of bonds issued under Iowa Code Section 423E.5.
Physical Plant and Equipment Levy Fund	Accounts for resources accumulated and payments made for the purchase and improvement of grounds; purchase of buildings; major repairs, remodeling, reconstructing, improving or expanding the schools or buildings; expenditures for energy conservation; and for equipment purchases. The purchase of transportation vehicles qualifies under the law.

* The County does not provide the delinquent tax collections levy year in order to determine the year the collection pertains to for computing the percentage of levy. Therefore, the District collects approximately 100% of the levy.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(a) The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

(b) June 30, 2024, debt outstanding of \$70,055,866 was used since the June 30, 2025, debt outstanding was not available as of publication.

Notes to Schedule of Expenditures of Federal

Awards Year Ended June 30, 2025

Note 1: Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activity of Dubuque Community School District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Dubuque Community School District, it is not intended to and does not present the financial position, changes in financial position or cash flows of Dubuque Community School District.

Note 2: Significant Accounting Policies

Expenditures reported in the Schedule are reported on the accrual or modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Dubuque Community School District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3: Indirect Cost Rate

The District uses a federally negotiated indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education of
Dubuque Community School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Dubuque Community School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Dubuque Community School District's basic financial statements, and have issued our report thereon dated January 12, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dubuque Community School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dubuque Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Dubuque Community School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dubuque Community School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2025 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE UNIFORM GUIDANCE

To the Board of Education of
Dubuque Community School District:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Dubuque Community School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Dubuque Community School District's major federal programs for the year ended June 30, 2025. Dubuque Community School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Dubuque Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Dubuque Community School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Dubuque Community School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the

requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Dubuque Community School District's federal programs.

Auditor's Responsibilities for the Audit Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Dubuque School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Dubuque Community School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Dubuque Community School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Dubuque Community School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Dubuque Community School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
