Schedule of findings and questioned costs	112 –115
Corrective action plan	116

November 4, 2020

Nikhil Wagle, President,
Members of the Board of Education,
and the Citizens of Pleasant Valley Community School District
Bettendorf, Iowa

We are proud to submit to you the Comprehensive Annual Financial Report (CAFR) of the Pleasant Valley Community School District (the District) for the fiscal year ending June 30, 2020. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials (ASBO) International and the Government Finance Officers Association (GFOA) of the United States and Canada.

The District is required to undergo an annual single audit in conformity with the provisions of Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements applicable to each major program and internal control over compliance, a schedule of findings and questioned costs and corrective action plans (if any) are included in the Compliance Section of this report.

This letter of transmittal is designed to complement the Management's Discussion and Analysis included within the financial section of the CAFR and should be read in conjunction with it.

Management Responsibility

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of the operations of the governmental activities, business-type activities, each major fund and aggregate of the remaining funds of the District in accordance with generally accepted accounting principles, (GAAP). It includes all funds of the entire District. The District is not included in any other reporting entity, nor are any other entities included within this report. All disclosures necessary to enable a reader to gain maximum understanding of the District's financial activities have been included.

Basis of Presentation

The charts and accounts used by the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Government units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records materially conform to the Uniform Financial Accounting for Iowa Schools and Area Education Agencies issued by the Iowa Department of Education and Chapter 11 of the Code of Iowa. The chart of accounts manual is updated annually, and the District is materially in compliance with these requirements.

Independent Audit

The Code of the State of Iowa requires an annual audit of the District to be performed by an accounting firm selected in a competitively bid process. The annual audit meets the requirements of the Code of Iowa, generally accepted auditing standards and the requirements of Subpart F of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The auditor's report on the basic financial statements and combining and individual fund statements and other schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in a separate section for compliance.

All of the District's funds are presented in this report and have been audited by the District's independent certified public accountants, Bohnsack & Frommelt LLP, Certified Public Accountants. Bohnsack & Frommelt LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the Pleasant Valley Community School District's financial statements for the year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

Internal Control

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls of the school district adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal, state and local financial assistance, the District is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. As part of the District's single audit, described earlier, tests are made to determine the adequacy of internal control, including that portion related to federal awards programs, as well as to determine that the District has complied with applicable laws and regulations.

Profile of the District

Located in the Quad City Metropolitan area of eastern Iowa and western Illinois, the resident population of the Pleasant Valley Community School District was approximately 22,101 in the year 2018 according to the U.S. Census Bureau. The District serves the education needs of approximately 5,100 students in five K-6 elementary schools, one 7-8 junior high, and one 9-12 high school and a sixth elementary school (Forest Grove Elementary School) is being constructed and is scheduled to open for the 2021-22 school year. All buildings are air-conditioned and equipped with state of the art technology.

The District was organized in 1962 and encompasses 44 square miles of eastern Scott County including the towns of LeClaire, Panorama Park, Riverdale, the village of Pleasant Valley and over one half of the City of Bettendorf. Within its borders is found a rich blend of urban, rural, suburban and small town living. The economic makeup of the district includes some of the richest farmland in the nation in concert with exceptional commercial and industrial enterprises. The school district serves as the focal point for the total community since it is the one institution that cuts across the political, social, and economic boundaries and

provides a common interest. As a result, community involvement in education is high at all levels.

The District provides a full range of educational services for those attending the Pleasant Valley Community School District including basic, regular and enriched academic education, specialized instruction for handicapped children, vocational education and many individualized programs such as specialized instruction for students at-risk. There are no charter school relationships within the District. The oldest school building in the District, Cody Elementary School, was originally built in 1954 and has been very well maintained, as have all of the District's schools. Other school buildings in the District have original build dates between 1959 and 2011.

The District is supported financially by state aid, property taxes, state and federal grants for special projects and local revenue. The District is governed by a seven-member board of education, serving staggered terms of four years. The District is divided into seven geographical director districts. Each member of the school board serves a particular geographical director district. The Board of Directors is a policy-making and planning body whose decisions are carried out by school administrators. The District is subject to the general oversight of the Iowa Department of Education. This oversight generally includes an approval process that reviews compliance to standards enacted by legislative mandate.

The combined financial statements include all funds, organizations, agencies, boards, commissions and other authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The criteria considered in determining financial accountability include appointing a voting majority of an organization's governing body, and 1) the ability of the District to impose its will on that organization or 2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District.

Local Economy

The Quad Cities is a six-county, bi-state region comprised of Clinton, Muscatine, and Scott Counties in Iowa, and Henry, Mercer, and Rock Island Counties in Illinois, which includes the Davenport-Moline-Rock Island IA-IL msa; the Clinton, IA msa, and the Muscatine, IA msa.

The Quad Cities region is home to Fortune 500 company John Deere. There are 150 others on Fortune's 500 and 1000 lists that have a presence in our region, as well as the Rock Island Arsenal, a major military installation. The region has experienced a 5.2% increase in economic strength over the past five years, including \$1.5 billion in total capital investment, plus the creation of 4,500 new jobs.

The region boasts a low cost of living (96.1 on the costs of living index scale); 18-minute predictable, non-congested commute times; nationally regarded K-12 education with diverse program offerings and access to a highly-educated, postsecondary talent pipeline; and ample cultural and recreational amenities. This includes theater, ballet, symphony orchestra, art, science, minor league sports, outdoor recreation and family museums.

The Quad City area is Located 2 1/2 hours west of Chicago and within a 300 mile radius of 37 million people. The Arconic aluminum manufacturing plant is located within the boundaries of the Pleasant Valley Community School District and employs approximately 2,194 employees.

The COVID-19 outbreak is disrupting business across a range of industries in the United States and financial markets have experienced a significant decline. As a result, local, regional and national economies, including that of the District, may be adversely impacted. The extent of the financial impact of COVID-19 will depend on future developments, including the duration and spread, which are uncertain and cannot be predicted. Due to the uncertainties surrounding the outbreak, management cannot presently estimate the potential impact on the District's operations and finances.

Debt Administration

As of June 30, 2020 the District had \$49,794,191 of debt applicable to its legal debt margin. This amount is well below the District's bonding capacity of \$155,142,062.

Long-term Financial Planning and Relevant Financial Policies

Financial Policies

The District invests in only those securities allowed by the Code of Iowa, Chapter 12C. The District's cash and pooled investments consist of depository accounts at financial institutions including short-term and long-term nonnegotiable certificate of deposits. The cash balances of the District's funds are pooled. Interest revenue of \$656,310 was earned on all deposits and investments for the fiscal year ending June 30, 2020.

The District currently covers property and liability losses with traditional insurance coverage. The group health plan is partially self-funded and dental plan is fully self-funded.

A comprehensive accounting system is promulgated by the Iowa Department of Education including account numbers for revenues and expenditures by function and object. The District additionally tracks revenues by source of funds and expenditures by location, curricular program and funding source.

For long-term planning, the District utilizes a "Comprehensive Financial Planning Model" to project out various scenarios and how they could affect the financial health of the District in the next five years. The District also has a "Five Year Capital Projects Plan" which is updated at least annually for projecting future capital project needs in the District.

Budgeting

The District's Board of Education annually adopts a budget and approves the related appropriations for the General, Special Revenue, Debt Service, Capital Projects and Enterprise Funds in accordance with provisions outlined in the statutes of the State of Iowa. The budgets are prepared on an accrual basis, which details estimates of GAAP revenues and GAAP expenditures, and use of beginning fund balances, whereas the financial statements of the funds are prepared on either the modified accrual basis or accrual basis of accounting. A statement comparing the budget to actual receipts and disbursements is included in the required supplemental information in aggregate form for fund types for which budgets are required. For management control, the budget is reviewed on a line item basis. Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type.

It should be noted that school districts have two levels of budgetary control. One form of budgetary control exists through the certified budget, which includes all fund of the District (the type of budget explained in the preceding paragraph). This budget is certified with the County Auditor and the Iowa Department of Management each year. Iowa school districts may not certify a general fund budget in excess of its spending authority.

The other level of budgetary control is the unspent (maximum) authorized budget and pertains only to the General Fund of the District. The maximum authorized budget is the total spending authority in the General Fund of the District. The unspent budget is a budgetary concept and is not equivalent to General Fund cash. It is imperative for users of District financial information to make this important distinction. The unspent balance is the amount of spending authority that is carried over into the next fiscal year. The unspent balance is a budgetary carryover and does not represent actual dollars (General Fund cash) or actual financial position (nonspendable, restricted, assigned or unassigned General Fund fund balance) of the District.

Enrollment Projections

The Pleasant Valley Community School District currently serves approximately 5,100 students. The District continues to experience significant annual growth with an approximately 92 student increase in certified enrollment in the 2019-20 fiscal year. The District has experienced an average annual growth in certified enrollment of 151.9 students per year for the last decade from the 2010-11 school year through the 2019-20 school year. The District is expected to see continued growth in enrollment. This continued growth presents infrastructure challenges that are being addressed through the District's long range planning process.

Major Initiatives and Achievements

An important element in maintaining an excellent educational program is the management of fiscal and capital resources. The District's use of a long-range planning process, a growing enrollment and an increasing property tax base have helped to achieve and maintain the following results:

- Salary and benefit schedules that attract and retain a high quality faculty and staff
- Excellent facilities and equipment maintained and updated on an ongoing basis
- Broad community support for bond referendums, Instructional Support Levy, local option sales tax for school infrastructure and voted Physical Plant and Equipment Levy (PPEL)

The District has 365 certified teachers under contract in the District. 65% of the teachers have a master's degree and / or graduate hours beyond their master's. The development of life-long learners is a key strategic goal. The District models this expectation in the selection, professional development, and retention of its faculty and staff. Supporting the belief that quality teaching is the single most important variable a District can influence. The District provides:

- A rigorous two-year mentoring program for all beginning teachers
- Ongoing professional development
- An emphasis on the study and acquisition of "best practice" in the field of education
- Encouragement toward the pursuit of advanced degree work
- Leadership opportunities

Following is the Pleasant Valley Community School District's Mission Statement:

The mission of the Pleasant Valley Community School District as a premier innovative district in the Midwest is to prepare students to succeed in a diverse, global society by providing superior quality opportunities in a safe environment for each student to become a life-long learner and by continuously improving and customizing the educational experience.

The Pleasant Valley Community School District's Vision Statement is:

It is the vision of the Pleasant Valley Community School District that we shall provide the finest academic and extra-curricular programs in the state - not in some things, but in everything; not for some students but for every student.

The District is proud of its academic, activities and athletics programs, which includes the following highlights from the 2019-20 school year:

Academics

- Iowa Performance Profile:
 - o Exceptional Schools: Hopewell Elementary
 - o High Performing Schools - Bridgeview Elementary, Cody Elementary, Pleasant View Elementary, Riverdale Heights Elementary, Pleasant Valley High School
 - o Commendable Schools - Pleasant Valley Junior High
- 8 National Merit Scholars
- US News & World Report National Silver Medal Award for Best High Schools in Iowa - ranked #4 High School in the state of Iowa.

Activities**Band**

- 844 band members in grades 6-12

- Canceled - Iowa String Teachers Association Honors Orchestra
- 10 elementary, 8 junior high, and 2 high school students were selected to the South East Iowa String Teachers Association Honors Orchestra

Athletics

2019-20 MAC Champions

- Boys Golf
- Boys Cross Country
- Volleyball

State Participants

- Boys Cross Country - State Runner's up, 2nd place
- Boys Golf - 3rd (tie)
- Volleyball - 4th
- Dance - Champions Class XIII Pom & Class VI Jazz
- Girls Swimming - individual qualifiers

- Boys Swimming - individual qualifiers
- Wrestling - individual qualifiers
- Softball - quarterfinalist
- Baseball - quarterfinalist

PVCSD Team with Cumulative 3.0 GPA or Higher (IHSAA/IGHSAU) Baseball, Boys Basketball, Basketball Cheerleading, Boys Cross Country, Football, Football Cheerleading, Boys Golf, Boys Swimming, Boys Bowling, Girls Basketball, Girls Cross Country, Girls Bowling, Platinum Dance, Softball, Girls Swimming & Diving, Volleyball and Wrestling Cheerleading

*All IHSAA/IGHSAU Spring Sports were canceled because of COVID.

Economic Condition and Outlook

The economic condition and outlook of the District have remained relatively strong during the past several years, and as a result, the District has experienced significant growth over the past several years. This growth has had a positive effect on employment and the District's tax base. The District has averaged a 5.6% annual increase in taxable valuations over the past ten years. In the 2019-20 fiscal year, the increase was 5.0%. The District also expects continued enrollment growth for the foreseeable future.

The District's solvency ratio at June 30, 2020 is 14.3%, up from 12.7% at June 30, 2019. The District's goal is to have a solvency ratio between 5% and 15%.

The Iowa school funding formula is a complex formula that is pupil driven and increasing total spending authority occurs by increasing the number of pupils or increasing the cost per pupil. Certified enrollment for the District continues to increase. The district cost per pupil for 2019-2020 was \$7,003 and the cost per pupil for 2020-21 is \$7,161.

In recent years, the state of Iowa has faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. The District has faced inadequate funding for state aid and other state-funded programs, and this has resulted in lower supplemental state aid. The supplemental state aid has been complimented with increased enrollment allowing the District to not need to make budget cuts in recent years.

Certificate of Achievement for Excellence in Financial Reporting (GFOA) and Certificate of Excellence in Financial Reporting (ASBO)

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pleasant Valley Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the fourth consecutive year that the District has achieved this prestigious award from GFOA. The Association of School Business Officials (ASBO) International awarded a Certificate of Excellence in Financial Reporting to Pleasant Valley Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was also the fourth consecutive year that the District has achieved this prestigious award from ASBO. In order to be awarded these certificates, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report meets program requirements for both awards and we are submitting it to ASBO and GFOA to determine its eligibility for each certificate.

We wish to take this opportunity to thank the administrative office staff who assisted in obtaining and organizing data, our financial auditors, the County Auditor and Treasurer offices and the city and town officials who provided much needed information. Without all of the above groups' efforts, the report could not have been completed.

Finally, sincere appreciation is extended to the Board of Directors, where the commitment to excellence begins. It is with great pride that this year's Comprehensive Annual Financial Report is submitted to the Board of Directors.

Very truly yours,

Independent Auditor's Report

To the Board of Education
Pleasant Valley Community School District
Bettendorf, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Pleasant Valley Community School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Pleasant Valley Community School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, and schedule of the District's proportionate share of the net pension liability and schedule of District contributions on pages 4-16 and 54-61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information, as listed in the table of contents, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other information, including the introductory and statistical sections and are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2020

on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Pleasant Valley Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2020. We encourage readers to consider this information in conjunction with additional information that we have furnished in our transmittal letter and in the District's financial statements, which follow this section.

2019-20 FINANCIAL HIGHLIGHTS

- For the year ended June 30, 2020, the District reported an increase of \$2,157,647 (4.0%) in combined total governmental and business-type activities net position from the June 30, 2019 combined total governmental and business-type activities net position amount. For the previous year ended June 30, 2019, the District had reported an increase of \$2,396,487 (4.7%) in combined total governmental and business-type activities net position.
- The District's solvency ratio (Assigned + Unassigned General Fund Balance / Actual General Fund Revenues – AEA Flowthrough) increased from 12.7% at June 30, 2019 to 14.3% at June 30, 2020. Per the Iowa Association of School Boards (IASB), solvency ratio is a financial measure that provides a picture of the cash resources on hand at fiscal year-end of a school district and represents the percent of the district's available funding. IASB recommends that this ratio be between 5 – 15%, not to exceed 25%. The District has intentionally been attempting to build up its cash reserves/fund balance in the General Fund in anticipation of upcoming expenditures related to the projected 2021-22 opening of the new Forest Grove Elementary School.
- The District's certified enrollment (resident headcount) for the 2019-20 fiscal year (taken on October 1, 2019) was 5,128.4, an increase of 91.7 students (1.8%) over the 2018-2019 fiscal year certified enrollment of 5,036.7 (taken on October 1, 2018). The District's certified enrollment for the 2017-18 fiscal year (taken on October 2, 2017) was 4,922.4. Therefore, the District's certified enrollment grew by 206.0 (4.2%) students between the 2017-18 fiscal year and the 2019-20 fiscal year. A District's certified enrollment is used in determining funding through the state foundation formula in the fiscal year immediately after the fiscal year in which the certified enrollment count is actually taken.
- The District's overall property tax levy rate was decreased from \$13.66 (rounded to the nearest penny) per \$1,000 taxable valuation in the 2018-19 fiscal year to \$13.41 (rounded to the nearest penny) per \$1,000 taxable valuation in the 2019-20 fiscal year.
- As of June 30, 2020, the District's governmental funds reported combined ending fund balances of \$31,858,149, a decrease of \$7,708,524 (19.5%) in comparison with June 30, 2019. The June 30, 2019 balance of \$39,566,673, which was an increase of \$27,038,509 (215.8%) in comparison with June 30, 2018.
- The District's Nutrition Fund was negatively affected by the COVID-19 pandemic shutdown. The District's schools were shutdown to in-person learning after March 13, 2020 through the scheduled end of the school year (June 5, 2020). There was a significant loss of revenue that normally would have been received during that time period. The District continued to pay School Nutrition Fund salaries and benefits during the shutdown.

Management's Discussion and Analysis Year Ended June 30, 2020

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Pleasant Valley Community School District as a whole and present an overall view of the District's finances.
- The Fund Financial Statements tell how governmental and business type activities were financed in the short-term as well as what remains for future spending. Fund financial statements report Pleasant Valley Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining financial statements provide information about activities for which Pleasant Valley Community School District acts solely as an agent or custodian for the benefit of those outside of the District.
- Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.
- Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Changes in the District's Total OPEB Liability, Related Ratios and Notes.
- Other supplementary information provides detailed information about the nonmajor governmental funds, the Capital Projects Fund – By Account, the Student Activity Accounts and the Agency Fund. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements				
Government-Wide Statements		Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: school nutrition and internal service fund	Instances in which the District administers resources on behalf of someone else, such as scholarship programs, reunion moneys and funds for District employee purchases of pop, etc.
Required financial statements	Statement of net position Statement of activities	Balance sheet Statement of revenues, expenditures and changes in fund balances	Statement of net position Statement of revenues, expenses and changes in net position Statement of cash flows	Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset and deferred outflows of resources /liability and deferred inflows of resources information	All assets, deferred outflows of resources and liabilities and deferred inflows of resources, both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets, deferred outflows of resources and liabilities and deferred inflows of resources, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-Wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating, respectively. To assess the District's overall health, additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.

Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between the two statements. The District's major governmental funds for 2019-20 were the General Fund and the Capital Projects Fund. The nonmajor governmental funds include two Special Revenue Funds (the Management Fund and Student Activities Fund) and the Debt Service Fund. The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

- 2) **Proprietary funds:** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Fund, one type of proprietary fund, is the same as its business-type activities but provides more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund. The District uses internal service funds, the other kind of proprietary fund, to report activities that provide supplies and services for other District programs and activities. The District currently has one internal service fund, which is used to account for the District's partially self-funded health and fully self-funded dental insurance plans.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position and a Statement of Cash Flows.

- 3) **Fiduciary funds:** The District is the trustee, or fiduciary, for assets that belong to others. This fund type includes agency funds.

Agency Funds: These are funds for which the District faculty accounts for certain revenue collected for District employee purchases of pop, funeral flowers, etc. and related expenditures and for revenues and expenditures of other various club accounts.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds of the District include a Statement of Fiduciary Assets and Liabilities.

Reconciliations between the government-wide financial statements and the government fund financial statements follow the government fund financial statements.

Other liabilities	9,920,270	9,433,443	228,087	131,287	10,148,357	9,564,730	6.1%
Total liabilities	88,893,642	92,985,836	881,793	730,219	89,775,435	93,716,055	-4.2%
Deferred inflows of resources	26,151,550	22,495,507	89,220	31,748	26,240,770	22,527,255	16.5%
Net position:							
Net investment in capital assets	57,616,352	54,688,945	519,029	517,626	58,135,381	55,206,571	5.3%
Restricted	9,546,788	9,377,347	41,295	26,299	9,588,083	9,403,646	2.0%
Unrestricted	(13,090,297)	(12,357,024)	1,018,293	1,240,620	(12,072,004)	(11,116,404)	8.6%
Total net position	\$ 54,072,843	\$ 51,709,268	\$ 1,578,617	\$ 1,784,545	\$ 55,651,460	\$ 53,493,813	4.0%

The District's combined net position as of June 30, 2020 grew by \$2,157,647 (4.0%) over the June 30, 2019 combined net position. Net position in the governmental activities grew by \$2,363,575 (4.6%). The net position of the District's business-type activities decreased by \$205,928 (11.5%).

The most significant factors for the increase in the combined net position of the District were the District's continued planned increase in its cash reserve balances in its General Fund to protect itself against potential future cuts in state funding and the significant improvements completed and in progress during the 2019-20 fiscal year at various buildings throughout the District. The most significant factor for the decrease in the net position in the District's business-type activities was due to the shutdown of the district's schools to in-person learning after March 13, 2020 through the scheduled end of the school year (June 5, 2020) due to the COVID-19 pandemic. This was due to a loss of food sales revenue in the District's School Nutrition Fund. The District had issued \$31,640,000 in bonds to finance future projects of the District in Fiscal Year 2019. As of June 30, 2020, the District had \$14,881,029 of unspent bond proceeds.

Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased by \$184,437 (2.0%) primarily due to increases in restrictions for school infrastructure.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Unrestricted net position (the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements) decreased by \$955,600 (8.6%) primarily due to changes in net pension liability.

Figure A-4 shows the changes in net position for the year ended June 30, 2020 compared to the year ended June 30, 2019.

Figure A-4 Changes in Net Position From Operating Results

Net position, beginning of year	51,709,268	49,525,916	1,784,545	1,571,410	53,493,813	51,097,326	
Net position, end of year	\$ 54,072,843	\$ 51,709,268	\$ 1,578,617	\$ 1,784,545	\$ 55,651,460	\$ 53,493,813	

In 2019-20, local taxes (property taxes and statewide sales and services tax) and state foundation aid accounted for 82.0% of the revenue from governmental activities while charges for services and grants and contributions accounted for 98.9% of the revenue from business-type activities.

The District's expenses primarily relate to instructional and support services, which account for 91.2% of the total expenses.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Total revenue for the District increased by \$1,196,265 (1.8%) in the fiscal year ended June 30, 2020. The most significant revenue category changes were due to an increase in property taxes, state foundation aid and statewide sales and services tax. Property taxes increased by \$1,331,987 (6.1%) primarily due to an increase in assessed/taxable valuations in the District and the District's increased enrollment.

Total District expenses increased by \$1,435,106 (2.3%), primarily because of increases in expenditures for salaries and benefits (as a result of raises given to employees and new hires due to the District's enrollment growth) and an increase in long-term debt interest.

Figures A-5 and A-6, which follow, show charts reflecting sources of revenue and distribution of expenses for the 2019-20 fiscal year.

**Figure A-5 - Sources of Revenues for
2019-20 Fiscal Year**

Figure A-6 - Expenses for 2019-20 Fiscal Year

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Governmental Activities

Revenue for the District's governmental activities in 2019-20 increased by \$1,783,578 (2.8%) from the previous year, while total expenses in governmental activities increased by \$2,368,756 (4.1%). Governmental activities net position as of June 30, 2020 increased by \$1,596,601 (2.6%) over the June 30, 2019 balance.

Figure A-7 presents the total and net cost of the District's four major governmental activities: instruction, support services, noninstructional programs and other expenses, for the year ended June 30, 2020 compared to the year ended June 30, 2019.

Figure A-7 Net Cost of Governmental Activities

	Total Cost of Services		Percentage	Net Cost of Services		Percentage
	2020	2019	Change	2020	2019	Change
Instruction	\$ 41,261,060	\$ 39,123,219	5.5%	\$ 33,158,429	\$ 30,759,676	7.8%
Support services	17,391,241	18,005,473	-3.4%	17,325,301	17,921,665	-3.3%

Total	\$ 62,359,144	\$ 60,762,543	2.6%	\$ 51,931,242	\$ 50,158,273	3.5%

For the year ended June 30, 2020:

- The cost financed by the users of the District's programs was \$3,091,621.
- Federal and state governments and some local sources subsidized certain programs with grants and contributions totaling \$7,336,281.
- The net cost of governmental activities was financed with \$23,304,617 in property taxes, \$24,503,479 of unrestricted state grants, \$5,191,254 in statewide sales and services tax revenue, \$634,970 in investment earnings and \$535,476 in miscellaneous revenues.

For the year ended June 30, 2019:

- The cost financed by the users of the District's programs was \$3,333,082.
- Federal and state governments and some local sources subsidized certain programs with grants and contributions totaling \$7,271,188.
- The net cost of governmental activities was financed with \$21,972,630 in property taxes, \$23,406,467 of unrestricted state grants, \$5,059,769 in statewide sales and services tax revenue, \$733,133 in other taxes, \$489,188 in investment earnings, \$60,000 from gain on sale of capital assets, and \$488,663 in miscellaneous revenues.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Business-Type Activities

The District's business-type activities include the School Nutrition Fund. Revenues of the District's business-type activities in 2019-20 were \$1,876,565; a decrease of \$587,313 (23.8%) from 2018-19. Other revenues of these activities were comprised of federal and state reimbursements and interest. Expenses were \$1,957,472, a decrease of \$161,496 (7.6%) from 2018-19, primarily due to the cost of food service operations in the current year. The most significant factor for the decrease in the revenues in the District's business-type activities was due to the shutdown of the district's schools to in-person learning after March 13, 2020 through the scheduled end of the school year (June 5, 2020) due to the COVID-19 pandemic. This was also a factor in the decrease in expenses in the District's business-type activities as less food was purchased due to the COVID-19 related shutdown.

Individual Fund Analysis

As previously noted, the Pleasant Valley Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balances of \$31,858,149, which reflects a decrease of \$7,708,524 (19.5%) from last year's ending fund balances of \$39,566,673.

Governmental Fund Highlights

- The fund balance in the District's General Fund increased by \$1,170,170 (16.6%) from \$7,054,004 as of June 30, 2019 to \$8,224,174 as of June 30, 2020. The General Fund experienced an increase in state sources of revenue primarily due to increased enrollment.
- The fund balance in the Capital Projects Fund decreased by \$8,279,541 (29.0%) from \$28,524,186 as of June 30, 2019 to \$20,244,645 as of June 30, 2020. Total expenditures were \$11,385,787 in 2019-20 compared to \$10,172,973 in 2018-19. In the current year, major expenditures included completing the building addition at Pleasant Valley High School, construction in progress of the District's sixth elementary school, Forest Grove Elementary School and other facility improvements.

Proprietary Fund Highlights

The net position of the District's proprietary funds increased during the year.

- The net position of the Nutrition Fund decreased by \$205,928 (11.5%) during 2019-20 from the 2018-19 net position. Charges for services decreased from \$1,771,203 in 2018-19 to \$1,347,137 primarily due to the COVID-19 shutdown of schools.
- The net position of the Internal Service Fund increased by \$424,464 (12.2%) during 2019-20.

Pleasant Valley Community School District

Management's Discussion and Analysis Year Ended June 30, 2020

Budgetary Highlights

A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except internal service funds and agency funds. This is referred to as the certified budget. The certified budget may be amended during the year utilizing similar statutorily prescribed procedures. The District uses the GAAP (Generally Accepted Accounting Principles) method of accounting for budgeting purposes. Over the course of the year, the District amended its certified budget one time.

It is Pleasant Valley Community School District's normal practice to amend the certified budget one time during each fiscal year. Iowa law requires that actual spending in each functional area of the budget does not exceed the amount budgeted to be spent in that functional area at any time during the fiscal year. The District's practice is to amend the budget each year prior to expenditures/expenses going over budget in any of the functional areas. The District's practice is also to amend the budget to reflect the entire fund balances in each of the various budgeted funds being spent down to a zero balance at the end of the fiscal year. This is the most significant reason for the amended budget showing \$30,219,045 more in expenditures/expenses than the original certified budget for the 2019-20 fiscal year. Actual expenditures/expenses for the 2019-20 fiscal year were \$34,373,815 less than the final amended budget expenditures/expenses.

The other main reasons for the differences between the original budget and the amended budget are:

- The budget is amended to reflect additional allowed expenditures/expenses due to receipt of other miscellaneous income during the year that was not possible to predict when the certified budget was adopted.

Capital Asset and Debt Administration

Capital Assets

By the end of the 2019-20 fiscal year, the District had invested \$92,872,793 (net of accumulated depreciation of \$49,082,860) in a broad range of assets, including school buildings, athletic facilities, computer and audio-visual equipment and administrative offices. (See Figure A-8). This amount represents a net increase of \$6,848,064 or 8.0% from last year. The most significant addition during 2019-20 was for construction in progress at Forest Grove Elementary School (More detailed information about capital assets can be found in Note 4 to the financial statements). Total depreciation expense for the year was \$3,606,150.

Long-Term Liabilities

As of June 30, 2020, the District had \$33,360,000 in revenue bonds outstanding, \$16,258,441 in general obligation bonds outstanding, \$175,750 in capital lease liability, \$652,629 in early retirement liabilities, \$1,045,642 in total compensated absence liabilities, \$4,657,520 in net OPEB liability, and \$23,477,096 in net pension liability for total outstanding long-term obligations of \$79,627,078 as reflected in Figure A-9 below. This represents a decrease of \$4,524,247 (5.4%) from June 30, 2019. More detailed information about the District's long-term liabilities is available in Note 5 to the financial statements.

The constitution of the State of Iowa limits the amount of general obligation debt districts can issue to 5% of the assessed value of all taxable property within the District. The District's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$155,142,062.

Management's Discussion and Analysis Year Ended June 30, 2020

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The District continues to experience significant growth. The average annual growth in certified enrollment in the past ten years (2010-11 to 2019-20) has been 151.9 students per year. The District's certified enrollment was up 91.7 students for the 2019-20 fiscal year. The average growth in the District's taxable valuations over the last ten years has been 5.7%. In the 2019-20 fiscal year, the increase was 5.0%. The continuing growth has made it necessary for the District to complete several building addition and renovation projects over the past several years and the District is currently in the midst of construction on an additional (sixth) elementary school (Forest Grove Elementary School, scheduled to open in the 2021-22 school year). Reserving funds to staff Forest Grove Elementary School will be very important over the next year. The district issued \$10,000,000 of School Infrastructure Sales, Services and Use Tax Revenue Bonds in December, 2015, October, 2016, and October, 2017 to help finance these projects. The District also issued \$14,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds in September, 2018 and \$17,640,000 General Obligation School Capital Loan Notes (to be repaid with future Voted Physical Plant and Equipment Levy (PPEL) revenue) in October, 2018 to help finance these projects. Additional borrowing may become necessary over the next few years. While this growth has a positive impact, it also brings with it significant challenges in maintaining the District's infrastructure to accommodate this growth in an orderly and efficient manner.
- The Iowa Legislature set the supplemental state aid (formerly known as allowable growth) percentage at 2.06% for the 2019-20 fiscal year and 2.30% for the 2020-21 fiscal year. Supplemental state aid has only averaged 1.74% over the past five years. The Iowa Legislature has not yet set the supplemental state aid rate for the 2021-22 fiscal year. As the District's General Fund budget is comprised of approximately 75-80% salary and benefits, wage and salary adjustments arrived at through the District's formal negotiations process will have a significant impact on future budget spending decisions.
- Inadequate state funding and increasing enrollments will continue to put great pressure on District finances to meet the personnel, facility and transportation needs of the District.
- The economy continues to be a factor that could have consequences for the district in regard to state revenues, property valuations, and enrollment.
- The COVID-19 outbreak is disrupting business across a range of industries in the United States and financial markets have experienced a significant decline. As a result, local, regional and national economies, including that of the District, may be adversely impacted. The extent of the financial impact of COVID-19 will depend on future developments, including the duration and spread, which are uncertain and cannot be predicted. Due to the uncertainties surrounding the outbreak, management cannot presently estimate the potential impact on the District's operations and finances.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mike Clingingsmith, Chief Financial Officer, Pleasant Valley Community School District, 525 Belmont Rd., Bettendorf, Iowa 52722.

Pleasant Valley Community School District

**Reconciliation of the Balance Sheet -
Governmental Funds to the Statement of Net Position
June 30, 2020**

Total fund balances of governmental funds \$ 31,858,149

Amounts reported for governmental activities in the Statement of Net Position
are different because:

Capital assets used in governmental activities are not financial resources and, therefore,
are not reported as assets in the governmental funds. 92,353,764

Other long-term assets are not available to pay for current period expenditures and,
therefore, are unavailable in the funds. 274,766

The Internal Service Fund is used to charge costs of the District's self-funded insurance
plan to the governmental funds. The net position of the Internal Service Fund is therefore
included under governmental activities. 3,890,078

Pension and OPEB related deferred outflows of resources and deferred inflows of resources
are not due and payable in the current year and, therefore, are not reported in the
governmental funds, as follows:

Deferred outflows of resources related to pension	6,514,291
Deferred inflows of resources related to pension	(3,415,322)
Deferred inflows of resources related to OPEB	(356,228)
Deferred outflows of resources related to OPEB	1,966,480

Long-term liabilities, including bonds payable and compensated absences, are not
due and payable in the current period and, therefore, are not reported as liabilities
in the governmental funds.

Revenue bonds	(33,360,000)
General obligation bonds	(15,905,000)
Premium on issuance of general obligation bonds	(353,441)
Accrued interest	(39,763)
Capital lease	(175,750)
Early retirement	(652,629)
Compensated absences	(1,045,642)
Net OPEB liability	(4,471,219)
Net pension liability	(23,009,691)
Net position of governmental activities	\$ 54,072,843

See Notes to Basic Financial Statements.

**Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances - Governmental Funds to the Statement of Activities
Year Ended June 30, 2020**

Net change in fund balances - total governmental funds \$ (7,708,524)

Amounts reported for governmental activities in the Statement of
Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Net Position and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlay	\$ 10,343,463	
Depreciation expense	<u>(3,496,802)</u>	6,846,661

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, change in unavailable revenues.

24,674

The increase in net position of the Internal Service Fund represents an overcharge to the governmental funds and is incorporated into the change in net position of governmental activities.

424,464

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Repayment of revenue bond and general obligation bond principal	5,055,000	
Repayment of capital lease	83,397	
Amortization of premium	44,180	
Interest expense	(39,763)	
Pension expense	(1,770,940)	
Early retirement	(32,848)	
Compensated absences	(60,604)	
Net OPEB liability	<u>(502,122)</u>	2,776,300

Change in net position of governmental activities

\$ 2,363,575

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

Pleasant Valley Community School District (the District) is a political subdivision of the state of Iowa and operates public schools for children in grades kindergarten through twelve. The District also operates a preschool program. The geographic area served includes the Township of Pleasant Valley, Iowa, the City of LeClaire, Iowa, portions of the City of Bettendorf, Iowa and portions of the agricultural territory of Scott County. The District is governed by a Board of Education whose members are elected on a nonpartisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

Reporting entity:

For financial reporting purposes, Pleasant Valley Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. Pleasant Valley Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly governed organizations: The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Scott County Assessor's Conference Board.

Basis of presentation:

District-wide financial statements: The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvements of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customer or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements: Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The other governmental funds of the District are considered nonmajor and are as follows:

Special Revenue Funds: Are used to account for the revenue sources that are legally restricted to expenditures for specific purposes:

The Management Fund accounts for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

The Student Activity Fund accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular to extracurricular activities of the District.

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Revenue of the fund primarily consists of local property taxes.

Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position, and cash flows. The District has two proprietary funds, an enterprise fund and an internal service fund.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Enterprise funds are used to account for those operations that are financed and operating in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The District's nonmajor enterprise fund is the Nutrition Fund which accounts for the food service operations of the District.

The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance plans for District employees.

The District also reported fiduciary funds. The District's fiduciary funds include the following:

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. These are funds for District employee purchases of pop, funeral flowers, and related expenditures and expenditures for various club accounts. The Agency Fund is custodial in nature, assets equal liabilities and does not involve measurement of results of operations.

Measurement focus and basis of accounting:

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Proprietary funds distinguished operating revenues and expenses from nonoperating items. Operating revenues and expense generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Assets, deferred outflows of resources, liabilities, deferred inflows of resources and fund equity:

The following accounting policies are followed in preparing the financial statements:

Cash, pooled investments and cash equivalents: The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for short-term nonnegotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and, at the day of purchase, have maturity date no longer than three months.

Property tax receivable: Property tax in governmental funds is accounted for using the modified accrual basis of accounting. Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current year property tax receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is a deferred inflow of resources in both the District-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied. The property tax revenue recognized in these funds was due and collectible in September and March of the fiscal year with 1½ percent per month penalty for delinquent payments; is based on January 1, 2018 assessed property valuations; is for the tax accrual period July 1, 2019 through June 30, 2020 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2019.

Due from other governments: Due from other governments represents amounts due from the state of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories: Inventories are valued at cost using the first-in, first-out method for purchased items and governmental commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Prepaid items: The District accounts for the prepaid items by using the purchases method.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Capital assets: Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business-type activities columns in the District-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 1
Buildings	25,000
Improvements other than buildings	25,000
Intangibles	100,000
Furniture and equipment:	
School Nutrition Fund equipment	300
Other furniture and equipment	2,500

Capital assets are depreciated using the straight-line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	20 - 40 years
Improvements other than buildings	15 - 40 years
Furniture and equipment	5 - 15 years

Salaries and benefits payable: Payroll and related expenses for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Unearned revenue: Unearned revenue consists primarily of school registration fees, activity fees and meal revenues collected for the programs and services in the next school year.

Compensated absences: District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the District-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2020. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and by the Special Revenue Fund, Management Levy.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Pensions — For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Cash flows: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund equity: In the governmental fund financial statements fund balances are classified as follows:

Nonspendable: Balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned: Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The authority to assign fund balances has been delegated to the Chief Financial Officer by the Board of Education. The District has assigned \$3,133,352 primarily for transportation. Unlike commitments, assignments only exist temporarily. An additional action does not normally have to be taken for the removal of an assignment.

Unassigned: All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of other governmental funds would also be reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expenditure toward restricted fund balance and then to less restrictive classifications—assigned and then unassigned fund balances.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Deferred outflows/inflows of resources: In addition to assets, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of fund balance or net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. The District's deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date but before the end of the employer's reporting period and OPEB related deferred outflows.

In addition to liabilities, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance or net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District's deferred inflows of resources consist of deferred revenue, the unamortized portion of differences between expected and actual experience and the net difference between projected and actual earnings on pension plan investments, and the unamortized portion of the changes in assumptions for other postemployment benefits.

The District reports unavailable revenue in the governmental funds balance sheet from the statewide sales and services tax, grants and property tax. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. In the District's government-wide statements, only the succeeding year property tax revenue remains as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which levied. The District also reports pension and OPEB related deferred outflows in the government-wide statements and the proprietary fund statements.

Net position: In proprietary funds, fiduciary funds, and government-wide financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. As of June 30, 2020, the District had \$14,881,029 of unspent bond proceeds. Net position is reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted by enabling legislation as of June 30, 2020 consists of \$623,430 for categorical funding, \$2,269,343 for management levy purposes, \$1,013 for physical plant and equipment levy, \$15,147,808 for school infrastructure, \$742,746 for student activity purposes and \$280,874 for debt service.

Net position flow assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Budgets and budgetary control:

In accordance with the Code of Iowa, the District's Board of Education annually adopts a single district-wide budget and approves the related appropriations following required public notice and hearing for all funds. The budgets and related appropriations as well as the financial statements are prepared on the modified accrual basis or accrual basis of accounting. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Formal and legal budgetary control for the certified budget is based upon four major classes of disbursement known as functional areas, not by fund. These four functional areas are instruction, support services, noninstructional programs and other expenditures. The Code of Iowa also provides that District disbursements in the General Fund may not exceed the amount authorized by the school finance formula. The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2020, expenditures did not exceed the amounts budgeted.

Note 2. Cash and Pooled Investments

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District's cash and pooled investment consisted of depository accounts at financial institutions including short-term nonnegotiable certificate of deposits.

Custodial credit risk: The District's deposits in banks as of June 30, 2020 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This Chapter provides for additional assessments against the depositories to insure there will be no loss of public funds. The district does not have a separate custodial credit risk policy from state statutes.

Credit risk: The District does not have a separate credit risk or interest rate risk policy from state statutes. The District does not have any investments as of June 30, 2020.

Note 3. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2020 is as follows:

Transfer To	Transfer From	Amount
General	Nonmajor enterprise fund, Nutrition	\$ 25,021
Capital Projects	Nonmajor enterprise fund, Nutrition	100,000
Nonmajor governmental fund, Debt Service	Capital Projects	5,802,024
Student Activity	General	15,571
		<u>\$ 5,942,616</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources. Transfers from the Capital Projects Fund to the Debt Service Fund are to make principal and interest payments on the District's revenue bonds. Transfers from the Nutrition Fund to the General Fund are for indirect costs of the program. Transfers from the Nutrition Fund to the Capital Projects Fund are for capital assets.

Note 5. Long-Term Liabilities (Continued)

General obligation bonds: In October 2018, the District issued \$17,640,000 General Obligation School Capital Loan Notes, Series 2018 for capital facility construction/building improvement purposes. The bonds provide for the serial retirement of principal payable annually on June 1 and interest due semiannually at 3% with maturity on June 1, 2028. The general obligation bonds will be paid through voter-approved physical plant and equipment property tax. Annual Debt Service requirements of the general obligation bonded indebtedness are as follows:

Year ending June 30:	Direct Borrowing and Direct Placement General Obligation School Capital Loan Notes, Series 2018		
	Principal	Interest	Total
2021	\$ 1,790,000	\$ 477,150	\$ 2,267,150
2022	1,840,000	423,450	2,263,450
2023	1,895,000	368,250	2,263,250
2024	1,955,000	311,400	2,266,400
2025	2,015,000	252,750	2,267,750
2026	2,075,000	192,300	2,267,300
2027	2,135,000	130,050	2,265,050
2028	2,200,000	66,000	2,266,000
Totals	\$ 15,905,000	\$ 2,221,350	\$ 18,126,350

Revenue bonds: In December 2015, the District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2015 for capital improvements to school buildings. Bond principal is payable annually on July 1 beginning July 1, 2018 through July 1, 2022. The bonds have an interest rate of 1.78 percent. Interest is payable semiannually on January 1 and July 1 until maturity. The bonds are payable solely from the revenues of the statewide sales, services and use tax. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the bonds as of June 30, 2020 is \$3,552,649. During the year ended June 30, 2020, \$1,680,000 principal was paid and \$91,492 of interest was paid on the bonds.

In October 2016, the District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2016 for capital improvements to school buildings. Bond principal is payable annually on July 1 beginning July 1, 2019 through July 1, 2029. The bonds have an interest rate of 1.96 percent. Interest is payable semiannually on January 1 and July 1 until maturity. The bonds are payable solely from the revenues of the statewide sales, services and use tax. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the bonds as of June 30, 2020 is \$8,041,384. During the year ended June 30, 2020, \$905,000 principal was paid and \$161,504 of interest was paid on the bonds.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 5. Long-Term Liabilities (Continued)

In October 2017, the District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2017 for capital improvements to school buildings. Bond principal is payable annually on July 1, through July 1, 2029. The bonds have an interest rate of 1.94 percent. Interest is payable semiannually on January 1 and July 1 until maturity. The bonds are payable solely from the revenues of the statewide sales, services and use tax. The bonds are not general obligations of the District. The total remaining principal and interest remaining to be paid on the bonds as of June 30, 2020 is \$9,945,317. During the year ended June 30, 2020, \$350,000 principal was paid and \$180,420 of interest was paid on the bonds.

In October 2018, the District issued \$14,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2019 for capital improvements to school buildings. Bond principal is payable annually on July 1, beginning July 1, 2019 through July 1, 2029. The bonds have an interest rate of 2.93 percent. Interest is payable semiannually on January 1 and July 1 until maturity. The bonds are payable solely from the revenues of the statewide sales, services and use tax. The bonds are not general obligations of the District. The total remaining principal and interest remaining to be paid on the bonds as of June 30, 2020 is \$15,939,352. During the year ended June 30, 2020, \$385,000 principal was paid and \$410,200 of interest was paid on the bonds.

During the year ended June 30, 2020 the statewide sales, services, and use tax revenues were \$5,215,928 for the year ended June 30, 2020. The pledge of statewide sales, service and use tax revenues for the parity bonds constitutes approximately 97% of annual statewide sales, service and use tax revenues of the District.

The resolutions providing for the issuance of the revenue bonds included the following provisions:

- All proceeds from the statewide sales, service and use tax shall be deposited into the revenue account.
- Monies in the revenue account shall first be disbursed to make deposits into the sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year. At June 30, 2020, there was \$188,929 deposited in the sinking account in the Debt Service Fund.
- If monies in the sinking fund exceed the required amount, the excess shall be transferred to the revenue account. At June 30, 2020, there was no amount deposited into a surplus account.

Annual debt service requirements on all outstanding indebtedness as of June 30, 2020, are as follows:

Year ending June 30:	Revenue Bonds, Series 2015		
	Principal	Interest	Total
2021	\$ 1,715,000	\$ 61,588	\$ 1,776,588

Totals	\$ 175,750	\$ 9,380	\$ 185,130

As of June 30, 2020, the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	\$ 3,102,841,240
Debt limit, 5% of total assessed valuation	\$ 155,142,062
Amount of debt applicable to debt limitation	49,794,191
Legal debt margin	<u>\$ 105,347,871</u>

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 5. Long-Term Liabilities (Continued)

Early retirement: The District offered a voluntary early retirement plan to its certified, administrative and classified employees. Eligible employees must be at least age 55 and employees must have completed 15 years of service to the District. Employees must complete an application which is required to be approved by the Board of Education.

For administrative and certified personnel, the early retirement incentive for each eligible employee is equal to 50 percent of the employee's base salary calculated by using the current year regular salary schedule. For classified personnel, the early retirement incentive for each eligible employee is the product of 50 percent of the number of unused sick leave days (limited to a maximum number of days in the employee's letter of assignment) times the employee's hourly wage rate on the last day of employment times the daily hours worked.

As of June 30, 2020, the District had obligations to 10 participants with a total liability of \$652,629. Actual early retirement expenditures for the year ended June 30, 2020 totaled \$366,196. Early retirement is recorded as a long-term liability of the Governmental Activities in the District-wide financial statements. Early retirement obligations are generally liquidated by the Management Fund.

Note 6. Other Postemployment Benefits (OPEB)

Plan description: The District's defined benefit OPEB plan, Pleasant Valley Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. The Plan is a single employer defined benefit OPEB plan administered by the District. Under Chapter 509A.13 of the Code of Iowa, "Group Insurance for Public Employees," if a governing body has procured insurance for its employees, the governing body shall allow its employees who retired before the age of sixty-five years of age to continue participation in the group plan at the employee's own expense until the employee attains sixty-five years of age. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75.

Benefits provided: The Plan provides healthcare benefits including medical and prescription drug benefits for retirees and their dependents. Retiree health care coverage is available to pre-age 65 eligible retirees. All employees are required to contribute the full premium in order to continue coverage at retirement.

The full monthly premium rates as of July 1, 2019 for each plan are as shown below:

	Rate Tier	Traditional
Single		\$ 602
Family		1,318

Employees covered by benefit terms: At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	12
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	406
	<u>418</u>

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 6. Other Postemployment Benefits (OPEB) (Continued)

Total OPEB Liability: The District's total OPEB liability of \$4,657,520 was measured as of June 30, 2020 and was determined by an actuarial valuation as of June 30, 2020.

Actuarial assumptions and other inputs: The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified.

Inflation	2.50% per annum
Salary increases	4.00% per annum
Discount rate	2.66% per annum
Retirees' share of benefit-related costs	100%
Health care cost trend rate	5.00% reduced 0.50% per annum until reaching ultimate health care cost trend rate - 4.50%

The discount rate was based on the Bond Buyer 20-Bond GO index. Mortality rates were based on the RP-2014 combined annuitant mortality table for males and females. The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period 2010– 2019.

Changes in the Total OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance at July 1, 2019	\$ 2,483,702	\$ -	\$ 2,483,702
Changes for the year:			
Service cost	358,497	-	358,497
Interest	85,188	-	85,188
Changes of benefit terms	-	-	-
Differences between expected and actual experience	1,211,052	-	1,211,052
Changes in assumptions or other inputs	618,617	-	618,617
Benefit payments	(99,536)	-	(99,536)
Net changes	2,173,818	-	2,173,818
Balance at June 30, 2020	\$ 4,657,520	\$ -	\$ 4,657,520

Changes of assumptions or other inputs reflect a change in the discount rate from 3.50% per annum in 2019 to 2.66% per annum in 2020. Rates of retirement, withdrawal, and disability were changed to those in the most recent Iowa Public Employees' Retirement System Pension Fund valuation report. The election at retirement assumption was changed from 55% used in the last valuation to 50%. The last report implies that an Implicit Rate Subsidy of 32.6% was used, in this valuation, the value is 79.5, which is calculated using average ages from the census and averages ages and assumptions on the relationship between costs and increasing age.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 6. Other Postemployment Benefits (OPEB) (Continued)

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	1.66%	2.66%	3.66%
Total OPEB liability	\$ 5,065,518	\$ 4,657,520	\$ 4,280,576

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates: The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

	1% Decrease	Healthcare Cost Trend Rates	1% Increase
	4.0%	5.0%	6.0%
Total OPEB liability	\$ 4,089,450	\$ 4,657,520	\$ 5,336,710

For the year ended June 30, 2020, the District recognized OPEB expense of \$622,580. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,093,783	\$ -
Changes of assumptions or other inputs	954,633	371,070
Net difference between projected and actual investments	-	-
Total	\$ 2,048,416	\$ 371,070

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2021	\$ 178,895
2022	178,895
2023	178,895
2024	178,895
2025	178,895
Thereafter	782,871
	\$ 1,677,346

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 7. Transportation Contract

The District entered into a transportation contract/equipment lease for busing equipment and services required for the busing of all District students. The terms call for the leasing of buses for various routes. All services are provided by the lessor. The lease runs for one-year increments. For the year ended June 30, 2020, the equipment portion of the lease called for monthly payments of \$1,600 per bus for up to 45 buses. The lease payments for the year ended June 30, 2020 totaled \$537,264.

Note 8. Pension and Retirement Benefits

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50 percent for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 8. Pension and Retirement Benefits (Continued)

Funding Policy requires that the actuarial contribution rate be determined using the “entry age normal” actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2020, pursuant to the required rate, Regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District’s contributions to IPERS for the year ended June 30, 2020 were \$3,007,375.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2020, the District reported a liability of \$23,477,096 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2019, the District’s proportion was .405431 percent, which was an increase of .009017 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$4,318,643. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 65,085	\$ 844,114
Changes of assumptions	2,514,733	-
Net difference between projected and actual earnings on pension plan investments	-	2,645,586
Changes in proportion and differences between District contributions and proportionate share of contributions	1,060,159	-
District contributions subsequent to the measurement date	3,007,375	-
Total	\$ 6,647,352	\$ 3,489,700

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 8. Pension and Retirement Benefits (Continued)

Deferred outflows of resources of \$3,007,375 related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2021	\$ 912,909
2022	(262,880)
2023	(169,785)
2024	(313,947)
2025	(16,020)
Thereafter	-
Total	\$ 150,277

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation (effective June 30, 2017)	2.60 percent per annum
Salary Increases (effective June 30, 2017)	3.25 percent to 16.25 percent average, including inflation. Rates vary by membership group.
Investment rate of return (effective June 30, 2017)	7.00 percent per annum, compounded annually, net of pension plan, investment expense, including inflation
Wage growth (effective June 30, 2017)	3.25 percent per annum, based on 2.60 percent inflation and 0.65 percent real wage inflation

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018. Mortality rates used in the 2019 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 8. Pension and Retirement Benefits (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core-plus fixed income	27.0%	1.71%
Domestic equity	22.0%	5.60%
International equity	15.0%	6.08%
Private equity	11.0%	10.13%
Private real assets	7.5%	4.76%
Public real assets	7.0%	2.81%
Public credit	3.5%	3.32%
Private credit	3.0%	3.01%
Global smart beta equity	3.0%	5.82%
Cash	1.0%	-0.21%
Total	100%	

Discount Rate – The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 41,687,744	\$ 23,477,096	\$ 8,202,205

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 8. Pension and Retirement Benefits (Continued)

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to the Pension Plan – At June 30, 2020, the District reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 9. Risk Management

In April 2017, the District transitioned from the fully self-funded health and dental insurance to a partially self-insured plan. The new plan provides for a high deductible plan. The District funds claims between the former deductible (\$1,500 family and \$750 single) and former maximum out of pocket (\$4,500 family and \$2,250 single) to the new deductible (\$10,000 family and \$5,000 single) and new maximum out of pocket (\$14,000 family and \$7,000 single).

Payments are made to the plan based on actuarial estimates of amounts needed to pay prior and current year claims and to establish a reserve for incurred but unpaid claims. Changes in the claims liability amounts for the years ended June 30, 2020 and 2019 were as follows:

Self-Insurance Liability	Beginning	Claims and Changes in Estimates	Claim Payments	Ending
2019	\$ 143,345	\$ 1,271,478	\$ 1,230,281	\$ 184,542
2020	184,542	889,766	934,181	140,127

Claims liability is classified as current as claims are typically paid within 2 ½ months of incurred date.

Pleasant Valley Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 10. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$2,259,331 for the year ended June 30, 2020 and is recorded in the General Fund.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 11. Categorical Funding

The District's fund balance restricted for categorical funding as of June 30, 2020 is comprised of the following programs:

Program	Amount
Home school assistance	\$ 80,645
ELP/TAG	109,919
Teacher leadership	207,173
Successful progression for early readers	118,533
Professional development	91,207
Other	15,953
Total	\$ 623,430

Note 12. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2020 under tax abatement agreements of other entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of LeClaire, Iowa	Urban renewal and economic development projects	\$ 1,361,378
City of Bettendorf, Iowa	Urban renewal and economic development projects	46,825

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2020, this reimbursement amounted to \$722,240.

Note 13. Commitments

The District has entered into various contracts totaling \$42,646,703 for elementary and high school classroom additions. As of June 30, 2020, costs of \$33,171,943 had been incurred against the contracts. The balance of \$9,474,760 remaining as of June 30, 2020 will be paid as work on the projects progress.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 14. Governmental Accounting Standards Board (GASB)

The District adopted the following statement during the year ended June 30, 2020:

GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, issued May 2020, the provisions of this statement was effective immediately upon issuance. The objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The effective dates of certain provisions contained in the following pronouncements are postponed by one year: Statements Nos. 83, 84, 88, 89, 90, 91, 92 and 93, and Implementation Guide Nos. 2018-1, 2019-1, and 2019-2. The effective dates of the following pronouncements are postponed by 18 months: Statement No. 87 and Implementation Guide No. 2019-3.

As of June 30, 2020, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 84, *Fiduciary Activities*, issued January 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the identification criteria established by the Statement is on 1) whether a government is controlling the assets of the fiduciary activity and 2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported as a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources.

GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89, *Accounting for Interest Cost before the End of a Construction Period*, issued June 2018, will be effective for the District beginning with its fiscal year ending June 30, 2022. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that was previously accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or an enterprise fund. This statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 14. Governmental Accounting Standards Board (GASB) (Continued)

GASB Statement No. 90, *Majority Equity Interest-An Amendment of GASB Statement No. 14 and No. 61*, issued August 2018, will be effective for the District beginning with its fiscal year ending June 30, 2021. The primary objectives of this Statement are to improve consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies the reporting of a majority equity interest. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities and deferred inflows of resources at acquisition value at the date the government acquired the 100 percent equity interest in the component unit.

GASB Statement No. 91, *Conduit Debt Obligations*, issued May 2020, will be effective for the District beginning with its fiscal year ending June 30, 2023. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements association with conduit debt obligations; and improving required note disclosures. This Statement requires issuers to disclose general information about their conduit debt obligations organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

GASB Statement No. 92, *Omnibus 2020*, issued January 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022 except for the requirements related to the effective date of Statement No. 87 and Implementation Guide 2020-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including leases, intra-entity transfers, assets accumulated for postemployment benefits, applicability of Statement No. 84 to postemployment benefit arrangements, measurement of liabilities related to asset retirement obligations in a government acquisition, reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers, nonrecurring fair value measurements of assets or liabilities, and terminology to refer to derivative instruments.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, issued March 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. This statement provides exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variably payment, clarifies the hedge accounting termination provisions when a hedge item is amended to replace the reference rate, clarifies the uncertainty related to the continued availability of IBORS, removes LIBOR as an appropriate benchmark interest rate for qualitative evaluation, identifies a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap, and clarifies the definition of reference rate, as it is used in Statement 53, as amended.

Pleasant Valley Community School District

Notes to Basic Financial Statements

Note 14. Governmental Accounting Standards Board (GASB) (Continued)

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, issued March 2020, will be effective for the District beginning with its fiscal year ending June 30, 2023. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, issued May 2020, will be effective for the District beginning with its fiscal year ending June 30, 2023. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement 1) defines a SBITA; 2) establishes that a SBITA results in a right-to-use subscription assets- an intangible asset- and a corresponding subscription liability; 3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and 4) requires note disclosures regarding a SBITA.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans- an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, issued June 2020, will be effective for the District beginning with its fiscal year ending June 30, 2022. The primary objective of this Statement are to 1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; 2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and 3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Note 15. Subsequent Event

The COVID-19 outbreak is disrupting business across a range of industries in the United States and financial markets have experienced a significant decline. As a result, local, regional and national economies, including that of the District, may be adversely impacted. The extent of the financial impact of COVID-19 will depend on future developments, including the duration and spread, which are uncertain and cannot be predicted. Due to the uncertainties surrounding the outbreak, management cannot presently estimate the potential impact on the District's operations and finances.

Benefit payments	(99,536)	(77,578)	(48,099)
Net changes in total OPEB liability	2,173,818	297,755	170,345
Total OPEB liability - beginning	2,483,702	2,185,947	2,015,602
Total OPEB liability - ending	\$ 4,657,520	\$ 2,483,702	\$ 2,185,947
Covered payroll	\$ 25,448,998	\$ 25,413,000	\$ 24,435,885
Total OPEB liability as a percentage of covered payroll	18.3%	10.0%	9.0%

Notes to Schedule:

Changes of benefit terms:

There were no changes as a result of changes in benefit terms or differences between expected and actual experience.

Changes of assumption:

Changes of assumptions or other inputs reflect a change in the discount rate. The following are the discount rates used in each period:

2.66% 3.50% 3.87%

Rates of retirement, withdrawal, and disability were changed to those in the most recent Iowa Public Employees' Retirement System Pension Fund valuation report. The election at retirement assumption was changed from 55% used in the last valuation to 50%. The last report implies that an Implicit Rate Subsidy of 32.6% was used, in this valuation, the value is 79.5%.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75

Note: The schedule is intended to present information for ten years. Information prior to 2018 is not available.

Notes to Required Supplementary Information

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$30,219,045.

During the year ended June 30, 2020, expenditures did not exceed the amounts budgeted.

Note 2. Iowa Public Employees' Retirement System Pension Liability

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

Pleasant Valley Community School District

Notes to Required Supplementary Information

Note 2. Iowa Public Employees' Retirement System Pension Liability (Continued)

The 2014 valuation implemented the following refinements as a result of quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent.
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30-year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

District direct debt			49,794,191
Total direct and overlapping debt			\$ 140,800,521

Source: Scott County Auditor.

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This statistical page estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

* The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value. (Calculated by dividing the amount of the value applicable to the District by the total value for that taxing authority; 2019 assessed values are used.)

Pleasant Valley Community School District

Notes to the Schedule of Expenditures of Federal Awards Year Ended June 30, 2020

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "schedule") includes the federal grant activity of Pleasant Valley Community School District under programs of the federal government for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Pleasant Valley Community School District, it is not intended to and does not present the financial position, changes in net position or cash flows of Pleasant Valley Community School District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the modified accrual or accrual basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal awards is recognized when it is both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Indirect Cost Rate

The District has elected not to use the 10-percent de minimus indirect cost rate allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With Government Auditing Standards**

To the Board of Education
Pleasant Valley Community School District
Bettendorf, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Pleasant Valley Community School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 4, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of Pleasant Valley Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2020 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance For Each
Major Federal Program and Report on Internal Control
Over Compliance Required by the Uniform Guidance**

To the Board of Education
Pleasant Valley Community School District
Bettendorf, Iowa

Report on Compliance for Each Major Federal Program

We have audited Pleasant Valley Community School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2020**

Part II: Findings Related to the Basic Financial Statements

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

No matters were reported.

Part III: Findings and Questioned Costs for Federal Awards

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

No matters were reported.

Part IV: Other Findings Related to Statutory Reporting

IV-A-20

Certified Budget – Expenditures for the year ended June 30, 2020 did not exceed the amounts budgeted at year-end.

IV-B-20

Questionable Expenditures – No expenditures were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-20

Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-20

Business Transactions – No business transactions between the District and District officials or employees were noted.

IV-E-20

Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-20

Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2020**

IV-G-20

Certified Enrollment – No variances regarding the basic enrollment data certified to the Iowa Department of Education were noted except for:

Finding: The District identified variances in certified enrollment submitted to the state in October 2019.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Corrective Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

IV-H-20

Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

IV-I-20

Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

IV-J-20

Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely and we noted no significant deficiencies in the amounts reported.

IV-K-20

Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2020**

IV-L-20

Statewide Sales and Services Tax – No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2020, the District reported the following information regarding the statewide sales and services tax revenue in the District's CAR:

Beginning balance	\$ 28,523,478
Revenue / transfers in:	
Statewide sales and services tax revenue	5,215,928
Interest and other	433,486
Transfers in	100,000
Expenditures/transfers out:	
Transfers out	4,888,616
School infrastructure:	
Buildings	9,140,644
Ending balance	<u><u>\$ 20,243,632</u></u>

For the year ended June 30, 2020, the District reduced the debt service tax levy by \$2.81 per \$1,000 of taxable valuation as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

	Per \$1,000 of Taxable Valuation	Property Tax Dollars
Debt service levy	\$ 2.81000	\$ 5,215,928
