ASBO Certificate of excellence in financial reporting	xv

FINANCIAL SECTION

Independent auditor's report	1-3
Management's discussion and analysis	4-13
Basic financial statements:	
Government-wide financial statements:	
Statement of net position	14-15
Statement of activities	16-17
Governmental fund financial statements:	
Balance sheet- governmental funds	18
Reconciliation of total governmental fund balances to net position of governmental activities	19
Statement of revenues, expenditures and changes in fund balances- governmental funds	20-21
Reconciliation of the statement of revenues, expenditures and changes in fund balances of governmental funds to the statement of activities	22
Proprietary fund financial statements:	
Statement of net position	23
Reconciliation of enterprise funds net position to the net position of business-type activities	24
Statement of revenues, expenses and changes in net position	25
Reconciliation of the change in net position of enterprise funds to the statement of activities	26
Statement of cash flows	27-28
Fiduciary fund financial statements:	
Statement of fiduciary net position	29
Statement of changes in fiduciary net position	30
Notes to financial statements	31-60
Required supplementary information:	
Budgetary comparison schedule of revenues, expenditures/expenses and changes in balances budget and actual- all governmental and enterprise funds	61-62
Schedule of changes in the district's total OPEB and related ratios	63-64
Schedule of the district's proportionate share of the net pension liability	65-66
Schedule of the district's contributions	67-68
Notes to required supplementary information	69-70
Other supplementary information:	
Nonmajor governmental funds:	
Combining balance sheet	71
Combining statement of revenues, expenditures and changes in fund balances	72
Schedule of combining balance sheet- capital projects fund- by account	73
Combining schedule of revenues, expenditures and changes in fund balances- capital projects fund- by account	74
Nonmajor enterprise funds:	
Combining statement of net position	75
Combining statement of revenues, expenses and changes in net position	76
Combining statement of cash flows	77-78

STATISTICAL SECTION (Unaudited)

Statistical section contents	79
Financial trends:	
Net position by component	80-81
Expenses, program revenues and net (expense)/revenue	82-83
General revenues and total change in net position	84-85
Fund balances, governmental funds	86-87
Governmental funds revenues	88-89
Governmental funds expenditures and debt service ratio	90-91
Other financing sources and uses and net change in fund balances, governmental funds	92-93
Revenue capacity:	
Assessed value and actual value of taxable property	94
Direct and overlapping property tax rates	95-96
Principal property taxpayers	97
Property tax levies and collections	98
Actual historic sales, services and use tax collections	99
Debt capacity:	
Outstanding debt by type	100
Legal debt margin	101-102
Direct and overlapping governmental activities debt	103
Pledged revenue coverage	104
Current statewide receipts of the SAVE tax- average per pupil receipts	105
Estimated receipts of the tax available for distribution	106
Estimated future tax revenues	107
Projected debt service coverage	108
Debt ratios and valuation per capita	109
Demographic and economic information:	
Demographic and economic statistics	110
Retail sales within district	111
Principal employers	112
Operating information:	
Population of cities and counties within district	113
Full-time equivalent district employees by type	114-115
Operating statistics	116
School building information	117-120
Open enrollment	121

COMPLIANCE SECTION

Schedule of expenditures of federal awards	122-123
Notes to the schedule of expenditures of federal awards	124
Summary schedule of prior audit findings	125
Independent auditor's report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with government auditing standards	126-127
Independent auditor's report on compliance for each major federal program and on internal control over compliance as required by the Uniform Guidance	128-130
Schedule of findings and questioned costs	131-134
Corrective action plan	135

The Board of Education and Residents
West Des Moines Community School District

Ladies and Gentlemen:

The following report is a comprehensive financial record of the District for the fiscal year ended June 30, 2024. The report reflects the conditions which have enabled the West Des Moines Community School District to maintain a favorable financial position despite state and federal budget constraints and the related impact on local school districts across our state.

The shared vision of the District states, "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

This shared vision provides the foundation of our District's financial planning. Meeting the educational needs of our students despite state and federal budget constraints is no simple task. The educational success of the West Des Moines Community School District is due to many factors including:

- An outstanding and effective Board of Education.
- A very supportive community with high expectations for outstanding schools.
- Supportive parents who have high expectations for their children.
- A team of outstanding and dedicated teachers, staff and administrators.
- Students who possess the essential skills and integrity to communicate, collaborate, and solve problems.

As you review the information included in this report, please be sure to contact us if you have any questions or suggestions. Our focus is upon the learning needs of all of our students. With your help and support, we will continue to be an excellent system of schools. We can all take pride in the outstanding success of our students as they graduate as confident citizens, embracing our diverse and changing world.

Sincerely,

Dr. Matt Adams
Superintendent

November 25, 2024

The Board of Education and Residents
West Des Moines Community School District

The Annual Comprehensive Financial Report of the West Des Moines Community School District (the District) for the fiscal year ended June 30, 2024 is submitted herewith. The District is an independent entity governed by a seven-member board. Responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Administrative Services Division. We believe that the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

The District was required to undergo a single audit in conformity with the provisions of the Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), Audits of States and Local Governments and Nonprofit Organizations. Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance, and a schedule of findings are included in the single audit compliance section of this report.

This report includes all funds of the West Des Moines Community School District. The District provides a full range of programs and services including instructional; administrative; transportation; food service; maintenance of sites and facilities; custodial; clerical; extra, co-curricular and athletic activities; and community education.

Management is responsible for preparing a Management's discussion and Analysis. This discussion follows the independent auditor's report and provides an assessment of the District's finances for 2024.

Profile of the Government

In Iowa, school districts operate with local control and have fiscal independence from other government entities. The District operates in compliance with the accounting principles generally accepted in the United States of America (GAAP) and currently prepares its financial statements per the Governmental Accounting Standards Board (GASB) Statement No. 34. The District is a political subdivision of the State of Iowa, and, as such, operates public schools and supporting programs for children in preschool through grade twelve and an extensive Community Education program.

The West Des Moines Community School District serves more than 70,000 people who live in the western portion of Polk County-West Des Moines, Clive, parts of Urbandale and Windsor Heights and nearby rural areas. Covering 36.6 square miles, the District has grown up around a former railroad center, Valley Junction, and the farmland north and south of the Raccoon River. The District experienced rapid growth up until the fall of 1975 when enrollment reached 6,726 students. Enrollment gradually declined to 5,825 students in the fall of 1982, but increased annually (except for September 1999) through September 2002, to 8,776 students. Enrollment declined more than 200 students during fiscal years 2004 and 2005. The District's enrollment projections estimate slightly declining enrollments averaging approximately 43 students for each of the next three years. The official enrollment as October 2022 official enrollment reflects decrease of 96 students but student served only slightly decreasing by 10 students largely due open enrollment. The October 2023 official enrollment continues to decrease with 64 resident student decline and students served decreasing by 43 students. The District operates thirteen schools, a home school program, a maintenance/transportation/warehouse facility, a stadium and the Learning Resource Center (administrative offices). All current real property is used for instructional or support services.

OFFICIAL & SERVED ENROLLMENTS

Economic Condition and Outlook

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's taxable valuation increased at an average annual rate of approximately 2.68% over the past 10 years. The tax base is expected to grow more slowly in the next five years.

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

The State of Iowa funding that the District receives is largely made up of State Aid and Property Taxes. The two factors that impact the amount of State Aid the District receives are: the rate of growth for Supplemental State Aid and student enrollment. The rate of growth for Supplemental State Aid for fiscal year 2024 was 3.0, compared to 2.5 percent for fiscal year 2023. Supplemental State Aid for fiscal year 2025 will be 2.5 percent.

On March 2021, the Board made budget costs totaling \$3.03 million effective July 1, 2021, in response to student enrollment and low state supplement amount. In February 2024, the Board approved \$3 million in budget realignment & staffing cuts for 2024-2025.

The 2023-24 school year included many stories of success. The shared vision and five guiding principles continue to be the foundation for curriculum development, integration of technology, community involvement and the learning process. In November 2024, the Board approved a revised shared vision: "The West Des Moines Community School District cultivates belonging, engagement, and mutual respect for our diverse cultures, lived experiences, and values. We strive to ensure:

- Inclusive and safe learning and work environments.
- Academic excellence.
- Robust growth opportunities and pathways for students and staff.
- Fiscal responsibility and sustainability."

The Stretching Minds program continued serving many elementary and junior high students during the summer. The program targets students most likely to benefit from additional opportunities in reading, mathematics and community learning.

The District has spent a significant amount of 2018-19 evaluating districtwide building structures for the purpose of creating effective learning spaces, also known as the Framework. Subsequent to June 30, 2019, the Board approved Framework Option D (Option D) which architects estimate will cost approximately \$167,000,000. In addition, the District is in the process of reviewing each school buildings envelope along with its mechanical, electrical and plumbing needs. However, when the estimated cost of the building envelop projects were added to Option D, it was determined too costly and the Board rescinded Option D and settled on a new scope known as Phase 2.1 with an estimated cost of \$105,300,000. On September 28, 2020, the Board approved the Comprehensive Master Facility Plan (Plan) with an estimated ten-year cost of \$234,300,000 which includes an annual estimated inflation factor of 4.00%.

On September 12, 2017, the taxpayers, with an 82% approval, voted to extend the Voted Physical Plant and Equipment Levy (VPPEL) for another ten-year period starting with fiscal year ending June 30, 2022. In 2023, the VPPEL generated \$7.6 million. The VPPEL and Statewide Sale Tax mentioned above will be the two sources of revenue to finance the Plan. Given inflationary trends realized on recent bids along with supply chain concerns, the Board has placed a pause on the last two elementary school projects, Crossroads Park and Hillside Elementary schools with a combined estimated project cost of \$17,567,000. The District during 2023-2024 completed work on Board approved 2.1 projects except for Crossroads Park and Hillside. For 2024-2025, the District is reviewing the project scope and budgets for Crossroads Park and Hillside Elementary schools along with updating the Plan.

On November 5, 2019, with 86% approval, the community approved the District's Revenue Purpose Statement which will allow the District to use anticipated sales tax revenues to finance the Plan. In September 2020, the District sold \$50,225,000 of General Obligation School Capital Loan Notes, Series 2020A (Notes), which mature serially over ten years at a net interest rate of .8266% to begin financing the Plan. Future bond issues are anticipated over the next ten years to finish financing the Plan. Repayment of the Notes will come from the Voted Physical Plant and Equipment Fund. The District on September 28, 2023, issued \$45,500,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds Series 2023 and \$10,060,000 General Obligation School Capital Loan Notes Series 2023. Proceeds from the issuances will be used to finance the Plan previously approved by the Board.

The following table shows the projected served enrollment (not certified) and age of school buildings.

School	Grade Levels	Dates of Construction / Remodeling	Enrollment for 2023-24	Enrollment for 2024-25
Valley High	10-12	1964, 1967, 1969, 1970, 1989, 1992, 2005, 2012, 2015	2,109	2,173
Walnut Creek Campus	9-12	1957, 1970, 1989, 1991, 2012	165	153
Valley Southwoods	9	1999, 2023	742	681
Indian Hills Junior High	7-8	1977, 1992, 2010	659	663
Stilwell Junior High	7-8	1960, 1962, 1968, 1984, 1988, 1992, 2002, 2010, 2012, 2023	645	647
Clive Learning Academy	PK-6	1952, 1955, 1957, 1959, 1965, 1989, 1991, 2005, 2023	516	554
Crestview School of Inquiry	PK-6	1961, 1966, 1969, 1976, 1991, 2009, 2018, 2023	564	560

Westridge Elementary	PK-6	1990, 2013, 2023	784	749

Athletic Report for 2023-24 School Year

The Valley Tiger Athletics teams had another outstanding year in the 2023-2024. Three teams won state championships and four others finished 2nd. Boys' Golf, Boys' Basketball, and Boys Swimming all won titles with Girls' Soccer, Girls' Cross Country, Girls' Tennis, and Softball all finishing runner-up. Seven other teams placed in the top 8.

The Tigers won The All-Sports Award this past year which is given to the school accumulating the most teams' top 8 finishes at state events. This award shows the depth and balance of the overall athletic programs offered at Valley.

The following is a breakdown of all teams' finishes at the State level categorized by Sport, State Finish, and All-Sports Award points.

SPORT	STATE FINISH	VALLEY	SPORT	STATE FINISH	VALLEY
Boys Cross Country	14th	0	Boys Bowling	N/A	0
Girls Cross Country	2th	8	Girls Bowling	N/A	0
Boys Golf	1st	10	Boys Track & Field	15th	0
Girls Golf	N/A	0	Girls Track & Field	6th	3
Football	Semis	5.5	Boys Tennis	Quarters	2.5
Volleyball	Quarters	2.5	Girls Tennis	2nd	8
Boys Wrestling	15th	0	Boys Soccer	Quarters	2.5
Girls Wrestling	N/A	0	Girls Soccer	2nd	8
Boys Swimming	1st	10	Baseball	Substate Final	0
Girls Swimming	4th	5	Softball	2nd	8
Boys Basketball	1st	10	TOTAL		69
Girls Basketball	Quarters	2.5	PLACE		2

The CIML League was well represented in the top 10: 1st – Valley, 3rd - Dowling, 4th - Waukee NW, 5th - Johnston, 6th - Ankeny, and 7th - Waukee.

Other Financial Information

Internal Controls. Management of the District is responsible for establishing and maintaining internal controls designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). The internal controls are designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived. The valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal control procedures are subject to periodic evaluation by management and external auditors.

As a part of the District's audit, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal award programs. The results of the District's audit for the fiscal year ended June 30, 2024 provided no instances of material weaknesses in the District's internal controls or violations of applicable laws and regulations.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General fund, Special Revenue funds, Capital Projects funds, Debt Service fund, and Enterprise funds are included in the annual appropriated budget by program. Project length financial plans are adopted for the Capital Projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by the functional level for all funds combined rather than at the individual fund level. The District also maintains an encumbrance accounting system as one

technique of accomplishing budgetary control. Encumbered amounts lapse at the fiscal year's end. However, encumbrances generally are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The District's General Fund's categorical program's carryover balances decreased by \$947,721 to a total carryover amount of \$2,225,539 at June 30, 2024. This carryover amount is reflected in both the General Fund's Fund Balance and Unspent Balances as of June 30, 2024.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with GAAP as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records conform with the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is materially in compliance with these requirements.

Relevant Financial Policies. Since the funding formula is pupil driven, an increase in total spending authority occurs by increasing the number of pupils or by increasing the cost per pupil. The cost per pupil is determined by the legislature in setting the amount of Supplemental State Aid, formerly known as allowable growth, each year. The Supplemental State Aid becomes increasingly important because as a District, if we are faced with declining enrollment in a given year, the amount of Supplemental State Aid often will dictate budget reductions that will take place.

Independent Audit. The accounting firm of Bohnsack & Frommelt, LLP performed the annual audit. In addition to meeting requirements set forth in state statutes, the audit was designed to meet the requirements of Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The auditor's report on the basic financial statements, required supplementary information, combining and individual fund statements and other schedules are included in the financial section of this report. The Annual Comprehensive Financial Report also includes a statistical section which is unaudited.

Awards and Acknowledgements

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Des Moines Community School District for its annual comprehensive financial report for the fiscal year ended June 30, 2023. The Certificate of Achievement is the highest form of recognition for excellence in state and local financial reporting.

In order to be presented this award, the District must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The West Des Moines Community School District has received a Certificate of Achievement for thirty-one consecutive years.

The School District has also received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO) for thirty-four consecutive years. Upon recommendation of the Association's Panel and Review, which has judged that the report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program, we are submitting this report to ASBO to determine its eligibility for another certificate.

A certificate from both associations is valid for a period of one year. We believe that our current annual comprehensive financial report continues to meet the program requirements of GFOA and ASBO and we are submitting it to both associations to determine its eligibility for another certificate.

Acknowledgement.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the accounting staff and our auditors, Bohnsack & Frommelt, LLP. We would like to express our appreciation to all staff members who assisted and contributed to this report. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectively submitted,

Independent Auditor's Report

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the West Des Moines Community School District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the West Des Moines Community School District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of West Des Moines Community School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the West Des Moines Community School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of West Des Moines Community School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about West Des Moines Community School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, and schedule of the District's proportionate share of the net pension liability and schedule of District contributions on pages 4-13 and 61-70 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Des Moines Community School District's basic financial statements. The supplementary information, as listed in the table of contents and the Schedule of Expenditures of Federal Awards as required by Title 2, *U.S Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2024, on our consideration of the West Des Moines Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the West Des Moines Community School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering West Des Moines Community School District's internal control over financial reporting and compliance.

WEST DES MOINES
COMMUNITY SCHOOLS

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

It is an honor to present to you the financial picture of West Des Moines Community School District. We offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the West Des Moines Community School District for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The District showed an increase in net position of \$6,991,181 during the year ended June 30, 2024, compared to an increase in net position of \$32,382,024 during the year ended 2023.

Total governmental activities revenues for the fiscal year ended June 30, 2024 and 2023 of \$164,280,017 and \$158,710,840 were comprised of general revenues in the amount of \$127,597,958 and \$122,693,730 and program revenues totaling \$36,682,059 and \$36,017,110, respectively.

As of June 30, 2024, the District's governmental funds reported combined ending fund balances of \$80,958,356 an increase of \$44,181,132 in comparison to 2023. As of June 30, 2023, the District's governmental funds reported combined ending fund balances of \$36,777,224 a decrease of \$40,822,994 in comparison to 2022.

As of June 30, 2024, unassigned fund balance of the General Fund was \$19,754,866 or 14.8 percent of total General Fund expenditures. As of June 30, 2023, unassigned fund balance of the General Fund was \$24,913,216 or 19.4 percent of total General Fund expenditures.

The West Des Moines Community School District's total bonded long-term debt increased by \$47,855,864 due to the issuance of \$55,560,000 in revenue bonds and capital loan notes during the fiscal year 2024, and principal payments of \$8,745,000 and change in premium/discounts of \$1,040,894.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the West Des Moines Community School District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of West Des Moines Community School District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of West Des Moines Community School District's assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements reflect functions of West Des Moines Community School District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, noninstructional programs, other and interest on long-term debt. Business-type activities are those that the District charges a fee to help cover the costs, such as School Nutrition and Community Education.

The government-wide financial statements include only West Des Moines Community School District. There are no other organizations or agencies whose financial statements should be combined and presented with the financial statements of the District.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Des Moines Community School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The West Des Moines Community School District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Management Fund, and Capital Projects Fund which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds. The District maintains two types of proprietary funds: enterprise and internal service. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District maintains two enterprise funds. Internal service funds are used to report the same functions presented as governmental activities in the government-wide financial statements. The District maintains one internal service fund to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District's employees. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

Because the service provided by the District predominately benefits governmental, rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the West Des Moines Community School District's own programs. The fiduciary fund of the District is a custodial fund. Custodial funds are custodial in nature and provide the net position and changes in net position of the District's Custodial Fund.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the West Des Moines Community School District's budgetary comparison, schedule of changes in the District's total OPEB liability and related ratios and schedule of proportionate share of the net pension liability and schedule of contributions.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The District's total net position has increased from a year ago from \$220,936,242 to \$227,927,423.

Table 1 - Net Position

	Governmental Activities		Business-Type Activities		Total District	
	2024	2023	2024	2023	2024	2023
Current and other assets	\$ 190,723,763	\$ 156,933,648	\$ 10,568,882	\$ 10,570,478	\$ 201,292,645	\$ 167,504,126

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

A significant portion of the District's total assets reflects its investment in capital assets. The District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. The District's net investment in capital assets-net position was \$200,585,163 for 2024 and \$224,096,129 for 2023. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position (15.0 percent for 2024 and 11.4 percent for 2023) represents resources that are subject to external restrictions on how they may be used. These restrictions for 2024 include \$2,225,539 for categorical funding, \$8,770,782 for physical plant and equipment levy, \$1,096,477 for school infrastructure, \$4,385,017 for debt service, \$15,801,510 for management levy, \$959,983 for student activities and \$901,345 for public education and recreation levy. The remaining balance of unrestricted net position, (\$6,798,393) for 2024 and (\$28,273,939) for 2023, is in a deficit position, due to the unfunded net pension liability and total other postemployment benefit (OPEB) liability. The governmental activities unrestricted net position is a deficit (\$14,377,871) for 2024 and (\$35,645,762) for 2023. The business-type activities unrestricted net position is \$7,579,478 for 2024 and \$7,371,823 for 2023.

At the end of the current and prior fiscal years, the West Des Moines Community School District is able to report positive balances in two categories of net position. Unrestricted net position is deficit in the current and prior fiscal year due to the net pension liability and total OPEB liability.

Table 2 highlights the District's revenues and expenses for the fiscal year ended June 30, 2024 and 2023. This table utilizes the full accrual method of accounting. Revenues less expenses yielded the change in net position. This change was anticipated and it enabled the District to acquire capital assets and to service its long-term debt.

West Des Moines Community School District

Community education	-	-	3,038,457	2,561,106	3,038,457	2,561,106
Total expenses	158,570,959	128,366,180	8,462,342	7,558,774	167,033,301	135,924,954
Excess (deficiency) of revenues over (under) expenses before transfers	5,709,058	30,344,660	1,282,123	2,037,364	6,991,181	32,382,024
Transfers	267,419	212,206	(267,419)	(212,206)	-	-
Change in net position	5,976,477	30,556,866	1,014,704	1,825,158	6,991,181	32,382,024
Net position, beginning	212,680,225	182,123,359	8,256,017	6,430,859	220,936,242	188,554,218
Net position, ending	\$ 218,656,702	\$ 212,680,225	\$ 9,270,721	\$ 8,256,017	\$ 227,927,423	\$ 220,936,242

The District's total net position increased by \$6,991,181 during the current fiscal year as compared to an increase of \$32,382,024 in 2023. The governmental activities net position increased by \$5,976,477 in 2024 and increased by \$30,556,866 in 2023. The business-type activities, which include nutrition and community education, increased by \$1,014,704 in 2024 and \$1,825,158 in 2023.

Governmental activities net position increased primarily due to a decrease in expenses of approximately \$5.4 million from the net pension liability and total OPEB liability and related deferrals of inflows and deferral of outflows of resources. The decrease in expenses is the result of the net pension liability experiencing a net rate of return on an actuarial basis exceeding the investment return assumption. The total OPEB liability experienced less claims and less retirement participation than expected. Support services expenses increased due to repairs and maintenance on several building locations and approximately \$18 million in insurance recoveries. Governmental activities net position also increased due to investment earnings increasing approximately \$2 million for higher interest rates during the year and more cash on hand from bond issuances.

Business-type activities net position increased primarily due to a \$1,077,085 contribution of capital equipment to the nutrition program from the District.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

Revenue is further divided into two major components: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes and unrestricted grants such as state foundation support. Expenses are shown in programs including instruction, support services, noninstructional programs, other, interest on long-term debt, school nutrition and community education.

GOVERNMENTAL ACTIVITIES

Revenues for governmental activities were \$164,280,017 and expenses were \$158,570,959. Property taxes and other taxes such as sales tax and utility replacement tax and state sources including state foundation aid are the primary sources of revenue for the District. These sources represent 74.5 percent of total revenues. Instruction constitutes the largest portion of governmental activities expenses at \$96,019,658 or 60.6 percent of total expenses.

Table 3 discloses cost of services for governmental and business-type activities. The total cost of services column contains all costs related to the programs and the net cost column shows how much of the total amount is not covered by program revenues. Succinctly put, net costs are costs that must be covered by state aid or local taxes. The difference in these two columns would represent restricted grants and charges for services.

Table 3 - Governmental and Business-Type Activities

	Total Cost of Services		Net Cost of Services	
	2024	2023	2024	2023
Instruction	\$ 96,019,658	\$ 94,338,864	\$ 64,505,348	\$ 66,661,198
Support services	53,575,381	27,267,652	52,668,485	23,178,687
Noninstructional programs	460,853	821,645	460,853	821,645
Other	4,260,853	4,250,479	-	-
Interest on long-term debt	4,254,214	1,687,540	4,254,214	1,687,540
Total expenses	\$ 158,570,959	\$ 135,924,954	\$ 121,888,900	\$ 90,607,357

Net cost of services is 72.5 percent of total cost of services in 2024 and 66.7 percent of total cost of services in 2023. The cost of governmental activities financed by users of the District's programs was \$13,284,730 in 2024 and \$12,814,071 in 2023. Federal and state governments subsidized certain programs with grants and contributions totaling \$23,397,329 in 2024 and \$23,203,039 for 2023. The remaining net cost of the governmental activities was financed with property tax, state foundation aid and investment earnings.

Approximately 62.7 percent of the District's budget is comprised of salary and benefit costs. Historically speaking, collective bargaining contracts have increased approximately four percent or more each year. Until 2010, District staffing had increased for several consecutive years due to gradual enrollment growth, changing student needs and demographics. More recently, the Board of Education has approved the administration's recommendation to reduce some teaching and staff positions in various education programs and support areas. These reductions were made in response to state funding.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

BUSINESS-TYPE ACTIVITIES

- The School Nutrition and Community Education programs constitute the business-type activities.
- The primary sources of income are charges for services and federal revenues.
- The School Nutrition Fund's primary expenses are staff and food. The School Nutrition Fund had an increase in net position of \$1,143,092 primarily due to capital contributions of \$1,077,085. For fiscal year 2023 net position increased \$888,179.
- The primary source of revenue for the Community Education Fund is sales of services for educational programs. The Community Education Fund had a decrease in net position of (\$145,406) during the fiscal year. Salaries and benefits increased \$399,638 or 19 percent and charges for services increased \$85,346 or 0.3 percent.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the West Des Moines Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The following explanations for the West Des Moines Community School District's governmental funds provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the West Des Moines Community School District's governmental funds reported combined ending fund balances of \$80,958,356, an increase of \$44,181,132 in comparison with the prior year fund balance of \$36,777,224. Approximately 14.4 percent or \$19,754,866 for 2024 and 9.4 percent or \$3,459,590 for 2023, constitutes unassigned fund balance, which is available for spending at the government's discretion. The majority of the remaining fund balance for 2024 and 2023 is restricted to indicate that it is not available for new spending because it has already been restricted for other purposes. The District committed \$5,065,213 and \$4,269,646 of fund balance for curriculum as of June 30, 2024 and 2023, respectively.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$19,754,866 and \$24,913,216 for 2024 and 2023, respectively while total fund balance reached \$27,185,382 in 2024 and \$32,457,077 for 2023. The General Fund fund balance decreased \$5,271,695 from the prior year primarily due to a decrease in property tax revenues of \$7,298,479 due to a decrease in tax rate of \$1.405. The decrease in property taxes in the fund was partially offset by an increase in state aid of approximately \$1.3 million from the 3.0 percent supplemental state aid. Expenditures increased approximately \$5.3 million or 4 percent due to salary and benefit increases.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 14.8 percent of total General Fund expenditures, and total fund balance represents approximately 20.4 percent of that same amount for 2024. For 2023, unassigned fund balance represents 19.4 percent of total General Fund expenditures, while total fund balance represents approximately 25.3 percent of that same amount.

The Management Fund fund balance increased \$5,293,767 from \$10,507,743 in 2023 to \$15,801,510 in 2024. The increase is primarily due to an increase in property taxes due to an increase in tax rate of \$1.39038. Expenditures increased approximately \$6.9 million due to storm damage repairs and replacements.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

The Capital Projects Fund fund balance increased to \$36,110,136 from (\$7,768,600) in 2023. This increase is due issuing \$55,560,000 in revenue bonds for future capital projects.

BUDGETARY HIGHLIGHTS

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. In accordance with the Code of Iowa, the Board of Education annually adopts a program budget which includes all funds except internal service and custodial funds as described in the note to required supplementary information.

A comparison of the actual expenditures/expenses of the District's budgeted funds with the final amended program budget amounts is as follows:

	Budget		Actual Expenditures/ Expenses	Variance
	Original	Final		
Instruction	\$ 93,451,755	\$ 93,451,755	\$ 93,583,773	\$ (132,018)
Support services	45,719,974	45,719,974	50,262,291	(4,542,317)
Noninstructional programs	8,775,702	8,775,702	8,783,235	(7,533)
Other	46,254,940	46,254,940	38,004,422	8,250,518
Total	\$ 194,202,371	\$ 194,202,371	\$ 190,633,721	\$ 3,568,650

The original budget is published at least three months prior to the start of the fiscal year-often prior to settlement of collective bargaining agreements and before final legislative action on the state budget. In the latter portion of the fiscal year the amended budget is published with "not to exceed" amounts to satisfy Iowa's statutory reporting requirements. The District did not amend the budget in fiscal year 2024.

The actual expenditures were less than the final budget by \$3,568,650 due to the timing of incurring the additional expenditures. The District exceeded the budget in the instruction, support services, and noninstructional programs functions.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The following table shows ending balances of capital assets invested in various categories. The District recognized a total net increase of \$6,291,414 for 2024.

Table 4 - Capital Assets as of June 30 (Net of Depreciation)

	2024	2023
Governmental activities:		
Land	\$ 4,095,848	\$ 4,095,848
Construction-in-progress	51,676	88,712,611
Buildings and improvements	287,335,793	194,092,757
Machinery and equipment	4,063,728	2,757,578
Right to use lease equipment	172,198	344,398
Right to use subscription asset	2,152,127	2,383,813
Business-type activities:		
Machinery and equipment	1,691,243	884,194
Total	\$ 299,562,613	\$ 293,271,199

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

Additional information about the District's capital assets can be found in Note 5 to the financial statements.

Debt

As of June 30, 2024, the West Des Moines Community School District had bonds and capital loan notes outstanding totaling \$120,431,456 compared to \$72,575,562 as of June 30, 2023. In the current year, the District paid \$8,745,000 in principal and \$2,703,617 in interest on outstanding bonded debt and issued \$45,500,000 in revenue bonds and \$10,060,000 in capital loan notes.

	2024	2023
Capital loan notes	\$ 52,148,045	\$ 47,533,567
Revenue bonds	68,283,411	25,041,995
	<u>\$ 120,431,456</u>	<u>\$ 72,575,562</u>

As of June 30, 2024, the District's available legal debt margin was \$399,344,460 compared to \$395,833,296 as of June 30, 2023. Additional information about the District's long-term debt can be found in Note 6 to the financial statements.

Other long-term debt consists of:

Additional information about the District's other long-term obligations can be found Note 7, Note 8, and Note 9 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's tax base increased at an average annual rate of approximately 2.68% over the past 10 years. In fiscal year 2024 and 2023, the District experienced an increase in valuation of 1.02% and 3.58% respectively.

The tax base is expected to grow more slowly in the next five years. Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2024

In October 2024, the official enrollment reflects a decrease of 88 resident students and students served decreased by 7 students. This is largely due to open enrollment changes and more chooses for families. The Board continues to monitor this trend as the Districts prepares for future budget impacts. The District's property tax rate of \$12.24 has remained unchanged or decreased over the past 14 years. In February 2024, the Board approved \$3 million in budget realignment & staffing cuts for 2024-2025. The District during 2023-2024 completed work on Board approved Comprehensive Master Facility Plan 2.1 phase projects except for Crossroads Park and Hillside Elementary schools which were delayed so project scope and budgets could be reviewed along with an updated comprehensive master facility plan.

Request for Information

These financial statements and discussions are designed to provide our students, citizens, taxpayers, investors and creditors with a complete disclosure of the District's finances and to demonstrate a high degree of accountability for the public dollars entrusted to us. If you have questions about this report or need additional information, please contact Mr. Kurt Subra, Chief Financial officer, West Des Moines Community School District, 3550 Mills Civic Parkway, West Des Moines, Iowa 50265-5556.

West Des Moines Community School District

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities June 30, 2024

Total fund balances		\$ 80,958,356
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets net of accumulated depreciation used in governmental activities are not financial resources and, therefore, are not reported in the funds		297,871,370
Receivables not collected within 60 days of year-end are not available soon enough to pay for the current period's expenditures and, therefore, are unavailable in the funds		165,241
Internal service funds are used by management to charge the costs of certain services to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the statement of net position:		
Other current assets	18,311,148	
Other current liabilities	<u>(4,802,217)</u>	13,508,931
Internal Service Fund allocated to business-type activities		(1,316,756)
Pension and OPEB related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds as follows:		
Deferred outflows of resources related to pension	13,766,060	
Deferred inflows of resources related to pension	(2,247,399)	
Deferred outflows of resources related to OPEB	404,334	
Deferred inflows of resources related to OPEB	<u>(18,689,206)</u>	(6,766,211)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds:		
Net pension liability	(36,686,725)	
Accrued interest payable	(2,223,855)

WEST DES MOINES
COMMUNITY SCHOOLS

West Des Moines Community School District

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2024

Net change in fund balances - total governmental funds		\$ 44,181,132
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization in the current period:		
Capital outlay	21,489,848	
Depreciation/amortization expense by function:		
Instruction	(7,040,620)	
Support services	(5,649,754)	
Loss from disposal/sale of capital assets	(3,275,847)	
Proceeds on sale of capital assets	<u>(39,262)</u>	5,484,365
Revenue in the statement of activities that does not provide current financial resources are not reported as revenues in the funds,		
Grants	(110,743)	
Tuition	<u>15,270</u>	(95,473)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. The issuance of long-term debt increases liabilities in the statement of net position, while the repayment of long-term debt reduces long-term liabilities. In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds an interest expenditure is reported when due. The following is the detail of the net effect of these differences in the treatment of long-term debt and related items:		
Repayment of bond principal	8,745,000	
Issuance of long term debt	(55,560,000)	
Premium on issuance of long term debt	(2,076,278)	
Accretion of premium	1,041,548	
Amortization of discount	(6,164)	
Issuance of subscription liability	(260,898)	
Repayment of subscription liability	112,396	
Repayment of equipment lease	177,137	
Change in accrued interest payable	<u>(1,561,215)</u>	(49,388,474)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the Internal Service Fund is reported with governmental activities.		395,039
Change in Internal Service Fund allocation to business-type activities		(17,018)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in compensated absences	(25,198)	
Change in net pension liability	4,264,782	
Change in liability for other postemployment benefits	1,105,362	
Change in liability for early retirement	<u>71,960</u>	5,416,906
Change in net position of governmental activities		<u><u>\$ 5,976,477</u></u>

See Notes to Basic Financial Statements.

WEST DES MOINES
COMMUNITY SCHOOLS

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies

Nature of operations:

The West Des Moines Community School District (the District) was incorporated under Chapter 274 of the State Code of Iowa. The District has the power to make rules and regulations for its own government consistent with the laws of the state of Iowa and the regulations of the Iowa State Board of Education. The District is governed by the elected West Des Moines Community School Board of Education (the Board). The District is composed of one high school, one ninth grade school, two junior high schools, eight elementary schools, one alternative high school and a homeschool program. Student enrollment (kindergarten through high school) for the 2023-2024 school year was 8,614 regular and special education students. The District employs approximately 1,200 full-time equivalent personnel.

Reporting entity:

In accordance with Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, organizations, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB Statement No. 39, as amended by GASB Statement No. 61 sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, there are no other organizations which should be included in these basic financial statements.

Basis of presentation: The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide and fund financial statements: The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Interfund services provided and used are not eliminated in the process of consolidation for these statements.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The statement of net position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets: Consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position: Results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position: Consist of net position that does not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

General Fund: The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the fund consists primarily of local property taxes and state governmental aid.

Management Fund, a special revenue fund: Accounts for the resources from a specific tax levy for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments

Capital Projects Fund: Accounts for the resources used to pay for the purchase and improvement of sites, demolition work, special assessments and major building repairs, physical plant and equipment levy (PPEL) as well as the statewide sales and services tax for school infrastructure.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The other governmental funds of the District are considered nonmajor and are as follows:

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Special Revenue Funds: Are used to account for the revenue sources that are legally restricted to expenditures for specific purposes.

Public Education and Recreation Levy (PERL) Fund: Accounts for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

Student Activity Fund: Accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular to extracurricular activities of the District.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds: Are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The following enterprise funds of the District are considered nonmajor:

School Nutrition Fund: Accounts for the food service operations of the District.

Community Education Fund: Accounts for the educational programs available to the general public on a fee basis including before and after school child care and summer child care programs.

Internal Service Fund: The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District employees.

Fiduciary Fund Types: Fiduciary fund types are used to account for net position and changes in net position. The District has one fiduciary fund which is considered a Custodial Fund:

Flower Fund: To account for donations to be used for flower purchases for memorials or illnesses of District employees.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Measurement Focus and Basis of Accounting: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied. The District also reports fiduciary funds which focus on net position and changes in net position. The fiduciary fund reports on the accrual basis of accounting.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues – exchange and nonexchange transactions: Property taxes, other taxes, grants, entitlements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Property taxes are recognized as a receivable at the time they become an enforceable legal claim. This is determined to occur when the budget is certified and approved by the state of Iowa. The current tax levy recognized in revenue was certified in April 2023 based on 2022 assessed valuations. The current property tax receivable was certified in April 2024 based on 2023 assessed valuations. These taxes are due in two installments on September 30 and March 31, with a 1.5 percent per month penalty for delinquent payment.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's proprietary funds are charges for food sales or tuition and fees. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure restricted fund balance and then to less restrictive classifications – committed, assigned and then unassigned fund balances.

Significant Accounting Policies:

The significant accounting policies followed by the District include the following:

Cash, cash equivalents and investment accounts: Separate bank accounts and investments are not maintained for all District funds, as certain funds maintain their cash and investment balances in a pooled account. Accounting records are maintained to show the portion of the pooled account attributable to each participating fund.

Inventories: Inventories are valued at cost (first-in, first-out), which approximates market. The consumption method of accounting is applied to the governmental fund type inventories. Unused commodities at balance sheet date are reported as inventory in the statement of net position.

Capital assets: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirement during the year. Donated capital assets are recorded at the acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000 (\$500 for the School Nutrition Fund). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

All reported assets except land and construction-in-progress are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Useful Lives
Buildings and improvements	20 - 50 years
Machinery and equipment	5 - 15 years
Intangibles	15 years

The District's collection of library books and other similar assets are not capitalized due to the individual assets not meeting the District's capitalization threshold. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Leases: The District is a lessee for noncancellable leases of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset in the governmental activities of the government-wide financial statements.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs to place the asset in service. Subsequently, the lease asset is amortized on a straight-line basis over the life of the lease.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Subscription Based Information Technology Arrangements (SBITA): The District has entered into contracts that convey control of the right to use information technology software. The District has recognized an IT subscription liability and an intangible right-to-use IT subscription asset in the government-wide financial statements.

At the commencement of the IT subscription term, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the IT subscription liability is reduced by the principal portion of payments made. The right-to-use an IT subscription asset is initially measured as the sum of the initial IT subscription liability, adjusted for payments made at or before the commencement date, plus capitalization implementation costs less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Subsequently, the right-to-use IT subscription asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to IT subscription arrangements include how the District determines the discount rate it uses to discount the expected payments to present value, term and payments.

The District uses the interest rate charged by the IT subscription vendor as the discount rate. When the interest rate charged by the vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate.

The IT subscription term includes the noncancellable period of the subscription. Payments included in the measurement of the liability are composed of fixed payments.

The District monitors changes in circumstances that would require a remeasurement of its IT subscription and will remeasure the right-to-use IT subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Right-to-use IT subscription assets are reported with other capital assets and IT subscription liabilities are reported with long-term debt on the statement of net position.

Unearned revenue: Proprietary funds defer revenue recognition in connection with resources that have been received, but not earned. Unearned revenue in governmental funds arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. Unearned revenue consists primarily of tuition, unexpended grant receipts and meal revenues collected for the programs and services in the next school year.

Accrued payroll: Payroll and the related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but have balances payable in July and August, have been accrued as a liability as they are applicable to services provided during the respective fiscal years and will be paid with available resources.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Compensated absences: District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the District-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2024. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and by the Special Revenue Fund, Management Levy.

Self-insurance: The District is self-insured for health and dental benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon number of employees and selected coverage in each fund. There have been no significant reductions in insurance coverage for the District from the prior year.

Cash flows: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund balances: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned: Amounts the Board of Education intend to use for specific purposes. The authority to assign fund balances has been delegated to the Chief Financial Officer through the Board approved budget of the District.

Unassigned: All amounts not included in other spendable classifications as well as any deficit fund balance of any other governmental fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned funds and then unassigned.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Deferred outflows/inflows of resources: In addition to assets, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. Deferred outflows of resources in the proprietary funds and government-wide statement of net position consist of unrecognized items not yet charged to pension expense and other postemployment benefit expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

In addition to liabilities, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports unavailable revenue in the governmental funds balance sheet from grants, tuition and property tax.

This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. In the District's government-wide statements, only the succeeding year property tax revenues remain as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which levied. Deferred inflows of resources in the proprietary funds and government-wide statements also include the unrecognized items not yet charged to pension expense and other postemployment benefit expense.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported as fair value.

Total OPEB Liability: For purposes of measuring total OPEB liability, deferred outflows of resources related to OPEB and OPEB expense, information has been determined based on the District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund and the Enterprise, School Nutrition Fund and Community Education.

Net position: In proprietary funds, fiduciary funds, and government-wide financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent bond proceeds of \$23,093,016.

Net position is reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted through enabling legislation consists of \$8,770,782 for physical plant and equipment levy, \$1,096,477 for school infrastructure, \$4,385,017 for debt service, \$15,801,510 for management levy and \$901,345 for public education and recreation levy. All other restricted net position consists of \$2,225,539 for categorical funding and \$959,983 for student activities and are restricted by grantors and donors.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Net position flow assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Budgetary and Budgetary Control

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. The District exceeded the budgeted expenditures in the instruction function (\$132,018), the support services function (\$4,542,317) and the noninstructional programs function (\$7,533).

Note 3. Cash and Cash Equivalents and Investments

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Interest rate risk: The District's investment policy as set in state statute limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but that maturities shall be consistent with the needs and use of the District.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 3. Cash and Cash Equivalents and Investments (Continued)

Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. As of June 30, 2024, the District's investments were as follows:

	Fair Value	Investment Maturities (in Years)				Level Input	Rating		
		<1	1-5	6-10	>10		Standard	Fitch	
							& Poor		
Investments Pools:									
Iowa Schools Joint Investment Trust (ISJIT)	\$ 10,340,457	\$ 10,340,457	\$ -	\$ -	\$ -	N/A	AAA	N/A	
Goldman Sachs Financial Square Governmental Fund	4,292,453	4,292,453	-	-	-	N/A	AAA	N/A	
Certificates of Deposit	47,773,204	47,773,204	-	-	-	N/A	N/A	N/A	
	\$ 62,406,114	\$ 62,406,114	\$ -	\$ -	\$ -				

At June 30, 2024, the District had investments in the Iowa Schools Joint Investment Trust (ISJIT) Diversified Fund which are valued at amortized cost of \$10,340,457 pursuant to Rule 2a-7 under the investment Company Act of 2040. There were no limitations or restrictions on withdrawals of the ISJIT investments.

The District has cash and investments of \$12,299,061 which will be used for future debt service as of June 30, 2024.

Credit risk: Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The District does not have a policy specific to credit risk. The credit related to the District investments are in the table above.

Concentration of credit risk: The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet its anticipated cash requirements. The District does not have a policy specific to concentration of credit risk. At June 30, 2024, the District had no investments subject to concentration of credit risk.

Custodial credit risk: For deposits, this is the risk that in the event of bank failure, the District's deposits may not be returned. For an investment this is the risk that in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession not an outside party. The District's deposits in banks at June 30, 2024 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This Chapter provides for additional assessments against the depositories to insure that will be no loss of public funds. The District's investments are held in the name of the District and are not exposed to custodial credit risk.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 4. Interfund Transfers

The following is a schedule of transfers as included in the basic financial statements of the District:

	Transfers In	Transfers Out
Major funds:		
General Fund	\$ 277,419	\$ 210,928
Capital Projects Fund	-	11,710,796
Other nonmajor governmental funds	11,921,724	10,000
Other nonmajor enterprise fund	-	267,419
	<u>\$ 12,199,143</u>	<u>\$ 12,199,143</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers out of the Capital Projects Fund are for debt service payments in the nonmajor Debt Service Fund.

Note 5. Capital Assets

Capital asset activity for the business-type activities for the year ended June 30, 2024 was as follows:

	Balance June 30, 2023	Additions	Retirements	Balance June 30, 2024
Business-type activities:				
Capital assets, being depreciated, machinery and equipment	\$ 4,522,617	\$ 1,084,879	\$ 80,616	\$ 5,526,880

Discount on revenue bonds, Series 2012	(33,902)	-	(6,164)	(27,738)	-
Revenue bonds, Series 2013	4,860,000	-	630,000	4,230,000	650,000
Premium on revenue bonds, Series 2013	86,540	-	15,734	70,806	-
Revenue bonds, Series 2014	11,620,000	-	1,490,000	10,130,000	1,540,000
Premium on revenue bonds, Series 2014	529,357	-	88,226	441,131	-
Revenue bonds, Series 2023	-	45,500,000	-	45,500,000	980,000
Premium on revenue bonds, Series 2023	-	1,031,353	27,141	1,004,212	-
Lease obligations	361,465	-	177,137	184,328	184,328
IT subscription obligations	71,024	260,898	112,396	219,526	56,476
Compensated absences	547,182	768,822	743,624	572,380	572,380
Net pension liability	30,961,013	5,725,712	-	36,686,725	-
Total OPEB liability	17,122,825	-	11,731,214	5,391,611	1,017,079
Total	\$ 121,639,071	\$ 64,391,710	\$ 22,544,755	\$ 163,486,026	\$ 11,715,263
Business-type activities,					
Compensated absences	\$ 54,132	\$ 55,756	\$ 31,284	\$ 78,604	\$ 78,604
Net pension liability	2,975,540	-	1,319,116	1,656,424	-
Total OPEB liability	798,122	-	529,670	268,452	45,921
	\$ 3,827,794	\$ 55,756	\$ 1,880,070	\$ 2,003,480	\$ 124,525

Compensated absences, IT subscription obligations and lease obligations are generally liquidated by the General Fund.

Total OPEB liability and net pension liability are generally liquidated by the General Fund for governmental activities and the respective funds for business-type activities.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 6. Long-Term Debt (Continued)

The District's general obligation and revenue debt is as follows:

Capital loan notes:

Series 2020A: On October 8, 2020, the District issued \$50,225,000 General Obligation School Capital Loan Notes, Series 2020A with interest rates ranging from 2.0 percent to 5.0 percent to construct, build, furnish and equip additions, including storm shelters to a number of schools. The notes are general obligations of the District to be paid from a continuing annual levy. Principal is payable each May 1 and interest is payable semi-annually each November 1 and May 1 until maturity on May 1, 2031. The total principal and interest remaining to be paid on the 2020A bonds is \$46,991,508. During the year ended June 30, 2024, \$4,555,000 of principal and \$1,638,700 of interest was paid on the bonds.

Series 2023: On September 28, 2023, the District issued \$10,060,000 General Obligation School Capital Loan Notes, Series 2023 with interest rates ranging from 5.0 percent to 7.0 percent to construct, build, furnish and equip additions, to a number of schools. The notes are general obligations of the District to be paid from a continuing annual levy. Principal is payable each July 1 and interest is payable semi-annually each November 1 and January 1 until maturity on May 31, 2031. The total principal and interest remaining to be paid on the 2023 bonds is \$12,335,687. During the year ended June 30, 2024, \$1,025,000 of principal and \$344,587 of interest was paid on the bonds.

Year ending June 30:	Capital Loan Refunding Notes, Series 2020A		
	Principal	Interest	Total
2025	\$ 4,785,000	\$ 1,410,950	\$ 6,195,950

Note 6. Long-Term Debt (Continued)

Revenue bonds:

Series 2012: On April 5, 2012, the District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.10 percent to 3.00 percent and had an unpaid balance of \$6,935,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2012 bonds is \$7,524,477. During the year ended June 30, 2024, \$1,045,000 principal was paid on the 2012 bonds and \$199,423 of interest was paid on the bonds.

Series 2013: On December 23, 2013, the District issued \$9,760,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2013 to finance school infrastructure projects. The bonds bear interest at rates ranging from 3.00 percent to 4.00 percent and had an unpaid balance of \$4,230,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2013 bonds is \$4,791,317. During the year ended June 30, 2024, \$630,000 of principal and \$157,495 of interest was paid on the 2013 bonds.

Series 2014: On June 24, 2014, the District issued \$22,320,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2014 to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.00 percent to 5.00 percent and had an unpaid balance of \$10,130,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2014 bonds is \$11,583,051. During the year ended June 30, 2024, \$1,490,000 of principal and \$363,413 of interest was paid on the 2014 bonds.

Series 2023: On September 28, 2023, the District issued \$45,500,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2023 to finance school infrastructure projects. The bonds bear interest at rates ranging from 4.0 percent to 6.0 percent and had an unpaid balance of \$45,500,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2023 bonds is \$72,163,787.

The statewide sales, services and use tax revenues were \$11,432,855 for the year ended June 30, 2024. Annual principal and interest payments on the bonds are expected to require approximately 35 percent of the statewide sales, services, and use tax revenues. Total principal and interest remaining on the revenue bonds is \$96,062,632. For the current year, total principal paid was \$3,165,000 and total interest paid was \$720,331.

West Des Moines Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2024**

Note 6. Long-Term Debt (Continued)

The resolution providing for the issuance of the revenue bonds included the following provisions:

- All proceeds from the statewide sales, service and use tax shall be deposited into the revenue account.
- Monies in the revenue account shall first be disbursed to make deposits into the sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year. At June 30, 2024, there was \$1,168,702, \$724,023, and \$1,703,081 deposited in the sinking account for the 2012, 2013 and 2014 bonds respectively.
- Monies in the revenue account shall next be disbursed to maintain a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. At June 30, 2024, there was \$979,069, \$798,495 and \$2,055,417, and \$4,092,736 deposited in the reserve account for the 2012, 2013, 2014, and 2023 bonds respectively.
- If monies in the sinking fund exceed the required amount, the excess shall be transferred to the revenue account. At June 30, 2024, there was \$201,104, \$194,529 and \$381,905 deposited in the revenue account for the 2012, 2013 and 2014 bonds respectively.

Excess of debt limit over debt outstanding, legal debt margin	\$ 399,344,460

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 7. Early Retirement

In order to hasten early retirement, the District offered an early retirement plan benefit to its employees. The Board reserves the right to amend or revoke this Early Retirement Plan or any provision of this plan at any time, with or without notice.

To be eligible to participate in this Plan, an employee must (1) have worked a minimum of 30 hours per week, or 70 percent of contract, during each of the last ten full years of service; (2) a year of service refers to a school year. Thus, in order to count as a school year, the employee must be employed by the first student contact day in order for that year to count towards a full year of service; (3) have a minimum of ten full years of continuous service in the District; (4) have obtained the age of 55 on date of retirement; (5) an employee terminated for just cause, or receiving payments or benefits from or on behalf of the District that are not tied to the performance of current duties, is not eligible (6) an employee is eligible to participate in the plan only at the end of the current school year for certified employees or nine month employees or June 30th for all other employees.

Benefits to eligible employees include a lump sum payment into a tax-sheltered annuity benefit of \$42,000 and a one-time lump sum contribution to the early retiree's tax-sheltered annuity account equaling 10 percent of the early retiree's base salary including teacher salary supplement or wage notice for the fiscal year 2024 school year. The contributions to the tax-sheltered annuity benefit will be made in July 2024 following the June 30, 2024 retirement.

In addition, the District has early retirees from prior early retirement plans who receive a contribution to their health insurance until the earlier of six years from the retirement date or the month prior to the early retiree's 65th birthday. The health insurance contributions under these prior plans mature in varying amounts through June 30, 2026.

As of June 30, 2024 the District had \$1,978,436 accrued in the Management Fund and \$54,348 accrued as a long-term liability in Governmental Activities. The current year cost to the District was \$2,121,320 which consisted of 39 participants in the fiscal year 2024 plan. A summary of changes in liability for early retirement is shown as follows:

Balance, June 30, 2023	\$ 2,388,913
Additions	1,906,476
Reductions	2,262,605
Balance, June 30, 2024	<u>\$ 2,032,784</u>

Note 8. Postemployment Benefits Other Than Pensions (OPEB)

General Information about the OPEB Plan

Plan description: The District's defined benefit OPEB plan, West Des Moines Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. The plan is a single-employer defined benefit OPEB plan administered by the District. Under Chapter 509A.13 of the Code of Iowa, "Group Insurance for Public Employees": *If a governing body... has procured insurance for its employees, the governing body shall allow its employees who retired before attaining sixty-five years of age to continue participation in the group plan or under the group contract at the employee's own expense until the employee attains sixty-five years of age.*

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 8. Other Postemployment Benefits (Continued)

In order to be eligible for the District premium subsidy at retirement, employees must have obtained the age of 55 with a minimum of ten full years of continuous employment in the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standard Board Statement No. 75.

Benefits provided: The Plan provides pre Medicare medical and prescription drug benefits to its participants. The medical and prescription drug benefits are provided through a self funded program administered by a third-party administrator. Retirees are eligible for an HMO or three self-insured PPO plans offered through Wellmark. Dental coverage is made available to eligible retirees and is fully contributory.

The full monthly premium rates as of July 1, 2024 for each plan are as shown below:

Rate Tier	HMO	PPO 1	PPO 2	PPO 3
Single	\$ 742	\$ 713	\$ 668	\$ 645
Subscriber and Spouse	1,633	1,568	1,470	1,418
Subscriber and Children	1,410	1,354	1,269	1,225
Family	2,227	2,138	2,004	1,934

Prior to July 1, 2021, early retirees meeting eligibility requirements are reimbursed a fixed subsidy equal to the lowest single medical premium equivalent at the time of retirement. The District provides the subsidy for six years or until the retiree reaches age 65.

Employees covered by benefit terms: At June 30, 2024, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	68
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,256
	<u>1,324</u>

Total OPEB Liability

The District's total OPEB liability of \$5,660,063 was measured as of June 30, 2024 and was determined by an actuarial valuation as of June 30, 2024.

Actuarial assumptions and other inputs: The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.7% per annum
Salary increases	3.25% per annum
Discount rate	3.93% per annum
Retirees' share of benefit-related costs	0%
Health care cost trend rate	7.8%
	The trend rate is reduced by 0.30% each year until reaching the ultimate trend rate of 4.0%

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 8. Other Postemployment Benefits (Continued)

The discount rate was based on the Bond Buyer 20-Bond GO index. Mortality rates were based on the Pub-2010 mortality table with generational scale MP-2021. The actuarial assumptions used in the June 30, 2024 valuation were based on the results of an actuarial experience study for the period 2010– 2021.

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance at July 1, 2023	\$ 17,920,947
Changes for the year:	
Service cost	1,514,092
Interest	689,981
Changes of benefit terms	-
Differences between expected and actual experience	(6,648,227)
Changes in assumptions or other inputs	(6,753,850)
Benefit payments	(1,062,880)
Net changes	(12,260,884)
Balance at June 30, 2024	\$ 5,660,063

There were no changes as a result of benefits terms. The difference between expected and actual experience is due to claims and premiums were less than expected and census experience between the valuation dates, which was primarily due to less retirement participation than expected. The change in assumption gains were primarily due to 1) updated assumed member participation rate from 85% to 35%, 2) updating assuming retirement rates, 3) updating assumed spouse participation rate, 4) updating the discount rate from 3.65% in 2023 to 3.93% in 2024, and 5) updating application of IPERS School and Other termination and mortality tables. These gains were partially offset by updating assumed healthcare cost trend rates

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease (2.93%)	Discount Rate (3.93%)	1% Increase (4.93%)
Total OPEB liability	\$ 6,068,053	\$ 5,660,063	\$ 5,280,516

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates: The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

	1% Decrease (6.75% decreasing to 3.0%)	Healthcare Cost Trend Rates (7.75% decreasing to 4.0%)	1% Increase (8.75% decreasing to 5.0%)
Total OPEB liability	\$ 5,139,198	\$ 5,660,063	\$ 6,273,494

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 8. Other Postemployment Benefits (Continued)

For the year ended June 30, 2024, the District recognized OPEB expense (revenue) of (\$92,395). At June 30, 2024, The District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (9,732,794)
Changes of assumptions or other inputs	420,468	(9,758,295)
Net difference between projected and actual investments	-	-
Total	\$ 420,468	\$ (19,491,089)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2025	\$ (2,296,468)
2026	(2,296,468)
2027	(2,296,468)
2028	(2,232,947)
2029	(2,308,284)
Thereafter	(7,639,986)
	<u><u>\$ (19,070,621)</u></u>

Note 9. Retirement System

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012, will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 9. Retirement System (Continued)

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2024, pursuant to the required rate, Regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District's contributions to IPERS for the year ended June 30, 2024 were \$7,430,317.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2024, the District reported a liability of \$38,343,149 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2023, the District's collective proportion was 0.8494900 percent, which was an decrease of 0.048742 from its proportion measured as of June 30, 2022.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 9. Retirement System (Continued)

For the year ended June 30, 2024, the District recognized pension expense of \$2,718,024. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,243,882	\$ (157,604)
Changes of assumptions	-	(608)
Net difference between projected and actual earnings on pension plan investments	3,551,040	-
Changes in proportion and differences between District contributions and proportionate share of contributions	162,366	(2,190,658)
District contributions subsequent to the measurement date	7,430,317	-
Total	\$ 14,387,605	\$ (2,348,870)

\$7,430,317 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2025	\$ (1,517,078)
2026	(3,404,020)
2027	8,174,153
2028	1,233,874
2029	121,489
Thereafter	-
Total	\$ 4,608,418

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation (effective June 30, 2017)	2.60 percent per annum
Salary Increases (effective June 30, 2017)	3.25 percent to 16.25 percent average, including inflation. Rates vary by membership group.
Investment rate of return (effective June 30, 2017)	7.00 percent, compounded annually, net of investment expense, including inflation
Wage growth (effective June 30, 2017)	3.25 percent per annum, based on 2.60 percent inflation and 0.65 percent real wage inflation

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 9. Retirement System (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of a quadrennial experience study covering the period of July 1, 2017 through June 30, 2021. Mortality rates used in the 2023 valuation were based on the PubG-2010 mortality tables with future mortality improvements modeled using Scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	21.0%	4.56%
International equity	16.5%	6.22%
Global smart beta equity	5.0%	5.22%
Core plus fixed income	23.0%	2.69%
Public credit	3.0%	4.38%
Cash	1.0%	1.59%
Private equity	17.0%	10.44%
Private real assets	9.0%	3.88%
Private credit	4.5%	4.60%
Total	100%	

West Des Moines Community School District

Notes to Basic Financial Statements
Year Ended June 30, 2024

Note 9. Retirement System (Continued)

Discount Rate – The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)
District's proportionate share of the net pension liability (asset)	\$ 81,526,078	\$ 38,343,149	\$ 2,155,141

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS’ website at www.ipers.org.

Payables to the Pension Plan – At June 30, 2024, the District reported payables to the defined benefit pension plan of \$672,397 for legally required employer contributions and \$448,027 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 10. Risk Management

The District is exposed to various risks of loss related to torts, theft; damage to and destruction of assets; errors and omissions; and natural disasters. These risks, except injuries to employees and claim payments for health, prescriptions and dental insurance, are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District has established an internal service fund to account for premium and claim payments for a self-insured group health insurance plan for the District’s employees to meet potential losses from medical claims. Self-insurance is in effect up to an individual stop loss amount of \$200,000 and aggregate amount of 125 percent of expected claims. The District also self-insures for its dental plan. The dental plan includes no aggregate reinsurance.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 10. Risk Management (Continued)

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claims payable include all known claims and an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are estimated by considering the effects of inflation, recent claim settlement trends, including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims payable during the years ended June 30, 2024 and 2023 are as follows:

	Self-Insurance Fund	
	2024	2023
Claims payable, beginning of year	\$ 2,595,963	\$ 3,000,000
Incurred claims (including IBNR and changes in estimates)	16,447,231	17,302,913
Claim payments	16,641,813	17,706,950
Claims payable, end of year	<u>\$ 2,401,381</u>	<u>\$ 2,595,963</u>

Each participating fund makes payments to the self-insurance fund for amounts which are determined based on historical claims experience. Such payments are displayed on the financial statements as revenues and expenditures/expenses. There have been no significant reductions in insurance coverage from the prior year.

Note 11. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the local area education agency. The District's actual amount for this purpose totaled \$4,260,853 the year ended June 30, 2024 and is recorded in the General Fund by making a memorandum adjusting entry to the financial statements.

The Governor signed House File 2612 on March 27, 2024, which changes the percentage of education and media services funding generated through local property taxes by Districts which flow through to each Area Education Agency (AEA) beginning July 1, 2024. For fiscal year 2025, 40% of the educational and media services funds generated by the Districts will continue to flow through to each AEA, while 60% of the funding will be retained by the District that generated the funds.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 12. Commitments and Contingencies

As of June 30, 2024, the District is involved in various claims against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

Note 13. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2024 under tax abatement agreements of other entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Clive, Iowa	Urban renewal and economic development projects	\$ 130,356
City of Urbandale, Iowa	Urban renewal and economic development projects	68,233
City of West Des Moines, Iowa	Urban renewal and economic development projects	139,989

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2024, this reimbursement amounted to \$173,842.

Note 14. New Governmental Accounting Standards Board (GASB) Statements

The District adopted the following statement during the year ended June 30, 2024:

GASB Statement No. 100, *Accounting Changes and Error Corrections- An Amendment of GASB Statement No. 62*, issued June 2022. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The above statement did not have a material impact on the District's Financial Statements.

As of June 30, 2024, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 101, *Compensated Absences*, issued June 2022, will be effective for the District beginning with its fiscal year ending June 30, 2025. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2024

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. With respect to financial statements prepared using the current financial resources measurement focus, this Statement requires that expenditures be recognized for the amount that normally would be liquidated with expendable available financial resources. This Statement amends the existing requirements to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability (As long as they identify it as a net change). In addition, governments are no longer required to disclose which governmental funds typically have been used to liquidate the liability for compensated absences.

GASB Statement No. 102, *Certain Risk Disclosures*, issued December 2023, will be effective for the District beginning with its fiscal year ending June 30, 2025. The objective of this Statement is to provide users of government financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints that is essential to their analyses for making decisions or assessing accountability. A government should provide information in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact associated with the concentration or constraint. The disclosures should include descriptions of the following: (a) The concentration or constraint (b) Each event associated with the concentration or constraint that could cause a substantial impact if the event had occurred or had begun to occur prior to the issuance of the financial statements (c) Actions taken by the government prior to the issuance of the financial statements to mitigate the risk.

GASB Statement No. 103, *Financial Reporting Model Improvements*, issued April 2024, will be effective for the District beginning with its fiscal year ending June 30, 2026. The objective of this statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*, issued September 2024, will be effective for the District beginning with its fiscal year ending June 30, 2026. The objective of this statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement No. 87, *Leases*, and intangible right-to-use assets recognized in accordance with Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, should be disclosed separately by major class of underlying asset in the capital as-sets note disclosures. Subscription assets recognized in accordance with Statement No. 96, *Subscription-Based Information Technology Arrangements*, also should be separately disclosed. In addition, this Statement requires intangible assets other than those three types to be disclosed separately by major class. This Statement also requires additional disclosures for capital assets held for sale.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Total OPEB liability as a percentage of covered employee payroll	8%	23%

Notes to Schedule:

Changes of benefit terms:

There were no changes as a result of changes in benefit terms.

Changes of assumption:

Changes of assumptions or other inputs reflect a change in the discount rate. The following are the discount rates used in each period:

3.93%	3.65%
-------	-------

2024:

The difference between expected and actual experience is due to claims and premiums were less than expected and census experience between the valuation dates, which was primarily due to less retirement participation than expected. The change in assumption gains were primarily due to 1) updated assumed member participation rate from 85% to 35%, 2) updating assuming retirement rates, 3) updating assumed spouse participation rate, 4) updating the discount rate from 3.65% in 2023 to 3.93% in 2024, and 5) updating application of IPERS School and Other termination and mortality tables. These gains were partially offset by updating assumed healthcare cost trend rates.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75

* The schedule is intended to present information for ten years.

Note to Required Supplementary Information

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major special revenue fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and custodial funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared in accordance with generally accepted accounting principles.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District did not amend the budget. The District exceeded the budget in the instruction, support services and noninstructional programs functions by \$132,018, \$4,542,317 and \$7,533, respectively.

Note 2. Iowa Public Employees' Retirement System Pension Liability

Changes of benefit terms:

There are no significant changes in benefit terms.

Changes of assumptions:

The 2023 valuation incorporated the following refinements after a quadrennial experience study:

- Changed mortality assumptions to the PubG-2010 mortality tables with mortality improvements modeled using Scale MP-2021.
- Adjusted retirement rates for Regular members.
- Lowered disability rates for Regular members.
- Adjusted termination rates for all membership groups.

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

West Des Moines Community School District

Note to Required Supplementary Information

Note 2. Iowa Public Employees' Retirement System Pension Liability (Continued)

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

West Des Moines Community School District

Statistical Section Contents

The statistical section of the District's annual comprehensive financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

Contents	Page
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.	80
Revenue Capacity	
These schedules contain information to help the reader assess the District's most significant local revenue sources, the property tax (or sales tax).	94
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.	100
Demographic and Economic Information	110
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	114
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive report for the relevant year.

Notes: The assessed values are determined as of January 1, of the prior fiscal year indicated. These assessed values are used to calculate the taxable values for the second budget following assessment date. For taxable values for the second budget following assessment date. For example the total assessed value of \$5,065,497,498 from January 1, 2018 is used for the taxable values for fiscal year 2020.

Gas and electric is not subject to property tax, but instead pay utility replacement taxes.

Notes:

Includes levies for operating and debt service costs.

The District has certain restrictions on raising the property tax rate.

General Fund - the District's enrollment as well as District property value and state aid is formula calculated to determine the maximum amount of allowable funding.

Special Revenue Funds - The Special Revenue Fund, PPEL has a restriction from voters of \$1.00 and board imposed levy up to \$0.33.

Estimated Future Tax Revenues (Unaudited)

Presented below is a table illustrating the estimated collections of the tax for the periods indicated, using the assumptions below:

Fiscal Year June 30:	Without Growth Estimated Collection				With Growth Estimated Collection			
	(1)	(2)	(3)	(4)(6)	(1)	(2)	(3)(5)	(6)
2016	\$			8,727,573	\$			8,727,573
2017				8,635,006				8,635,006
2018				8,353,971				8,353,971
2019				9,148,540				9,148,540
2020				9,263,381				9,263,381
2021				8,973,645				8,973,645
2022				10,645,258				10,645,258
2023				12,284,612				12,284,612
2024				10,802,025				11,234,106
2025				10,802,025				11,683,470
2026				10,802,025				12,150,809
2027				10,802,025				12,636,841
2028				10,802,025				13,142,315
2029				10,802,025				13,668,008
2030				10,802,025				14,214,728
2031				10,802,025				14,783,317
2032				10,802,025				15,374,650
2033				10,802,025				15,989,636

1) FY2023 tax revenue is based on the Iowa Department of Revenue estimates and includes the FY2022 reconciliation payment in the amount of \$1,482,587.

2) After October 2023, tax revenue will be based on actual receipts, not Iowa Department of Revenue estimates.

So there will be no reconciliation payment in FY2024 or subsequent years.

3) The District projects future enrollment to remain stable at 8,775.

4) Assumes 0% growth in future statewide average funding per pupil.

5) Assumes 4% growth in future statewide average funding per pupil.

6) The Tax expires January 1, 2050.

West Des Moines Community School District

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2024

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of West Des Moines Community School District under programs of the federal government for the year ended June 30, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2. Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards are reported on the modified accrual or accrual basis of accounting based on the fund type of the program. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements. Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal awards is recognized when it is both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Indirect Cost Rate

The District has elected not to use the 10-percent de minimus indirect cost rate allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of West Des Moines Community School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 25, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of West Des Moines Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters which are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2024 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The signature is written in a cursive, handwritten style. It reads "Bohnsack & Frommelt LLP". The ampersand is stylized.

Moline, Illinois
November 25, 2024

**Independent Auditor's Report on Compliance For Each
Major Federal Program and On Internal Control
Over Compliance Required by the Uniform Guidance**

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited West Des Moines Community School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, West Des Moines Community School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error; as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgment and maintain professional skepticism throughout the audit,
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs Year Ended June 30, 2024

Part II: Findings Related to the Basic Financial Statements

Instances of noncompliance:

No instances to report.

Significant Deficiencies:

No instances to report.

Part III: Findings and Questioned Costs for Federal Awards

Instances of noncompliance:

No instances to report.

Internal control deficiencies:

No instances to report.

Part IV: Other Findings Related to Statutory Reporting

IV-A-24 - Certified Budget:

Finding: Expenditures for the year ended June 30, 2024 exceeded the amended certified budget in the instruction, support services and noninstructional programs functions.

Recommendation: The certified budget should be amended before expenditures are allowed to exceed the budget.

Response and Corrective Action Plan: Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion: Response accepted.

IV-B-24 - Questionable Expenditures: There were no expenditures noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-24 - Travel Expense: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-24 - Business Transactions: : No business transactions between the District and District officials or employees were noted except for the following:

The District incurred \$10,620 in expenditures to Drake University. Board Member Jill Canton Johnson is an employee of Drake University and abstains from voting on the transactions.

The District incurred \$8,866 for Contemporary Services Corporation. Board Member Lila Montoya Starr abstains from voting on the transactions. The District incurred \$695,086 in expenditures with the Iowa Department of Human Services. Board Member Lila Montoya Starr is an employee.

In accordance with the Attorney General's opinion dated November 9, 1976, the transactions do not appear to represent a conflict of interest.

West Des Moines Community School District

Schedule of Findings and Questioned Costs Year Ended June 30, 2024

IV-E-24 - Restricted Donor Activity: No transactions were noted between the District, District officials or District employees and restricted donors in compliance with Chapter 68B of the Code of Iowa.

IV-F-24 - Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.

IV-G-24 - Board Minutes: No transactions requiring Board approval which had not been approved by the Board were noted.

IV-H-24 - Certified Enrollment:

Finding: The District identified variances in certified enrollment certified to the state in October 2023.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission. Unfortunately, facts are learned after certification date that result in required adjustments.

Conclusion: Response accepted.

IV-I-24 - Supplementary Weighting:

Finding: The District identified variances in supplementary weighting certified to the state in October 2023.

Recommendation: We recommend the District review supplementary weighting for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

IV-J-24 - Deposits and Investments: No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

IV-K-24 - Certified Annual Report: The certified annual report was certified timely to the Iowa Department of Education.

IV-L-24 - Categorical Funding: No instances of categorical funding being used to supplant rather than supplement other funds were noted.

IV-M-24 - Statewide Sales and Services Tax: No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted. Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education.

West Des Moines Community School District

Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

For the year ended June 30, 2024, the District reported the following information regarding the statewide sales and services tax revenue in the District's CAR:

Beginning balance		\$ (13,672,996)
Revenues/other financing sources:		
Statewide sales and services tax revenue	\$ 11,432,855	
Investment earnings	825,527	
Other local sources	139,246	
Proceeds from issuance of debt	45,500,000	
Premium on issuance of debt	1,031,353	58,928,981
Expenditures/other financing uses:		
Instruction	1,119,558	
Support services	618,479	
Debt service, fiscal charges	967,175	
Transfers out, debt service	3,898,287	
School infrastructure:		
Buildings	20,378,087	26,981,586
Ending balance		<u>\$ 18,274,399</u>

For the year ended June 30, 2024, the District reduced the tax levy by not having a debt service levy of \$2.02 per \$1000 of taxable valuation as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.
